Music for Prime Time Jon Burlingame, 2023 This completely revised updated and expanded edition of Jon Burlingame's 1996 classic book covers themes not touched upon in the original version With hundreds of interviews conducted over a 35 year span this book is the most comprehensive history of television scoring to date *Popular Religion in Russia* Stella Rock, 2007-09-10 This book dispels the widely held view that paganism survived in Russia alongside Orthodox Christianity demonstrating that double belief *dvoeverie* is in fact an academic myth Scholars citing the medieval origins of the term have often portrayed Russian Christianity as uniquely muddled by paganism with double believing Christians consciously or unconsciously preserving pagan traditions even into the twentieth century This volume shows how the concept of *dvoeverie* arose with nineteenth century scholars obsessed with the Russian folk and was perpetuated as a propaganda tool in the Soviet period colouring our perception of both popular faith in Russian and medieval Russian culture for over a century It surveys the wide variety of uses of the term from the eleventh to the seventeenth century and contrasts them to its use in modern historiography concluding that our modern interpretation of *dvoeverie* would not have been recognized by medieval clerics and that double belief is a modern academic construct Furthermore it offers a brief foray into medieval Orthodoxy via the mind of the believer through the language and literature of the period Philosophical Education Beyond the Classroom Markus Tiedemann, 2024-02-15 Didactics of philosophy and ethics demands problem-based orientation and relevance for real life experiences However excursions extracurricular places of learning or outdoor education have hardly been taken into account A systematic exploration of possible cooperations synergy effects or incompatibilities has not yet been carried out

The present volume attempts to close this gap and to create an initial basis for further research testing and discussion. It is intended to make a contribution to teacher training at universities and study seminars as well as to exploratory research in subject didactics.
