ways consistent with their interests with the sexual behaviors of adults and with the school and job opportunities afforded them Decision-Making Process around Teenage Motherhood Miriam Müller, 2019-11-27 The objective of this study is to understand the perceptions beliefs and influencing factors that may lead to different fertility outcomes among young women in Nicaragua a country with one of the highest adolescent fertility rates in Latin America The results are based on qualitative data collected in urban areas Miriam Müller reveals that two structural constraints affect women's choices and their capacity to actively participate in defining their life paths poverty and traditional gender norms This book contributes to the discussion of intergenerational transmission of poverty by disentangling the mechanisms behind decision making around teenage motherhood and by describing the consequences of these decisions **Teen Pregnancy** Jennifer

MacKay, 2011-04-22 The C D C reports that a total of 249 078 babies were born to women between the ages of 15 to 19 in 2014 According to The National Campaign the teen pregnancy rate has decreased 64 percent between 1991 and 2015 but the rate of teenage pregnancy in United States continues to rank consistently higher than those of other western countries This informative volume contextualizes and explores issues surrounding teen pregnancy Chapters discuss its causes social factors that contribute to teen pregnancy if it is a public health problem and the various options for pregnant teens

American Baby Gabrielle Glaser, 2022-01-25 A New York Times Notable Book The shocking truth about postwar adoption in America told through the bittersweet story of one teenager the son she was forced to relinquish and their search to find each other This book about the past might foreshadow a coming shift in the future I don't think any legislators in those states who are anti abortion are actually thinking Oh great these single women are gonna raise more children No their hope is that those children will be placed for adoption But is that the reality I doubt it says Glaser Mother Jones During the Baby Boom in 1960s America women were encouraged to stay home and raise large families but sex and childbirth were taboo subjects Premarital sex was common but birth control was hard to get and abortion was illegal In 1961 sixteen year old Margaret Erle fell in love and became pregnant Her enraged family sent her to a maternity home where social workers threatened her with jail until she signed away her parental rights Her son vanished his whereabouts and new identity known only to an adoption agency that would never share the slightest detail about his fate The adoption business was founded on secrecy and lies American Baby lays out how a lucrative and exploitative industry removed children from their birth mothers and placed them with hopeful families fabricating stories about infants origins and destinations then closing the door firmly between the parties forever Adoption agencies and other organizations that purported to help pregnant women struck unethical deals with doctors and researchers for pseudoscientific assessments and shamed millions of women into surrendering their children The identities of many who were adopted or who surrendered a child in the postwar decades are still locked in sealed files Gabrielle Glaser dramatically illustrates in Margaret and David's tale one they share with millions of Americans a story of loss love and the search for identity **Global Perspectives on Women's Sexual and**

Reproductive Health Across the Lifecourse Shonali Choudhury, Jennifer Toller Erausquin, Melissa Withers, 2017-09-19

This expansive survey spotlights pervasive issues affecting girls and women's sexual and reproductive health across the lifecourse. Research from diverse countries around the world analyzes the complex relationships among biological, psychological, sociocultural, and economic issues, particularly in terms of inequities as they shape women's lives. Major challenges and possibilities for intervention are examined in their national context and with their global implications, including child marriage, motherhood, reproductive care and access, fertility, childbearing, contraception, abortion, HIV, STIs, gender-based violence, sexual pleasure, and menopause. In these forceful dispatches, a consistent human rights perspective emphasizes women's control, autonomy, and agency in all stages of their lives. A sampling of topics covered: Girl child marriage, a persistent global women's health and human rights violation; Investigating challenges and resilience among women living with obstetric fistula in Kenya; A qualitative exploration of mainstream and social media reflections on abortion; A continuum of severity of sexual intimate partner violence among black women in the United States; Economic empowerment to improve sexual and reproductive health among women and girls; Summarizing an interdisciplinary field on research and practical levels. *Global Perspectives on Women's Sexual and Reproductive Health Across the Lifecourse* will be an invaluable text for undergraduate and graduate courses in a wide range of fields, including public health, global health, women's studies, sociology, anthropology, gender studies, and human rights.

The Future of Motherhood in Western Societies Gijs Beets, Joop Schippers, Egbert R. te Velde, 2010-12-06. Most people value to have children still highly. But what is the optimal moment to have the first? The decision on having children or not, and if yes, on the timing of the first, is one of the most difficult ones to make, also because it more or less coincides with various other heavy decisions on shaping the life course, like on union formation, labour market, career, housing, accommodation, etc. People realise that having children will fundamentally change their life, and in order to fit this unknown and irreversible adventure perfectly into their life course, postponement of the first birth is an easy way out as long as doubts continue and partners try to make up their mind. Modern methods of birth control are of course a very effective help in that period. What is the best moment to have the first child? And to what moment is postponement justified? There are no easy answers to these questions. Best solutions vary per person as they depend on personal circumstances and considerations; the partner may have conflicting ideas; housing, accommodation, job, income, free time, activities. Existing parental leave and child care arrangements are weighted as well. Unfortunately, the biological clock ticks further. And also unfortunately, assisted reproductive technology (IVF, etc.) is unable to guarantee a successful outcome. Several couples end up without children involuntarily, and that may lead to sorrow and grief. This interdisciplinary book overviews the process of postponement and its backgrounds in modern Western societies, holistically, both at the personal and the societal level. Contributions come from reproductive, evolutionary, biological, and neurological sciences, as well as from demography, economy, sociology, and psychology. It holds not only for women but also for men becoming first-time fathers. The

discussion boils down to a new policy approach for motherhood and emancipation on how to shape work and family life It is argued that a public window where one can compose a cafeteria like set of supportive arrangements according to personal preferences could lead to a break in the rising age at first motherhood

Sociocultural Studies in Education Richard A Quantz,2016-01-08 Sociocultural Studies in Education Critical Thinking for Democracy fills a void in the education of educators and citizens in a democracy It explores some of the fundamentals around which disagreements in education arise It presents a process with which those new to these debates can understand often confusing and entwined sets of facts and logics This book leads the reader through some general concepts and intellectual skills that provide the basis for making sense out of the debates around public education in a democracy This book can be seen as a primer on how to read texts about education It acknowledges that good teachers must be not only trained to teach but also educated about education It presents the various themes and currents found within the arguments and narratives that people use to represent public education It assumes that the more those interested in education know about how to see through the rhetoric the better they will be at discerning whose interests are served by which texts

On Becoming a Teen Mom Mary Patrice Erdmans,Timothy Black,2015-02-06 In 2013 New York City launched a public education campaign with posters of frowning or crying children saying such things as I m twice as likely not to graduate high school because you had me as a teen and Honestly Mom chances are he won t stay with you Campaigns like this support a public narrative that portrays teen mothers as threatening the moral order bankrupting state coffers and causing high rates of poverty incarceration and school dropout These efforts demonize teen mothers but tell us nothing about their lives before they became pregnant In this myth shattering book the authors tell the life stories of 108 brown white and black teen mothers exposing the problems in their lives often overlooked in pregnancy prevention campaigns Some stories are tragic and painful marked by sexual abuse partner violence and school failure Others depict girl next door characters whose unintended pregnancies lay bare insidious gender disparities Offering a fresh perspective on the links between teen births and social inequalities this book demonstrates how the intersecting hierarchies of gender race and class shape the biographies of young mothers

Dealing with Teen Pregnancy Emily Mahoney,Jennifer MacKay,2016-12-15 How big of a concern is teen pregnancy in today s society What options do teens have once they get pregnant This controversial issue is examined in depth presenting young adults with information from all sides of the debate Graphs and full color photographs highlight the discussion of the underlying social factors that are the root causes of teen pregnancy to make readers better informed about these issues A list of websites gives pregnant teens resources to turn to for support and advice
