Teilhard Scripture And Revelation:

Teilhard, Scripture, and Revelation Richard W. Kropf, 1980 A systematic thematic survey of the writings of Teilhard de Chardin that concentrates on the inspiration given Teilhard by scriptural themes especially those drawn from St Paul for Teilhard appealed to these themes often in confirmation of the basic orthodoxy of his synthesis

Teilhard, Scripture, and Revelation Richard William Kropf (priest), 1980 *Teilhard de Chardin* David Grumett, 2005 Pierre Teilhard de Chardin 1881-1955 has been regarded for too long as an esoteric thinker who evacuates theology by subjecting it to scientific theory There is an urgent need to reclaim him as a French catholic theologian with intellectual roots in the early twentieth century Teilhard's imaginative and inspiring work is grounded in the constructive use of biblical and patristic motifs and in his own life experiences of war exile and scientific endeavour From these he develops a distinctive philosophical theology which combines elements frequently assigned to the separate domains of philosophy of religion systematic theology and mysticism Teilhard provides a detailed theology of human embodiment and natural substances whilst his theories of human action passion vision and virtue offer suggestive resources to pastoral theology His evolutionary cosmology and social democratic politics are discussed in their historical context and the significance of his work for the ongoing dialogue between science and religion is assessed

Teilhard's Mass Thomas Mulvihill King, 2005 Essays by Teilhard de Chardin on the text of the Mass of the World from his work *The Divine Milieu*

Between Science and Religion Phillip M. Thompson, 2009-08-15 In exploring the role of Catholic intellectuals in engaging science and technology in the twentieth century this book initially provides a background context for this evolution by examining the Modernism crisis in the first chapter In order to unpack the subsequent evolution Thompson then concentrates in separate chapters on the distinctive contributions of four specific Catholic intellectuals Jacques Maritain 1882-1973 Pierre Teilhard de Chardin 1881-1955 Bernard Lonergan 1904-1984 and Thomas Merton 1915-1968 All of these intellectuals experienced some degree of official restraint in their efforts but through their distinctive intellectual trajectories they contributed to a different engagement of the Church with science and technology In the final chapters the book first reviews the changes within the institutional Church in the twentieth century toward science and technology Finally it then applies some key ideals of the four intellectuals to anneal and extend John Paul II's approach of critical openness to suggest how the Church can now engage science and technology

Many Roads Lead Eastward Robert D. Miller II, OFS, 2016-10-27 Is there a gap between the academic study of the Bible and the work of theologians What lies behind this gap And most important how have biblical scholars tried to bridge the gap with hermeneutical methods This book addresses the exegesis vs theology impasse and categorizes the most important attempts to bridge it over the past century especially those of the last decades These attempts are assessed and evaluated so that readers can see the philosophies undergirding each and the potential each has for a true theological interpretation of the Bible

Globalization and Multicultural Ministry David J. Ayotte, 2012 Behind simplified economic and political

perceptions of the forces of globalization is a much more complex spiritual evolutionary process whereby the world and all creation is being drawn into being the presence of Christ a Christogenesis

Evil and Evolution: A Theodicy Richard W. Kropf, 2004-08-18 First published in 1984 and recently revised and updated this book deals with the problem of evil or theodicy God's justice It contends that the process of evolution particularly as it bears on the emergence of free will rather than being a barrier to faith gives us the key to understanding its greatest obstacle the existence of so much suffering in the world It further advances the still contested claim that God is truly our fellow sufferer in our struggle to overcome evil in all of its many forms

Incarnation and Neo-Darwinism David O. Brown, 2019-11-15 A ground breaking theological appreciation of neo Darwinism arguing that evolution is not the way that God creates but is a consequence of creatures imitating and participating in God

Material Eucharist David Grumett, 2016-09-22 Material Eucharist interprets the Eucharist through its material elements of bread and wine Drawing upon a rich variety of biblical patristic medieval and modern texts and traditions David Grumett brings together theological reflection and liturgical action and shows their mutual dependence For both theologians and liturgists a central concern is the matter out of which the created order has been made from which issues of community and social justice are inseparable The ingredients of bread and wine anticipate in their harvesting and manufacture the formal church liturgy which is extended back into the world by the transformative priestly action of laypeople Indeed the transforming presence of Christ in the Eucharist as flesh and substance is theologically grounded in his transformative presence in the wider created order as expressed in eucharistic giving and exchange between churches and their wider communities Rooting the Eucharist in materiality suggests its primary context to be the death and resurrection of Christ in the power of the Spirit in which its recipients may share The

many aspects of theology and liturgy with which the book deals have large implications for how the Eucharist is understood in a range of academic disciplines and for how it is celebrated in churches today **Logical Faith** Joseph P.

Provenzano, Richard W. Kropf, 2007-07-30 Science has failed to develop ethical guidelines or a path to personal fulfillment as previously expected Religious differences continue to be a source of friction threatening world peace But now a new more encompassing vision of reality a vision that offers new ways to address these problems is emerging This evolutionary view presented by authors Joseph P Provenzano and Richard W Kropf builds on the findings of modern science but also touches on personal fulfillment and spiritual values In our worldwide computerized information age we have seen an unprecedented clash of moral values scientific pursuits religions spiritual movements and cultures Provenzano and Kropf explain how it is possible to have a religious faith consistent with the understanding of matter and energy as studied by contemporary science logical faith Logical Faith Introducing a Scientific View of Spirituality and Religion presents a clear down to earth formulation of an emerging vision Provenzano and Kropf show how their viewpoint can be used as a bridge between science and spirituality and as a base to develop a new path to tolerance among the world's great religions and spiritual movements

Evolutionary Theology Michael Anthony Abril, 2024-08-27 The last century witnessed an explosion of theologies born out of the conviction that the science of evolution can and must contribute to our understandings of God humanity technology suffering sin and the natural world Even today a sense of development continues to shape contemporary understandings of not only our origins but also our place in the world now and in the future Evolutionary theology's popularity continues to accelerate but the conversation has lacked a critical comprehensive and accessible introduction to this field until now Evolutionary Theology provides a clear critical and concise synthesis of the most influential viewpoints in the field from its origins in the eighteenth century to its maturation in the twenty first Topics include scientific contributions philosophical ideas dogmatic debates and the development of process theology Abril provides a springboard for researchers teachers and college students to critically engage the existing literature and develop new constructive ideas Evolutionary Theology is accessible to students is helpful to scholars and includes a wide range of perspectives from science philosophy and theology Catholic and Protestant It illustrates how integrating faith with science as an inescapable and crucial dimension of modern life leads to both fruitful discoveries and important challenges **A Handbook of Theology** Dr. Daniel L. Akin, David S.

Dockery, Nathan A. Finn, Christopher W. Morgan, 2023-04-01 In A Handbook of Theology editors Daniel Akin David Dockery and Nathan Finn select nearly fifty contributors in the Baptist and evangelical heritage to lay a biblically informed foundation of a Christian theology for students pastors and church leaders This volume surveys six parts of theology foundations Part 1 types of theology Part 2 history and geography Part 3 Christian doctrine Part 4 the Christian life Part 5 and theology and culture Part 6 Each author centers their theological topics in the Scriptures while also being Trinitarian Christ centered Spirit enabled and mission focused The Theology for the People of God series is edited by David S Dockery Nathan A Finn

and Christopher W Morgan **Cosmic Prayer and Guided Transformation** Robert Govaerts, 2012-08-29 This book presents a realistic and thoroughly spiritual outlook upon the entire created reality It lets us envisage that various created entities are participant in a relationship with God that becomes increasingly one of an intimate personal quality that is a relationship of love It thus invites discernment that the universal reality is valuable in its own right and not only as a good for the use of humanity Drawing mainly upon Scripture ancient writers especially Maximus the Confessor as well as contemporary natural sciences this book encourages the reader to perceive human salvation not as a lifting of humanity out of creation but as a transformation into God's presence in the midst of the wider created order It shows that Christian faith at its best does not exclude the wider creation but provides us with insight and hope for a harmonious being in God that is inclusive of creation It shows that Christian faith can be a resource that helps overcome the ecological crisis **National Union Catalog** , Includes entries for maps and atlases Theology and Sacred Scripture Carol J. Dempsey, William Loewe, 2024-03-14 Theology and Sacred Scripture Original essays demonstrate the complex and varying relationships between theology and scripture Contributors Kathleen M O Connor Columbia Theological Seminary Amy Jill Levine Vanderbilt University Divinity School Diana L Hayes Georgetown University Francis X Clooney Boston College Russell A Butkus University of Portland Patricia McDonald Mount St Mary's College Maria Pascuzzi University of San Diego Daniel Van Slyke Caldwell College Jason Bourgeois St Mary's University of Minnesota John Topel Seattle University Terrence W Tilley University of Dayton Regina A Boisclair Alaska Pacific University James M Donohoe Mount St Mary's College *How Would We Know What God is Up To?* Ernst M. Conradie, Cynthia Moe-Lobeda, 2023-03-01 This second volume in the series on An Earthed Faith will address the following question Given what we know about the Anthropocene how does one even begin to answer the question What is this God up to and how ought humans respond This is a question of theological method including the sources and interlocutors of Christian theology its aims and starting points social theories shaping it and presuppositions grounding it Addressing this question is the classic task of doing contextual theology namely describing and analysing a particular context and considering how this context may best be addressed theologically and practically The question highlights the need for prophetic theology to discern the signs of the time to recognise a moment of truth Kairos and to discern counter movements of the Spirit The question of method opens the door to constructive critique of how theology has been done and should be done *After the Monkey Trial* Christopher M. Rios, 2014-08-28 This study sheds light on the work of the evangelical scientists who sought to bridge the cultural divide Christianity and evolutionary theory In the well known Scopes Monkey Trial of 1925 famously portrayed in the film and play *Inherit the Wind* William Jennings Bryan's clashed with defense attorney Clarence Darrow The drama pitting fundamentalist fervor against aggressive agnosticism illustrated what current scholars call the conflict thesis Regardless of the actual legal question of the trial it appeared as though Christianity and science were at war with each other Decades later a new generation of evangelical scientists struggled to restore peace

After the Monkey Trial is the compelling history of those evangelical scientists in Britain and America who unlike their fundamentalist cousins supported mainstream scientific conclusions of the world and resisted the anti science impulses of the era Christopher M Rios focuses on two organizations the American Scientific Affiliation and the Research Scientists Christian Fellowship today Christians in Science who for more than six decades have worked to reshape evangelical engagement with science and redefine what it means to be a creationist
