Teilhard In The Ecological Age:

Teilhard in the Ecological Age Thomas Berry,1982 **A Theology for the Earth** Anne Marie Dalton,1999 While many feel that something must be done few perceive the state of the ecological crisis as a profound religious problem While Thomas Berry sought to fire the imagination and motivate his listener to action Bernard Lonergan was absorbed by the growing gulf between traditional Christian theology and its relevance to modern problems This book brings together the work of these dynamic thinkers and examines their mutual contribution to theology for our time and for our planet Published in English **An Ethics for an Ecological Age** Brian Fay,2024-10-12 This book presents a comprehensive vision of human life ecology and theology inspired by Spinoza According to this vision human beings and all other natural entities are not independent substances but are rather modes of nature meaning that they are fleeting manifestations of nature s conatus By intuitively and not just intellectually recognizing ourselves to be modes of nature we can more fully realize ourselves To achieve this requires a radical rethinking of our world of ourselves and of God and a far richer understanding of ecology and an ethics grounded in ecology than those in current usage Brian Fay explores this rethinking and the result is a new far reaching vision of our world and how to be responsible thriving agents in it *This Sacred Earth* Roger S. Gottlieb,1996 This is the first comprehensive survey of the critical connections between religion nature and the environment It includes writings from sacred texts and a broad spectrum of new eco theological selections Historical and contemporary selections from key authors and a multicultural range of sources make This Sacred Earth an invaluable teaching resource and a unique introduction to the theory and practice of religious environmentalism **Christianity and Ecological Theology** E. M. Conradie,2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa **The Intellectual Journey of Thomas Berry** Heather Eaton,2014-04-02 Thomas Berry had a gentle yet mesmerizing and luminescent presence that was evident to anyone who spent time with him His intellectual scope and erudite manner were compelling and the breadth depth clarity and elegance of his vision was breathtaking Berry was an intellectual giant and cultural visionary of extraordinary stature Thomas Berry s vast knowledge of history religions and cultural histories is a unique blend revealing a genuine original thinker The ecological crisis in all its manifestations came to dominate Berry s concerns He perceived that the greatest need was to offer the possibility of a viable future for an Earth community Many know of his proposal for a functional cosmology the need for a new story and a vital Earth sensitive spirituality Few know of his rich and varied intellectual journey The Intellectual Journey of Thomas Berry Imagining the Earth Community is about the roots and insights hidden within his ecological spiritual proposal These essays written by experts on Thomas Berry s work probe into and reveal

distinct themes that permeate his work in gratitude for his contribution to the Earth **Redeeming the Time** Stephen Bede Scharper, 1998-06-01 This is an examination of environmental theology from 4 major viewpoints Scharper explores the viewpoints of process theology the new cosmology of Thomas Berry ecofeminism and liberation theologians God & Culture D. A. Carson, John Woodbridge, 2020-07-30 This book examines a number of facets of contemporary culture and sets forth what thoughtful Christians have been and should be thinking about each one Written in honor of Carl F H Henry on the occasion of his eightieth birthday the essays in God and Culture are on these topics and by these contributors hermeneutics Kevin J Vanhoozer pluralism D A Carson eschatology Geoffrey W Bromiley anthropology Robert J Priest psychology Warren J Heard Jr philosophy George I Mavrodes history Lewis W Spitz economics Ian Smith law Phillip E Johnson politics Sir Fred Catherwood literature Leland Ryken art Edmund P Clowney media Larry W Poland science Charles B Thaxton environment Loren Wilkinson bioethics Nigel M de S Cameron human sexuality Armand M Nicholi Jr personal life style and leisure J I Packer Each of these authors has demonstrated a profound interest in thinking Christianly about his subject Some of the essays scan the ways previous Christians have tried to evaluate each cultural slice all of them offer some guidance regarding what Christians need to bear in mind as our culture rushes on Some contributors adopt the well known grid of H Richard Niebuhr in his classic Christ and Culture others cut fresh paths The aim throughout is to foster fidelity to Christ and his gospel while encouraging a comprehensive Christian outlook on our rapidly changing world *The Progressive Environmental Prometheans* William B. Meyer, 2016-06-30 This book is devoted to the exploration of environmental Prometheanism the belief that human beings can and should master nature and remake it for the better Meyer considers among others the question of why Prometheanism today is usually found on the political right while environmentalism is on the left Chapters examine the works of leading Promethean thinkers of nineteenth and early and mid twentieth century Britain France America and Russia and how they tied their beliefs about the earth to a progressive left wing politics Meyer reconstructs the logic of this progressive Prometheanism and the reasons it has vanished from the intellectual scene today The Progressive Environmental Prometheans broadens the reader s understanding of the history of the ideas behind Prometheanism This book appeals to anyone with an interest in environmental politics environmental history global history geography and Anthropocene studies Pantheism and Ecology Luca Valera, 2023-11-14 This book provides a comprehensive overview of the relationship between pantheism and ecology particularly considering different cultural approaches and diverse religious theological and philosophical traditions Environmental ethics arises from the dangerousness and harmfulness of human beings with respect to nonhuman species and more generally with respect to the environment A common starting point for environmental ethics standpoints is that human beings are responsible for damaging nature The famous four laws of ecology drafted by Barry Commoner precisely express this guilt on the part of human beings who very often voluntarily violate the behavioral indications that emerge from nature itself These aspects

concern environmental ethics outlooks Eco theology then takes a further step not only do we damage the ecosystem but also as many authors suggest when we humans destroy the natural world we are wounding God Such an idea implies a possible coincidence of God with the natural world or the ecosystem From this assumption different questions may emerge what is the kind of coincidence between God and the natural world Are God and the ecosystem coextensive If so are we re sacralizing the natural world and grounding intrinsic values in theological postulates and statements These questions lead us to reconsider the cosmological assumptions that ground our environmental judgements from theology to different religious traditions and cultures to philosophical worldviews In particular we will focus on the cosmological assumptions of pantheism considering its differences with panentheism discussing the symmetrical or asymmetrical relationships between God and the finite ways in which God manifests Godself In this regard the book is divided into three main parts in the first part the question of pantheism is approached from different traditions and with a special focus on the main thinkers in the history of thought from Greek Stoicism to the present day In the second part some current ecological concerns are considered in relation to pantheistic cosmology the authors will deepen issues from the discussion of the different pan conceptions to the problem of evil to Anthropocene Finally in the third part the different chapters will focus on ethical issues in the field of the current environmental crisis with a huge connection with the pantheistic cosmologies This book is oriented to a wide public interested in environmental issues and looking for an approach from different cultures and traditions Evidently due to its academic nature this book is also intended to be a great support for researchers interested in eco theology and more specifically in the relationship between pantheism and ecology It is not in this sense a classic book on environmental ethics but a book that delves into the fundamentals of environmental philosophy privileging the Ibero American approach A

^AMore Perfect Union Linda Sargent Wood,2012-09-01 This book uncovers a holistic sensibility in post World War II American culture that challenged Cold War logic and fed some of the century s most powerful social movements This impulse is illustrated by focusing on Rachel Carson Buckminster Fuller Martin Luther King Jr Abraham Maslow Pierre Teilhard de Chardin and the Esalen Institute **Ecocritics and Ecoskeptics** Jonathan F. Krell,2020-09-01 Ecocritics and Ecoskeptics examines environmental themes and questions about the evolving relationship between humans and animals in nine modern and contemporary French novels Considering arguments from both environmentalists and ecoskeptics it concludes that far from distancing itself from humanism as it often has environmentalism must embrace an inclusive and ecological humanism

The Wiley Blackwell Companion to Religion and Ecology John Hart,2017-03-24 In the face of the current environmental crisis which clearly has moral and spiritual dimensions members of all the world s faiths have come to recognize the critical importance of religion s relationship to ecology The Wiley Blackwell Companion to Religion and Ecology offers a comprehensive overview of the history and the latest developments in religious engagement with environmental issues throughout the world Newly commissioned essays from noted scholars of diverse faiths and scientific

traditions present the most cutting edge thinking on religion's relationship to the environment Initial readings explore the ways traditional concepts of nature in Christianity Judaism Islam Buddhism and other religious traditions have been shaped by the environmental crisis Readings then address the changing nature of theology and religious thought in response to the challenges of protecting the environment Various conceptual issues and themes that transcend individual traditions climate change bio ethics social justice ecofeminism and more are then analyzed before a final section examines some of the immediate challenges we face in caring for the Earth while looking to the future of religious environmentalism Timely and thought provoking Companion to Religion and Ecology offers illuminating insights into the role of religion in the ongoing struggle to secure the future well being of our natural world With a foreword by Ecumenical Patriarch Bartholomew I and an Afterword by John Cobb *Catholic Moral Theology in the United States* Charles E. Curran, 2008-04-11 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of *Humanae vitae* Pope Paul VI's encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran's perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States Spiritual and Religious Haight, Roger, 2016-02-09 **Subtle Activism** David Nicol, 2015-08-24 Explores whether consciousness based practices like meditation and prayer can contribute to social change Can awakened consciousness contribute to social change and if so how David Nicol introduces the concept of subtle activism to describe the use of consciousness based practices like meditation and prayer to support collective transformation such as global meditation directed toward peaceful resolution of a conflict Subtle activism represents a bridge between the consciousness movement and the movements for peace environmental sustainability and social justice It is not a substitute for physical action but rather a potentially crucial component of a more integrated approach to social change Although ancient lore is rife with tales of shamans and adepts intervening on spiritual levels for the benefit of humanity this book is the first comprehensive treatment of this topic Nicol grounds his consideration in the available scientific research and in dialogue with a broad range of thinkers in the fields of consciousness studies transpersonal theory and New Paradigm thought Many good books are published each year but important books are harder to come by One of the marks of a truly important book is that it challenges our deeply held convictions about what is real and what is possible in the world It opens new intellectual horizons by showing us previously hidden connections David Nicol's

Subtle Activism is an important book a very important book from the Foreword by Christopher M Bache *The Boundless Circle* Michael W. Fox,1996 Veterinarian Dr Michael Fox examines religion s attitude especially Christianity toward the treatment of animals and nature Fox argues that the world s ecological salvation lies in embracing panentheism the seed idea within the mystical tradition of all major religions a philosophy which unlike pantheism states that it is not God that inhabits the world but the world that inhabits God **Theological Foundations for Environmental Ethics** James

Schaefer,2009-05-07 Earth is imperiled Human activities are adversely affecting the land water air and myriad forms of biological life that comprise the ecosystems of our planet Indicators of global warming and holes in the ozone layer inhibit functions vital to the biosphere Environmental damage to the planet becomes damaging to human health and well being now and into the future and too often that damage affects those who are least able to protect themselves Can religion make a positive contribution to preventing further destruction of biological diversity and ecosystems and threats to our earth Jame Schaefer thinks that it can and she examines the thought of Christian Church fathers and medieval theologians to reveal and retrieve insights that may speak to our current plight By reconstructing the teachings of Augustine Thomas Aquinas and other classic thinkers to reflect our current scientific understanding of the world Schaefer shows how to green the Catholic faith to value the goodness of creation to appreciate the beauty of creation to respect creation s praise for God to

acknowledge the kinship of all creatures to use creation with gratitude and restraint and to live virtuously within the earth community **Christian Footings** Robert Imperato,2009-09-10 Christian Footings is an examination of presuppositions for Catholic thought as well as an introduction to the most important Catholic thinkers of our time The book begins with a grounding in the earth s movement toward higher consciousness and the pointers toward God in creation via the thought of Teilhard de Chardin The author looks at the question of the relationship between Christianity and world religions to discover what is specifically developed within Christianity The two concepts that emerge are Person and Word This text will introduce students to the writings of such key Catholic authors as Teilhard Merton Balthasar Panikkar Schillebeeckx and others through the use of an anthology of selections from their writing This revision of the very successful first edition of Christian Footings contains an expanded and updated chapter on Jesus the focal figure of Christianity **Transformative Ecological**
