Special Committee on Aging,1977 *The Voices From The Past - Hundreds of Testimonies by Former Slaves In One Volume* Work Projects Administration,2023-12-11 In *The Voices From The Past Hundreds of Testimonies by Former Slaves In One Volume* the Work Projects Administration compiles a remarkable collection of firsthand accounts from former enslaved individuals shedding light on their experiences and the complexities of slavery in America The book s literary style is characterized by authentic vernacular and vivid personal narratives allowing readers to connect with the raw emotion and resilience underlying each testimony This compilation not only serves as a historical document but also positions itself within the tradition of oral history making an invaluable contribution to the understanding of African American experiences in the antebellum and postbellum periods The Work Projects Administration was established during the Great Depression as part of New Deal initiatives aiming to provide employment through public works programs In this context collecting slave narratives became a means to preserve an essential part of American history while simultaneously offering work opportunities to writers and historians This intersection of socio economic necessity and cultural preservation showcases the WPA s commitment to documenting the voices often silenced in mainstream narratives I highly recommend *The Voices From The Past* to anyone interested in American history African American studies or oral history By engaging with these testimonies readers will gain profound insights into the lived realities of former slaves while encountering the broader implications of their stories which resonate with modern discussions on race identity and social justice Congressional Record United States. How Do You Know explores problems of knowledge that arise in everyday life If you are not an expert how can you know that another person is an expert If experts are politically biased should you still trust them More generally how should you approach the testimony of other people treat it all as innocent until proven guilty or is that too simple Does the internet make us better knowers or is it just a minefield of misinformation Is it always irrational to believe a conspiracy theory Suppose someone just as intelligent and well informed as you are disagrees with you about something how should that affect your belief Can we have knowledge of what is right and wrong How Do You Know approaches these issues through the lens of social epistemology and via the preeminently social genre of philosophical dialogue Its characters think and speak like real people in the world today discussing and debating issues that are current practically relevant and even controversial while equipping readers with tools and concepts to see more clearly for themselves
