Small States In Years Of Deprebion The Oslo Alliance 19301940:

Small States in Europe Robert Steinmetz, 2016-04-01 The effects of recent institutional change within the European Union on small states have often been overlooked This book offers an accessible coherent and informative analysis of contemporary and future foreign policy challenges facing small states in Europe Leading experts analyze the experiences of a number of small states including the Netherlands the Czech Republic Slovakia Luxembourg Cyprus Iceland Austria and Switzerland Each account written to a common template explores the challenges and opportunities faced by each state as a consequence of EU integration and how their behaviour regarding EU integration has been characterized In particular the contributors emphasize the importance of power politics institutional dynamics and lessons of the past Innovative and sophisticated the study draws on the relational understanding of small states to emphasize the implications of institutional change at the European level for the smaller states and to explain how the foreign and European policies of small states in the region are affected by the European Union Small States in Years of Depression Ger van Roon, 1989 **Small Powers**

in the Age of Total War, 1900-1940 Herman Amersfoort, Wim Klinkert, 2011-04-11 Usually it is a foreign military threat or the geopolitical position of a country that attracts the most attention as a factor to explain the emergence of the national security policies of small neutral powers like the Netherlands Belgium Denmark Norway and Switzerland in the period 1900 1940 While these factors may explain the similarities between these small states they fail to make clear why there were such great differences between them The authors of this volume argue that the internal politics and the politico military strategic cultures of the countries are vital keys to understanding their divergent reactions to similar or at least comparable foreign military threats World War I and German expansionism in the second half of the 1930s The contributors are Maartje Abbenhuis Michael Clemmesen Kjeld Galster Tom Kristiansen Paul Moeyes Williamson Murray Michael Olsansky Christian Paulin Matthias Strohn Anne Tjepkema and Joost Vaessen Small States in Years of Depression Ger van Roon, 1989

Scandinavia and the Great Powers 1890-1940 Patrick Salmon, 2002-04-11 At the beginning of the twentieth century Scandinavia lay on the margin of European power politics but with the polarisation of international relations in the era of the two world wars Denmark Finland Norway and Sweden became the point where the spheres of influence of three great powers Great Britain Germany and Russia intersected In this book Patrick Salmon uses his extensive research in British German and Scandinavian archives to examine the position of the Nordic countries in the great power rivalries and conflicts of the period 1890 1940 However it does not treat the Nordic countries merely as passive victims It seeks to show that despite the disparity in strength between the great powers and the small states of northern Europe the latter had means of adapting to great power pressures and even influencing the policies of their formidable neighbours **Neutrality as a Policy Choice for Small/Weak Democracies** Michael F. Palo, 2019-07-08 In *Neutrality as a Policy Choice for Small Weak Democracies* Learning from the Belgian Experience Michael F Palo has three main objectives First he employs a

counterfactual approach to examine the hypothesis that had permanent neutrality not been imposed on Belgium in 1839 it would have pursued neutrality anyway until war broke out in 1914 Secondly he analyses why after abandoning obligatory neutrality during World War I the Belgians adopted voluntary neutrality in October 1936 Finally he seeks to use the historical Belgian case study to test specific International Relations Theories and to contribute to Small State Studies especially the behaviour of small weak democracies in the international system

Economic Adjustment and Political

Transformation in Small States Erik Jones,2008-05-08 This book offers a provocative argument about the impact of political change on the economic strategies of small states focusing on Belgium and the Netherlands It argues that a transformation in the style of politics from consensus to competition has constrained the traditional formulas for economic policymaking

Northern European Overture to War, 1939-1941 ,2013-05-24 While the German invasion of Poland in September 1939 was a pivotal moment in European history and precipitated the outbreak of the Second World War western historiography has largely neglected Northern Europe Two questions dominated the course of events the Anglo German contest for control of the access to the Atlantic Ocean and the Soviet German contest for control of their former territories as a precursor to the future Total War they expected to wage against each other This anthology of 23 essays considers both these issues collectively and provides a new international perspective on the region s transition from the relative peace of the interwar era to the all out war following the German invasion of the Soviet Union in 1941 Contributors are Azar Gat Michael Epkenhans Andrew Lambert Tom Kristiansen Rolf Hobson Gunnar selius J rg Hillmann Werner Rahn S awomir D bski Ole Kristian Grimnes eslovas Laurinavi ius Alfred Erich Senn Lars Ericson Wolke Karl Erik Haug Boris Vadimovich Sokolov Toomas Hiio Magnus Ilmj rv Palle Roslyng Jensen Hans Christian Bjerg Valters erbinskis Michael H Clemmesen and Marcus Faulkner

European Neutrals and Non-Belligerents During the Second World War Neville Wylie,2002 This collection provides a comprehensive English language survey of the conduct of neutral and non belligerent states during the war Instead of narrowly focusing on the few neutrals that survived the war intact the volume broadens our understanding of neutrality by including chapters on non belligerents and those neutrals of south east Europe such as Romania and Yugoslavia The essays focus on how individual neutral governments perceived international developments and throw light on the domestic political circumstances that critically affected their response to the course of the war They therefore provide the political context that has been overlooked in controversies surrounding their humanitarian and financial activities While based on the authors own research the essays draw widely on secondary literature and provide invaluable analytical introductions to the large amount of historical writing on these countries

Managing Crises and De-Globalisation

Sven-Olof Olsson,2009-12-16 This book examines the effects of the Great Depression on the Nordic states in the interwar years focusing on commercial and monetary policies but also important industries such as forestry agriculture and fishing

The Great Interwar Crisis and the Collapse of Globalization R. Boyce,2009-10-21 Challenging the standard

narrative of Interwar International History this account establishes the causal relationship between the global political and economic crises of the period and offers a radically new look at the role of ideology racism and the leading liberal powers in the events between the First and Second World Wars

Small States and the Security Challenge in the New Europe Werner Bauwens, Armand Clesse, 1996 This book raises the question of the long term security of the small state It asks specifically how that quandary manifests itself in Europe after 1989 The overall argument is that small states are becoming increasingly prominent to some extent also problematic actors in post Cold War Europe politics This is partly a consequence of the diminished ambition even bordering on reluctance of great powers to assert their will Partly it is the consequence of a confluence of other factors there used to be a loose tacit consensus on the respective roles of great powers and smaller states That is no longer so The transition from an actively supervised bipolar system to a nearly non polar international system has been a slippery slope It is as yet far from clear what the final outcome will be The collapse of Yugoslavia and of the Soviet Union demonstrate the intractability of issues involving small states in particular as those issues concern secession independence and physical survival The experience of the states liberated by the dissolution of communist power in Eastern Europe also demonstrates the hard lessons of survivability in economic terms Indeed the irony is that the answer to both the security problem and the economic dependence of small states is now widely perceived in these states themselves as being dependent on their participation in integration and at least the partial relinquishing of sovereignty

The Netherlands and World War I Hubert van Tuyll van Serooskerken, 2021-10-01 During World War I the Netherlands was situated squarely between two warring great powers Britain and Germany and on the edge of the war zone itself Isolationism was impossible strict neutrality was inadequate The Netherlands nevertheless escaped the war mainly because of its own actions This book is the story of the people who managed this escape The first part of the book examines the pre war situation espionage against Germany and the mobilization of 1914 Succeeding chapters cover the military diplomatic balancing act during the war the attempted revolution of 1918 and the near disaster at Versailles The book concludes with a consideration of major issues This work is intended to appeal to a broad audience including students of World War I modern European history diplomatic history military history and peace studies

Imagining European Unity since 1000 AD Patrick Pasture, 2015-05-28 European unity is a dream that has appealed to the imagination since the Middle Ages Its motives have varied from a longing for peace to a deep rooted abhorrence of diversity as well as a yearning to maintain Europe's colonial dominance This book offers a multifaceted history that takes in account the European imagination in a global context

Policy Responses to the Interwar Economic Crisis Adnan Türegün, 2022-04-01 This book is about national economic policy responses to the Great Depression of the interwar period Taking off from a generally liberal starting point in the 1920s states diverged greatly in their responses Some were daring while others remained conservative The two groups further differed among themselves in both degree and kind The book gives a certain shape to this messy reality by identifying broad

policy patterns paradigms and offers an explanation of it which emphasizes the ideational disposition of policy actors while recognizing the context that limits what they can do More specifically it argues that the ideas held by rulers and the strategies they consequently developed regarding three major groups of interest business labour and most critically agrarians largely determined economic policy variation across nations The European Economy Since 1914 Derek Aldcroft, Steven Morewood, 2012-12-07 The fifth edition of *The European Economy* provides a succinct and lucid account of the development and problems of the European economy since the first world war It covers the whole of Europe including Russia and Turkey The text divides into several clearly defined sub periods the impact and aftermath of the first world war and recovery and reconstruction during the 1920s the depression and the recovery of the 1930s the impact of the second world war and the new political division in Europe the post war boom of the 1950s and 1960s and then into the growth slowdown of the 1970s and the persistent problems of inflation and unemployment It then analyses the demise of the centrally planned economies of eastern Europe and the move to a more united Europe and then discusses the financial and economic problems that have emerged in the early twenty first century This new edition has been extensively revised new chapters have been added and the reading lists updated Though the volume is designed as a basic introductory text the authors elicit some of the lessons that can be learnt from a study of past development one of which is the limited power of governments to influence the course of events and to combat the operation of market forces *The European Economy Since 1914* Derek Howard Aldcroft, Steven Morewood, 2013 *The European Economy Since 1914* provides an invaluable guide to the major economic changes in both Western and Eastern Europe during the twentieth century **The Lights that Failed** Zara S. Steiner, Zara Steiner, 2007 In *The Lights that Failed* Steiner challenges the assumption that the Treaty of Versailles led to the opening of a second European war and provides an analysis of the attempts to reconstruct Europe during the 1920s OCLC *Hitler's Scandinavian Legacy* John Gilmour, Jill Stephenson, 2013-08-01 *Rethinking Gender and Sexuality in Childhood* explores gender and sexuality in children s lives from early childhood through adolescence bringing together key inter disciplinary perspectives Kane explores how childhood gender and sexuality are constructed resisted and refined within children s peer cultures within social institutions like the family education and media and the role the state holds in structuring children s lives defining their rights and opportunities through gender and sexuality related policies and programs Examples of research interviews activities key points and guidance on further reading encourage the reader to actively engage with the material and to develop a critical relationship with the content *Rethinking Gender and Sexuality in Childhood* is essential for those studying childhood at undergraduate and graduate level and of great interest to those working with children in any field A Companion to World War II Thomas W.
