Readers are presented with ways of making fitness an enjoyable and positive force in their daily lives. Although a major focus is on how to get in shape, Biller's primary mission is to encourage a healthy lifestyle that enriches self-awareness and personal growth. The goal is not just to facilitate physical fitness but to enhance overall life satisfaction. The book's uniqueness accordingly lies in its ability to help individuals develop a creative, playful approach to fitness in all spheres of their lives. While some readers are just beginning to think about fitness because of a desire to lose weight and improve their appearance, others are more interested in refining their athletic skills or achieving a greater balance in their daily activities. Dedicated exercisers often are striving for new routines and ways to prevent burnout. Many parents, moreover, are searching for activities to help their children, as well as themselves, become more fit. Older individuals are especially likely to be concerned about staying healthy and avoiding physical dependence as they age. Biller speaks to all these concerns and all these groups by providing an approach to getting in shape that enriches self-understanding and mental vitality.

Health Promotion and Aging David Haber, 2003. Focusing on research findings and practical applications, the author in this new edition continues to stress the importance of collaboration and communication between health professionals and their clients. The book is based on the premise that health professionals should be health educators.

Healing Logics Erika Brady, 2001-04-01. Scholars in folklore and anthropology are more directly involved in various aspects of medicine such as medical education, clinical pastoral care, and negotiation of transcultural issues than ever before. Old models of investigation that artificially isolated folk medicine, complementary and alternative medicine, and biomedicine as mutually exclusive have proven too limited in exploring the real-life complexities of health belief systems as they observably exist and are applied by contemporary Americans. Recent research strongly suggests that individuals construct their health belief systems from diverse sources of authority including community and ethnic tradition, education, spiritual beliefs, personal experience, the influence of popular media, and perception of the goals and means of formal medicine. *Healing Logics* explores the diversity of these belief systems and how they interact in competing, conflicting, and sometimes remarkably congruent ways. This book contains essays by leading scholars in the field and a comprehensive bibliography of folklore and medicine.

Ride Right with Daniel Stewart Daniel Stewart, 2015-07-01. Riders are athletes in the truest sense of the word, yet the majority of them fail to treat themselves as such. Most riders would never consider working a horse without first warming it up but fail to treat their own bodies with the same respect. Daniel Stewart's *Ride Right* system will improve rider and horse performance simply by showing riders how to improve themselves. There are three main phases in the *Ride Right* system: Rider biomechanics, the how and why of balance, posture, symmetry, and body awareness; strength

stamina and suppleness The conditioning of the rider's body with specially designed stretching and fitness exercises rider frame of mind Sports psychology relaxation and visualization All these elements together with good health and nutrition will show riders how to excel The Complete Idiot's Guide to Overcoming Procrastination L. house and he's struggling to climb them holding the door frame tightly to pull himself in. Let's call him Joe. Joe starts to tell me his story. He lists the multitude of diets he has tried and the failed attempts to exercise. I understand him. I was like this once. Finally, he tells me resignedly, "It's genetic, there's nothing I can do. I think I have to live with it." Before I can contradict him, his mother comes into the room carrying a stack of beautifully washed and ironed shirts which she puts carefully into a bag, saying, "I have prepared your work clothes for tomorrow." Then, with a gentle smile, she says to me, "He inherited it from me. I have morbid obesity. She gives me the list of problems that she has. She can't even stand for long and spends most of her time sitting in a wheelchair. I am curious about the shirts and ask what work Joe is doing. I pack vegetables but because I sweat a lot, I have to change every 2 hours, otherwise I get cold. I really can't afford to get sick and stay at home. I have two younger brothers who go to school and there's my mom who is sick. So I have to work. I use five T-shirts a day but it's okay. I'm used to it. I completely forget about the busy day and my fatigue. I start pouring out information that will help him lose weight. I want to. I have to help him. I begin to explain one after the other: all the mistakes he has made, how he lost muscle mass through starvation, why he does not lose weight even if he eats very little, the role of hormones, why diets are not effective, the health benefits of losing weight. But then I realize this is way too much information all at once. All right, here's what we'll do. Tell me what you like to eat and I'll create a nutritional plan for you. From tomorrow, you will start to eat as we planned and gradually I will explain to you everything you need to know so that for the rest of your life you'll understand the principles of a fit and healthy body. I see the hope in his eyes and a determination to succeed even if he doesn't yet understand much about what he should do. He's confident again and I can feel his excitement. Suddenly, the sadness returns. The problem is that from next week we move to another city. The company I work for has seasonal vegetable warehouses and the vegetable season here will end this week. I really want to do this but it looks like I'm going to fail again before I start. How many weeks of counselling should I have with you and how much does it cost? I know a personal trainer is quite expensive and I don't know if I try to stop him. This is not about money. He insists and takes cash from his pocket to pay me but I really can't take the money. I literally can't. I feel like I need some fresh air. I say goodbye in a hurry. I get in the car and I actually feel overwhelmed by sadness, compassion, but also admiration for his determination to take on responsibilities for his family and to keep looking for a solution for his own health problems. He's got to make it, he's got to do it. I promise myself I'll do everything I can to help him and find a way to advise him even if he's far away. I get home and the kids are all over me wanting to know why I am late. I can't talk about it. So that's how it started. That night I worked to sort out his nutritional plan and to find a solution for the future. From the next day he started eating according to my nutritional plan. And I started writing every night, chapter after chapter, covering absolutely everything that he needed to know to get results. He left the city and at the end of every week I sent him a new chapter. I was working during the day, doing workouts and providing nutritional advice as usual but I couldn't wait to get home so I could write some more. After the first month he had lost a good few pounds and his self-confidence had

grown enormously He started posting pictures of himself His previous profile picture was of a wild horse After almost three months he had dropped multiple clothing sizes and was increasing the intensity of his exercises He sent me a message Guess what I have a girlfriend I knew how much it meant to him and I was so happy He d lost some weight his clothes fitted him but this is what was really important his self esteem and self confidence were growing and he was making a huge difference to his overall health Meanwhile his willpower and determination to stick to the nutritional plan and the training programme despite being so far from me his personal trainer inspired me to write my first book on nutrition and training I collected all the chapters I had written and linked and improved them even adding demonstration videos with workouts that could easily be done at home I wouldn t have thought of writing a book before but sometimes when you believe you are inspiring and helping someone else you actually get inspired and help yourself I sent Joe the first copy of my book and can only thank him for allowing me to meet him and help him Today I want to share with you everything I wrote over this time I know that if you are like Joe you can learn everything you need from my book and you can apply it wherever you are I d be so happy to add you to my list of distance clients who have had impressive results Florin Mihai Personal Trainer
