Algebra ,1993 **Number** .1993 The Sociology of Mathematics Education Paul Dowling, 2002-11-01 Until the 1960s maths was studied as an academic subject in a desire to have more mathematicians. The current trend however has moved away from viewing maths as a purely intellectual endeavour and towards developing a more mathematically competent workforce and citizenry This trend has seen a large increase in the number of maths schemes being produced by the major educational publishers which attempt to make maths easier and more approachable by using language instead of symbols So why do so many children still fail at maths The author contends that to understand this teachers need to analyze and evaluate the maths textbooks they are currently using The author shows the reader how to systematically analyze and evaluate these textbooks This interrogation of classroom resources should have important implications for teaching strategies and for textbook design and use SMP 11-16 Number Properties and Patterns and Sequences Answer Book School Mathematics Project, 1993-01-01 This is a the answer book for the Number Properties and Patterns and Sequences strands of The British National Bibliography Arthur James Wells, 2001 the SMP 11 16 series of booklets **Number** .1983

Doing Research/Reading Research Paul Dowling,2005-11-29 This best selling text provides a scheme which enables the beginning researcher to organize and evaluate the research that they read and to plan and implement small scale research projects of their own The authors also give structured practical guidance on the development of a research question techniques of data collection qualitative and quantitative forms of analysis and the writing and dissemination of research
