Speak English Green 7:

Speak English Once and for All Jennifer England, 2016-03-22 Are you tired of studying English grammar without being able to speak it Do you need to speak English fluently to advance your career or business Do you want to speak English fluently in record time Then this book is for you This is a compact book encompasses the method I have developed after over more than a decade of research and experimentation Countless people struggle to learn to speak English but do not achieve their goal They study grammar for years take exams and pay a lot of money for books and courses that simply perpetuate the learning experience Why is it that the traditional model of grammar reading writing and then speaking doesn't work Because that's not how you learn a language naturally We learn by listening speaking reading writing and then if we are interested enough in the subject we study linguistics You're probably a professional who even though you may be able to read texts in English are unsure when the time comes to speak I understand that you have to be able to socialize and negotiate in international circles with confidence This book will give you the tools you need to boost your oral communication increase your confidence in using English improve understanding reach fluency socialize on international stages and achieve a good level of communication and negotiation How can I be so sure of your ability to learn to speak English You speak at least one language right If you are able to speak one language you can speak two or three or four all you need is practice practice and more practice but you must practice the right things And you need to be in shape Think of your study as bodybuilding and your tutor as your coach Consistency is the key and practice makes perfect It will take time require dedication willpower and sacrifice you have to push your brain to the limit You may be tempted to quit But I assure you when you reach your fluency goal it will all be worth it

Speak English Or What? Philipp Sebastian Angermeyer, 2015 This book presents a study of interpreter mediated interaction in New York City small claims courts drawing on audio recorded arbitration hearings and ethnographic fieldwork Focusing on the language use of speakers of Haitian Creole Polish Russian or Spanish the study explores how these litigants make use of their limited proficiency in English in addition to communicating with the help of professional court interpreters Drawing on research on courtroom interaction legal interpreting and conversational codeswitching the study explores how the ability of immigrant litigants to participate in these hearings is impacted by institutional language practices and underlying language ideologies as well as by the approaches of individual arbitrators and interpreters who vary in their willingness to accommodate to litigants and share the burden of communication with them Litigants are shown to codeswitch between the languages in interactionally meaningful ways that facilitate communication but such bilingual practices are found to be in conflict with court policies that habitually discourage the use of English and require litigants to act as monolinguals using only one language throughout the entire proceedings Moreover the standard distribution of interpreting modes in the courtroom is shown to disadvantage litigants who rely on the interpreter as consecutive interpreting causes their narrative testimony to be less coherent and more prone to interruptions while

simultaneous interpreting often leads to incomplete translation of legal arguments or of their opponent's testimony. Consequently the study raises questions about the relationship between linguistic diversity and inequality, arguing that the legal system inherently privileges speakers of English.
