Disaster Public Health and Older People Emily Ying Yang Chan, 2019-08-23 Disaster Public Health and Older People introduces professionals students and fieldworkers to the science and art of promoting health and well being among older people in the context of humanitarian emergencies with a particular focus on low and middle income country settings Older people face specific vulnerabilities in physical mental and social well being during disasters They are likely to experience socio economic marginalisation isolation inaccessible information and a lack of relevant post emergency support services Meanwhile although older people can also significantly contribute to disaster

preparedness response and recovery their capacities are often under utilised Drawing on a range of global case studies this book provides readers with a theoretical underpinning while suggesting actions at the individual community and national levels to reduce the health risks to older people posed by the increasing frequency and intensity of disaster in particular those resulting from natural hazards Topics covered range from the health impact of disasters on older people and response to their post disaster health needs to disaster preparedness disease prevention healthy ageing global policy developments and the contributions of older people in disaster contexts This book draws on lessons learnt from previous disasters and targets students and professionals working in disaster medicine disaster public health humanitarian studies gerontology and geriatrics

Humanities in the Twenty-First Century Eleonora Belfiore,Anna Upchurch,2013-07-29 This collection of essays by scholars with expertise in a range of fields cultural professionals and policy makers explores different ways in which the arts and humanities contribute to dealing with the challenges of contemporary society in ways that do not rely on simplistic and questionable notions of socio economic impact as a proxy for value

Doing Probation Work Rob Mawby,Anne Worrall,2013-03-05 A great deal has been written about the political policy and practice changes that have shaped probation work but little has been written on the changes to occupational cultures and the ways in which probation workers themselves view their role This book fills that gap by exploring the meaning of doing probation work from the perspective of probation workers themselves Based on 60 extensive interviews with probation workers who joined the probation service from the 1960s to the present day this book reaches beyond criminological and policy analysis to an application of sociological and organizational theory to rich qualitative data It explores the backgrounds and motivations of probation workers their changing relationships with other criminal justice agencies and the complex public perceptions and media representations of probation work The book considers the relative influences of religion the union diversity and feminization and while it acknowledges that probation work is stressful it draws innovatively on sociological and organizational concepts to categorize how workers respond to turbulent times This book challenges the dominant narrative of probation s decline in recent literature and constructs three ideal types of probation worker lifers second careerists and offender managers Each makes an essential contribution to probation cultures which collectively contribute to rather than undermine the effectiveness of offender management and the future of probation work This book will be important reading for researchers in the disciplines of criminology criminal justice sociology and management as well as probation workers of all grades and those in training
