**Shakespeare's Pictures** Keir Elam, 2017-09-21 Shakespeare's Pictures is the first full length study of visual objects in Shakespearean drama. In several plays Hamlet, The Merchant of Venice and Twelfth Night among others pictures are brought on stage in the form of portraits or other images as part of the dramatic action. Shakespeare's characters show exchange and describe them. The pictures arouse in their beholders strong feelings of desire, nostalgia or contempt and sometimes even taking the place of the people they depict. The pictures presented in Shakespeare's work are part of the language of the drama and they have a significant impact on theatrical performance from Shakespeare's time to our own. Keir Elam pays close attention to the iconographic and literary contexts of Shakespeare's pictures while also exploring their role in performance history. Highly illustrated with 46 images, this volume examines the conflicted cooperation between the visual and the verbal.

**Pictures of Poverty** Lydia Jakobs, 2021-10-26 From Charles Dickens's Oliver Twist to George Sims's How the Poor Live, illustrated accounts of poverty were en vogue in Victorian Britain. Poverty was also a popular subject on the screen, whether in dramatic retellings of well-known stories or in documentary photographs taken in the slums of London and its street life. These were the preferred setting for George Robert Sims's rousing ballads and the numerous magic lantern slide series and silent films based on them. Sims was a popular journalist and dramatist whose articles, short stories, theatre plays and ballads discussed overcrowding, drunkenness, prostitution and child poverty in dramatic and heroic episodes from the lives and deaths of the poor. Richly illustrated and drawing from many previously unknown sources, Pictures of Poverty is a comprehensive account of the representation of poverty throughout the Victorian period, whether disseminated in newspapers, illustrated books and lectures presented on the theatre stage or projected on the screen in magic lantern and film performances. Detailed case studies reveal the intermedial context of these popular pictures of poverty and their mobility across genres. With versatile author George R. Sims as the starting point, this study explores the influence of visual media in historical discourses about poverty and the highly controversial role of the Victorian state in poor relief.
