Spectacles Of Realism Gender Body Genre:

Spectacles of Realism Margaret Cohen, Christopher Prendergast, 1995 **Dangerous Creations** Ana I.

Oancea, 2025-05-27 *Dangerous Creations* presents a master narrative of the inventor in fin de siècle French literature by analyzing the works of Jules Verne, Albert Robida, Émile Zola, and Villiers de l'Isle Adam. Their writings challenge the role of science in shaping French national identity and aim to transform contemporary understandings of science and technology. The book reveals how Verne, Robida, Zola, and de l'Isle Adam reimagine the figure of the inventor, reshaping the literary standards of their time. Universally male in these narratives, the inventor serves as a flawed exemplar of national heroism during the Age of Empire, a period marked by significant external threats and internal strife while also embodying unrestrained creativity. Ultimately, the inventor novel reflects broader French anxieties surrounding scientific progress, empire, and gender. Ana Oancea explores the transmedia and transnational legacy of the fin de siècle inventor novel through vignettes that highlight similarly themed narratives in contemporary popular culture. These sections engage with films, television series, graphic narratives, and video games that reinterpret key aspects of the inventor narrative, shedding light on its power structures, racial and gender politics, and colonial aspirations.

Cosmopolitics Pheng Cheah, Bruce Robbins, Social Text Collective, 1998
Eminent contributors look at the present and future of cosmopolitanism and its relationship to nationalism. Nationalism and the nation state have recently come under siege; their political dominance gradually eroding under the strain of such forces as ethnic strife, religious fundamentalism, homogenizing global capitalism, and the unprecedented movements of people and populations across cultures, countries, even cyberspace. A resurgent cosmopolitanism has emerged as a viable and alternative political project. In *Cosmopolitics*, a renowned group of scholars and political theorists offers the first sustained examination of that project, its inclusive and often universalist claims, and its tangled and sometimes volatile relationship to nationalism. Understood generally as a fundamental commitment to the interests of humanity, traditional cosmopolitanism has been criticized as a privileged position, an aloof detachment from the obligations and affiliations that constrain nation-bound lives and move people to political action. Yet as these essays make clear, contemporary cosmopolitanism arises not from a disengagement but rather from well-defined cultural, historical, and political contexts. The contributors explore a feasible cosmopolitanism now beginning to emerge and consider the question of whether it can or will displace nationalism, which needs to be rethought rather than dismissed as obsolete. Intellectually provocative and erudite, this interdisciplinary volume presents a diverse array of critical perspectives assessing both the ideal enterprise and the current realities of the rapidly developing cosmopolitical movement.

Between Women Sharon Marcus,2009-07-10 Women in Victorian England wore jewelry made from each other s hair and wrote poems celebrating decades of friendship They pored over magazines that described the dangerous pleasures of corporal punishment A few had sexual relationships with each other exchanged rings and vows willed each other property and lived together in long term partnerships described as marriages But as Sharon Marcus shows these women were not seen as gender outlaws Their desires were fanned by consumer culture and their friendships and unions were accepted and even encouraged by family society and church Far from being sexless angels defined only by male desires Victorian women openly enjoyed looking at and even dominating other women Their friendships helped realize the ideal of companionate love between men and women celebrated by novels and their unions influenced politicians and social thinkers to reform marriage law Through a close examination of literature memoirs letters domestic magazines and political debates Marcus reveals how relationships between women were a crucial component of femininity Deeply researched powerfully argued and filled with original readings of familiar and surprising sources *Between Women* overturns everything we thought we knew about Victorian women and the history of marriage and family life It offers a new paradigm for theorizing gender and sexuality not just in the Victorian period but in our own **The Experience of Modernity** Janet Ng,2010-02-09 Examines the

Balzac, Grandville, and the Rise of Book Illustration Keri Yousif, 2016-04-15 Examining how the rise of book illustration affected the historic hegemony of the word Keri Yousif explores the complex literary and artistic relationship between the novelist Honor de Balzac and the illustrator J J Grandville during the French July Monarchy 1830 1848 Both collaborators and rivals these towering figures struggled for dominance in the Parisian book trade at the height of the Romantic revolution and its immediate aftermath Both men were social portraitists who collaborated on the influential encyclopedic portrayal of nineteenth century society *Les Français peints par eux-mêmes* However their collaboration soon turned competitive with Grandville's publication of *Scènes de la vie privée et publique des animaux* a visual parody of Balzac's *Scènes de la vie privée* Yousif investigates Balzac's and Grandville's individual and joint artistic productions in terms of the larger economic and aesthetic struggles within the nineteenth century arena of cultural production showing how writers were forced to position themselves both in terms of the established literary hierarchy and in relation to the rapidly advancing image As Yousif shows the industrialization of the illustrated book spawned a triadic relationship between publisher writer and illustrator that transformed the book from a product of individual genius to a cooperative and commercial affair Her study represents a significant contribution to our understanding of literature art and their interactions in a new marketplace for publication during the fraught transition from Romanticism to Realism

Re-Reading Zola and Worldwide Naturalism Marie-Sophie Armstrong, Riikka Rossi, Carolyn Snipes-Hoyt, 2013-07-26 Re-Reading Zola and Worldwide Naturalism continues the discussion of Émile Zola and French naturalism with examinations of unexplored areas of the founding father's project and legacy In addition to offering essays on Zola's lesser known naturalist contemporaries the volume extends the investigation of the naturalist literary current to include areas of Europe outside France as well as the Americas and Asia tracking its persistence in various forms through the twentieth century and into the twenty first The authors pay particular attention to the ways naturalism was conceived and then received including in other channels undergoing transformations in new social conditions and creating other versions of the basic precepts This work features multidisciplinary and comparative approaches to the study of naturalism paying tribute to Anna Gural Migdal a Professor of French Literature and Film Studies at the University of Alberta in Canada who specializes in the visual aspect of Zola's Rougon Macquart novels and the transfer of these strategies to naturalist film She has been a leader in the field of Zola and naturalism in her role as president of the AIZEN for almost fifteen of its twenty years of existence

Dance Pathologies Felicia M. McCarren, 1998 A history of dance's pathologization may startle readers who find in dance performance grace discipline geometry poetry and the body's transcendence of itself Exploring dance's historical links to the medical and scientific connotations of a pathology this book asks what has subtended the idealization of dance in the West It investigates the nineteenth century response in the intersections of dance literature and medicine to the complex and long standing connections between illness madness poetry and performance In the nineteenth century medicine becomes a major cultural index to measure the body's meanings As a particularly performative form of madness nineteenth century hysteria preserved the traditional connection to dance in medical descriptions of choreas In its withholding of speech and its use of body code dance like hysteria functions as a form of symptomatic expression Yet by

working like a symptom dance performance can also be read as a commentary on symptomatology and as a condition of possibility for such alternative approaches to mental illness as psychoanalysis By redeeming as art what is lost in hysteria dance expresses non hysterically what only hysteria had been able to express the somatic translation of idea the physicalization of meaning Medicine s discovery of idea manifesting itself in the body in mental illness strikingly parallels a literary fascination with the ability of nineteenth century dance to manifest idea suggesting that the evolution of medical thinking about mind body relations as they malfunction in madness as well as changes in the cultural reception of danced representations of these relations might be paradigmatic shifts caused by the same cultural factors concern about the body as a site of meaning and about vision as a theater of knowledge
