

in the yeshiva world, a world with which contemporary academic Judaic scholarship comes into far too little contact.

Secondly, at certain key moments the author is too willing to substitute impressions for analysis. Two very brief chapters consist of consecutive translations of the two version of certain talmudic aggadot followed only by the assertion that comparison will show the Babylonian version to be more "dramatic" (pp. 86, 90). Another chapter, working in the same fashion, claims to provide "particularly convincing evidence of how the material [in the Babylonian Talmud] . . . has been structured by the editors so as to provide a strong element of dramatic effect" (p. 95). One more or less knows in all these cases what the author means, but rigorous argument requires something more than is provided; it demands articulated criteria of the "dramatic," detailed analysis of the relevant evidence, explicit statement of the implications of the finding. In chapter after chapter of the present book all of these were lacking, when scholarly armor of this kind would have strengthened an argument that is fundamentally sound and deserving of attention.

In conclusion, however, while one may wish that the views of the Babylonian Talmud presented here had been offered in a more powerful manner, one must also be grateful to Jacobs for shedding useful light on important questions, and for moving the discussion forward in the direction it must go.

Jacob Neusner. *Talmudic Thinking: Language, Logic, Law*. Columbia: University of South Carolina Press, 1992. xvi, 193 pp.

In the present formulation of his monographic studies on the Bavli, Jacob Neusner defines a project of first-order importance. He views the Bavli as a public document whose authorship seeks to define and transform the social order, this through offering not only concrete decisions but also a "compelling model of correct modes of thought" (p. 4). He wants to know, he writes, "how do authors bearing so grave a responsibility, so lofty an ambition, as

Rhetorics and Hermeneutics James D. Hester, David Hester, 2004-01-01 This collection of essays provides original studies of various New Testament texts read through the eyes of rhetorical criticism as well as a tribute to the continuing influence of Wilhelm Wuellner and his work

Jewish Rhetorics Michael Bernard-Donals, Janice W. Fernheimer, 2014-12-02 This volume the first of its kind establishes and clarifies the significance of Jewish rhetorics as its own field and as a field within rhetoric studies Diverse essays illuminate and complicate the editors definition of a Jewish rhetorical stance as allowing speakers to maintain a resolute sense of engagement with their fellows and their community while also remaining aware of the dislocation from the members of those communities Topics include the historical and theoretical foundations of Jewish rhetorics cultural variants and modes of cultural expression and intersections with Greco Roman Christian Islamic and contemporary rhetorical theory and practice In addition the contributors examine gender and Yiddish and evaluate the actual and potential effect of Jewish rhetorics on contemporary scholarship and on the ways we understand and teach language and writing The contributors include some of the world s leading scholars of rhetoric writing and Jewish studies

British Romanticism and the Jews S. Spector, 2016-04-30 *British Romanticism and the Jews* explores the mutual influences exerted by the British Christian and British Jewish communities on each other during the period between the Enlightenment and Victorianism The essays in the volume demonstrate how the texts produced by the Jewish Enlightenment provided a significant resource for romantic intellectual revisionism in much the same way that British romanticism provided the cultural basis through which the British Jewish community was able to negotiate between the competing obligations to ethnicity and nationalism

Responses to Suffering in Classical Rabbinic Literature David Charles Kraemer, 1995 The existence of suffering poses an obvious problem for the monotheistic religions Why does an all powerful benevolent God allow humans to suffer And given that God does what is the appropriate human response In modern times Jewish theologians in particular faced with the enormity of the Holocaust have struggled to come to grips with these issues In *Responses to Suffering in Classical Rabbinic Literature* David Kraemer offers the first comprehensive history of teachings related to suffering in rabbinic literature of the ancient world The age of formative Judaism was filled with suffering for its people From the conquering of Palestine by Rome and the destruction of the Temple at Jerusalem to persecution at the hands of Hadrian Jewish faith in a just and merciful God was tested repeatedly The seemingly unjustified affliction elicited varying responses from rabbis Beginning with the Mishnah c 200 C E Kraemer examines traditions on suffering divine justice national catastrophe and the like in all major rabbinic works of late antiquity The earliest rabbinic works Kraemer shows adhere to the orthodox biblical opinion which sees suffering as punishment for sins But rabbis quickly began to record other explanations and responses Palestinian rabbinic tradition even at the end of this period condemns any who would question or deny God s justice In contrast the Babylonian Talmud permits such questioning itself giving voice to lengthy deliberations

which reject the efficacy of suffering and question the justice of some suffering which humans are forced to endure Bringing to bear recent methods in the history of religions literary criticism canonical criticism and the sociology of religion Kraemer offers an analysis of the development of attitudes that are central to and remain contemporary concerns of any religious society *The Mesopotamian School & Theodore of Mopsuestia* Fr Andrew Younan, 2009-08-01 Two theses are presented in this book First that there is an overarching School of Thought in Mesopotamia consistent in its basic tenets from ancient times to the late middle ages and that this Mesopotamian School is fundamentally realistic as opposed to idealistic Second that the Christology of Theodore of Mopsuestia as read as an expression of this School is orthodox by the Chalcedonian standard Included in the Appendices are complete translations of Mar Narsai's 16th and 35th Metrical Sermons on human nature and the Trinity respectively as well as of his Dialogue Between the Watcher Mary **Reading the Rabbis** David Kraemer, 1996-08-15 Traditionally the Talmud was read as law that is as the authoritative source for Jewish practice and obligations To this end it was studied at the level of its most minute details with readers often ignoring the composite whole and attending only to final decisions Methods of reading have shifted as more readers and students have turned to the Talmud for evidence of rabbinic history religion rhetoric or anthropology still few have employed a genuinely literary approach In *Reading the Rabbis* Kraemer attempts to fill this gap He uses the tools developed in the study of other literatures particularly rhetorical and reader response criticisms to unearth previously unnoticed levels of meaning His book offers a new understanding of the complexity of Rabbinic Judaism and a new model of rabbinic piety *Rhetoric and the New Testament* Stanley E. Porter, Thomas H. Olbricht, 1993-10-01 What role did classical rhetoric play in the writing of the New Testament What role does classical and modern rhetoric play in interpreting the New Testament today What role should classical and modern rhetoric play in New Testament interpretation These and related questions are asked in this collection of over twenty essays originally delivered as papers at the 1992 Heidelberg Conference on Rhetorical Criticism of Biblical Documents This conference the first of several scheduled to address fundamental rhetorical issues of increasing importance in New Testament study drew scholars from three continents and over fourteen countries making it a truly international scholarly event and this a truly cosmopolitan publication The authors varying contexts resulted in a lively and challenging discussion well reflected in this volume's essays The first part discusses rhetoric in the light of extended interpretation of a variety of New Testament texts Luke and Acts most of Paul's letters and other New Testament documents are scrutinized using various rhetorical categories In the second part questions of rhetoric and methodology are raised New approaches are tested in a number of essays that push the boundaries of traditional rhetorical study These essays provide an excellent sampling of some of the major work being done in rhetorical study of the New Testament and suggest several avenues for future research **Talmudic Thinking** Jacob Neusner, 1992 *Formative Judaism, New Series* Jacob Neusner, 1996 **The Jewish Philosophy Reader** Daniel H.
