Taming Global Finance A Better Architecture For Growth And Equity:

Taming Global Finance Robert A. Blecker, 1999 **Taming Global Financial Flows** Kavaljit Singh, 2000-10 The author enunciates certain guiding principles in order to create a more stable international financial architecture and recommends a series of concrete measures This most timely and useful follow up to his very successful previous book *The Globalization of Finance A Citizen s Guide* contributes greatly to the public understanding of the intricacies of global finance and to the possibilities of effective action by peoples movements campaigning for a more just and sound financial system Jacket

Debating the Global Financial Architecture Leslie Elliott Armijo, 2012-02-01 Debating the Global Financial Architecture opens up the contemporary debate surrounding the reform of the global financial architecture Economists and political scientists explore the economic and technical content of alternative global financial regimes as well as the political processes through which such changes are negotiated The contributors though diverse jointly fear that rapid removal of the remaining controls on private international financial transactions risks systematic crisis By initiating a cross disciplinary discussion they hope to see the politics of global financial design examined more honestly yet without discarding or devaluing a solid economic analysis of global money and investment flows **Neo-Liberalism, State Power and Global Governance** Simon

Lee, Stephen McBride, 2007-09-09 This book explores the relationship between neo liberalism state power and global governance exploring national differences in the exercise of state power in a variety of industrialized and developing economies Among the strengths of this volume are its detailed global scope its range of case studies in diverse policy areas its analysis and critique of neo liberalism in theory and practice and its impact upon state power and global governance

Making a Place for Community Thad Williamson, David Imbroscio, Gar Alperovitz, 2014-06-03 When pundits refer to the death of community they are speaking of a number of social ills which include but are not limited to the general increase in isolation and cynicism of our citizens widespread concerns about declining political participation and membership in civic organizations and periodic outbursts of small town violence Making a Place for Community argues that this death of community is being caused by contemporary policies that if not changed will continue to foster the decline of community Increased capital flow between nations is not at the root of the problem however increased capital flow within our nation is Small towns shouldn t have to hope for a prison to open nearby and downtown centers shouldn t sit empty as suburban sprawl encroaches but they do and it s a result of widely agreed upon public policies *The Asian Financial Crisis: New International Financial Architecture* Shalendra Sharma, 2003-10-03 The Asian financial crisis of 1997 98 shook the foundations of the global economy What began as a localized currency crisis soon engulfed the entire Asian region What went wrong and how did the Asian economies long considered miracles respond How did the United States Japan and other G 7 countries react to the crisis What role did the IMF play Why did China remain conspicuously insulated from the turmoil raging in its midst What lessons can be learnt from the crisis by other emerging economies This book provides answers to all

the above questions and more It gives a comprehensive account of how the international economic order operates examines its strengths and weaknesses and what needs to be done to fix it The book will be vital to students of economics international political economy Asian and development studies Financial Globalization and Democracy in Emerging Markets L. Armijo, 1999-01-13 When Mexico's peso crisis occurred in December 1994 all of Latin America experienced the tequila effect In January 1998 after seven months of financial turmoil in East Asia Alan Greenspan the usually reticent Chairman of the US Federal Reserve Bank noted that such vicious cycles may in fact be a defining characteristic of the new high tech international financial system This book examines the impact of the new highly liquid portfolio capital flows on governments opposition politicians business and the workforce in such emerging market countries as Mexico Brazil Russia Indonesia Vietnam Thailand and Indonesia Hailed as exemplary and innovative fine grained and accessible and a must read this collection of original essays is newly available in paperback **The Bridge to a Global Middle Class** Walter Russell Mead, Sherle R. Schwenninger, 2003 The Bridge to a Global Middle Class compiles a unique series of papers originally commissioned by the Council on Foreign Relations in the wake of the financial crises of 1997 1998 This thought provoking retrospective culls the views of economists international financial institutions Wall Street organized labor and varying public interest organizations on the issue of how to fortify our global financial infrastructure Their effort is the culmination of an 18 month study The Project on Development Trade and International Finance that seeks to encourage the evolution of middle class oriented economic development in emerging market countries In addressing the world economic problems that led to the crises and examining methods to improve the workings of the world's financial markets they offer ideas policy recommendations and suggest the concrete forms these might take in the drive to transition the world economy toward strategies that offer the developing world an improved standard of living These papers make a convincing case for middle class oriented economic development as the key to global prosperity and stability U S and international policy makers will find these insightful discussions valuable in forming new policy and providing the appropriate stimulus for economic development in emerging economies **New Regionalisms in the Global Political Economy** Shaun Breslin, 2002 Following the financial crisis at the end of the twentieth century regionalisms in the global political economy have evolved in a number of ways This informative book brings together the leading scholars in the field to provide cutting edge analyses of contemporary regions and regionalist projects Providing an innovative integration of theoretical issues with sophisticated analyses of a wide range of international case studies the chapters systematically consider the relationship between globalization financial crisis and regional projects In combination the contributions to this volume provide the widest possible base within the literature for a truly comparative study of contemporary regionalism Intermediate Macroeconomics Hassan Bougrine, Louis-Philippe Rochon, Mario Seccareccia, 2025-06-09 This insightful textbook offers a comprehensive critique of neoclassical economics presenting a detailed and accessible discussion of major macroeconomic issues

Intermediate Macroeconomics highlights the need for an alternative framework to demonstrate the irrelevance of mainstream economic theory and its inability to provide satisfactory responses to the continuing challenges of modern economies
