The Telescoping of Generations Haydée Faimberg,2005

Winner of the 2013 Sigourney Award The Telescoping of Generations is an original perspective on the transmission of narcissistic links between generations This attention to unconscious transmission gives fresh understanding of the psychic consequences of experiences such as genocide and terrorism Reviving classic psychoanalytical concepts with fresh meaning

Haydee Faimberg demonstrates how narcissistic links that pass between generations can be unfolded in the intimacy of the session through engagement with the patient's private language. The surprising clinical cases described in this book led the author to recognise the analyst's narcissistic resistances to hearing what the patient does say and what the patient cannot say. Psychoanalysts and psychotherapists treating adults and children, family therapists and those with an interest in cultural studies will all find *The Telescoping of Generations* relevant to their work. Haydee Faimberg has received the Haskell Norman International Award for Excellence in Psychoanalysis 2005. *Reading Anna Freud* Nick Midgley, 2013. *Reading Anna Freud* provides an accessible introduction to the writings of one of the most significant figures in the history of psychoanalysis.

Doubt, Conviction and the Analytic Process Michael Feldman, 2013-12-16. In this profound and subtle study, a practising psychoanalyst explores the dynamics of the interaction between the patient and the analyst. Michael Feldman draws the reader into experiencing how the clinical interaction unfolds within a session. In doing so, he develops some of the implications of the important pioneering work of such analysts as Klein, Rosenfeld and Joseph, showing in fine detail some of the ways in which the patient feels driven to communicate to the analyst, not only in order to be understood by him but also in order to affect him. The author's detailed descriptions of the clinical process allow the reader to follow the actual process that enables the patient to get into contact with thoughts and feelings of which he or she was previously unconscious or only vaguely aware. Feldman makes the reader aware of the constant dynamic interaction between the patient and the analyst, each affecting the other. He shows how the analyst has to find a balance between doubt, uncertainty and confusion in himself, and through this process may arrive at an understanding of what is happening, and by formulating this understanding, the analyst can make a significant contribution to the process of psychic change. This collection of essays not only throws light on fascinating questions of technique but also reflects on elements that are fundamental to psychoanalytic work. It is essential reading for practising psychoanalysts and those in training, as well as anyone with a general interest in the psychoanalytic relationship between the client and the therapist in the consulting room.

What Do Psychoanalysts Want? Anna Ursula Dreher, Joseph Sandler, 2013-01-11. Joseph Sandler is an internationally respected figure, well known for his investigations of object relations. Preface by Arnold Cooper, prominent analyst, professor and North American editor of the *International Journal of Psychoanalysis*. Ground-breaking approach to subject of aims, distinguishing those of the analyst from the patient.

Psychotic Temptation Liliane Abensour, 2013. Abensour proposes the idea of a temptation towards psychosis rather than a regression as a response to the hatred or denial of the subject's origins. *The Maternal Lineage* Paola Mariotti, 2012-09-10. Why do women want to have children? How does one learn to be a mother? Does having babies have anything to do with sex? At a time when mothers are bombarded by prescriptive and contradicting advice on how to behave with their children, *The Maternal Lineage* highlights various psychological aspects of the mothering experience. International contributors provide clinical examples of frequent and challenging situations that have received scarce attention in psychoanalysis, such as issues

of neglect and psychical abuse The transgenerational repetition from mother to daughter of distressing mothering patterns is evident throughout the book and may seem inevitable However clinical examples and theoretical research indicate that when the support of partner and friends is not enough the cycle can be brought to an end if the mother receives psychoanalytic informed professional help The Maternal Lineage is divided into four parts An Introduction including a review of the literature focusing on the mother daughter relationship Pregnancy and very early issues Subfertility and its effects on a woman s psyche The psychological aspects of major mothering problems miscarriages post natal depression adolescent motherhood This timely book will be of value to psychoanalysts psychotherapists and health professionals obstetricians psychiatrists midwives and social workers
