Munson, 2013-10-29 The Nature of Christianity in Northern Tanzania explores the relationship between the region's environment and social change during the pivotal often overlooked German colonial period 1890-1916 The work connects changes in the landscape order and biogeography closely with the beginning Christianization of the three groups on the mountains the Chagga on Mt Kilimanjaro and the Meru and Arusha peoples of Mt Meru The work tells a story which is ordered green and Christian It looks at both new ideas and plants brought by the Germans to their colony in East Africa The introduced German like order and the exotic plants changed the landscape during the short period of German rule However the changes taking root in the African societies driven primarily by the introduction of Christianity led to an acceptance and adaptation of these imports Religious change is one of the most profound elements of social change and it deeply impacted the world view of the Chagga Meru and Arusha peoples Within all three groups their worldview was closely tied to religion there is no difference between the natural and social spheres nor the religious and secular worlds In the interaction between the German and Africans the ideas use of plants and even Christianity became altered Africanized and finally propagated by the African groups helping to create the new African European landscape This heritage lives on up till today growing on the landscape nurtured by the changes in the societies of the Chagga Meru and Arusha peoples on Mt Kilimanjaro and Mt Meru **The Rough Guide to Tanzania** Jens Finke, 2010-01-04 The Rough Guide to Tanzania is the definitive guide to one of Africa's most beautiful destinations with clear maps and detailed coverage of all the best attractions from climbing Mount Kilimanjaro to the exotic Indian Ocean beaches of Zanzibar You'll also find an in depth guide to Tanzania's spectacular wildlife and national parks and the most accurate map of the magically labyrinthine Stone Town

The Modern African State Godfrey Mwakikagile,2001 This book examines the modern African State as a fragile institution because of its structural flaws It focuses on a number of African countries whose combined analyses provide a focal point for looking at the whole continent as one giant place with crumbling state institutions whose fragility threatens the very existence of several African countries Even in rich African countries peace and stability is threatened and rampant corruption and dictatorship Nothing better demonstrates the weakness and cruelty of the modern African State than its willingness to instigate tribal violence in a number of African countries and its inability to contain such hostilities in many others In an attempt to put such weakness in proper perspective the author focuses on analyses of case studies as the context for a better understanding of the modern African State as the most dominant institution on the African continent **50**

Years of Central Banking in Kenya Patrick Njoroge,Victor Murinde,2021 This book documents important milestones in the epic journey traversed by the Central Bank of Kenya over the last 50 years putting into perspective the evolution of central banking globally and within the East African region and contemplating future prospects and challenges The book is timely mainly because the global financial landscape has shifted Central bankers have expanded their mandates beyond the singular focus on inflation and consider economic growth as their other important objective Financial crises have continued to disrupt the functioning of financial institutions and markets the most devastating episodes being the global financial crisis which broke out in 2008 and from which the global financial system has not fully recovered and the unprecedented challenges posed by the global coronavirus pandemic Bank regulation has moved from Basel I to Basel II and somehow migrated to Basel III although some countries are still at the cross roads The book originated from the wide ranging discussions on central banking from a symposium to celebrate the 50 year anniversary on 13 September 2016 in Nairobi The participants at the symposium included current and former central bank governors from Kenya and the Eastern Africa region high level officials from multilateral financial institutions policy makers bank executives civil society actors researchers and students The book is an invaluable resource for policy makers practitioners and researchers on how monetary policy and financial practices in vogue today in Kenya have evolved through time and worked very well but also about some pitfalls
