Point Blank Gary Kleck, 1991 Winner of the 1993 Michael J Hindelang award of the American Society of Criminology By 1990 there were approximately 200 million guns in private hands in the United States and around half of American households contained a gun Over 30 000 people a year are killed with guns in suicides homicides and accidents and Americans use guns for defensive purposes over a million times a year There is little doubt that gun violence and control are issues of vital importance and they continue to inspire national debate It is doubtful however whether most gun debates are worth listening to Not surprisingly such debates generally leave their participants exactly where they began with their biases intact and onlookers perplexed Written deliberately to counter an atmosphere of hysteria and extremism Point Blank now in paperback offers logical argument supported by empirical information It confronts fundamental questions head on On its initial publication in 1993 Point Blank won the Michael J Hindelang Award of the American Society of Criminology for the book that made the most outstanding contribution to criminology Point Blank reports both original research and assesses existing evidence drawn from a wide variety of academic disciplines including criminology sociology law and medicine

Cook, Jens Ludwig, 2000-10-26 100 billion dollars That is the annual cost of gun violence in America according to the authors of this landmark study a book destined to change the way Americans view the problem of gun related violence Until now researchers have assessed the burden imposed by gunshot injuries and deaths in terms of medical costs and lost productivity Here economists Philip Cook and Jens Ludwig widen the lens developing a framework to calculate the full costs borne by Americans in a society where both gun violence and its ever present threat mandate responses that touch every aspect of our lives All of us no matter where we reside or how we live share the costs of gun violence Whether waiting in line to pass through airport security or paying taxes for the protection of public officials whether buying a transparent book bag for our children to meet their school s post Columbine regulations or subsidizing an urban trauma center the steps we take are many and the expenditures enormous Cook and Ludwig reveal that investments in prevention avoidance and harm reduction both public and private constitute a far greater share of the gun violence burden than previously recognized They also employ extensive survey data to measure the subjective costs of living in a society where there is risk of being shot or losing a loved one or neighbor to gunfire At the same time they demonstrate that the problem of gun violence is not intractable Their review of the available evidence suggests that there are both additional gun regulations and targeted law enforcement measures that will help This urgently needed book documents for the first time how gun violence diminishes the quality of life for everyone in America In doing so it will move the debate over gun violence past symbolic politics to a direct engagement with the costs and benefits of policies that hold promise for reducing gun violence and may even pay for themselves **Guns in American Society** Jaclyn Schildkraut, Gregg Lee Carter, 2022-12-01 The revised third edition of the landmark *Guns in American Society* provides an authoritative and objective survey of the history and current state of all gun related issues and areas of debate in the United States *Guns in American Society: An Encyclopedia of History Politics Culture and the Law* is a comprehensive and evenhanded three volume reference resource for understanding all of the political legal and cultural factors that have swirled around gun rights and gun control in America past and present The encyclopedia draws on a vast array of research in criminology history law medicine politics and social science It covers all aspects of the issue gun violence including mass shootings in schools and other public spaces gun control arguments and organizations gun rights arguments and organizations the firearms industry firearms regulation legislation and court decisions gun subcultures for example hunters and collectors leading opinion shapers on both sides of the gun debate technological innovations in firearm manufacturing various types of firearms from handguns to assault weapons and evolving public attitudes toward guns Many of these entries place the topics in both historical and cross cultural perspective *Forum for Applied Research*
