Targeting Schools Drill Militarism And Imperialism:

Targeting Schools Alan Penn, 2013-03-07 Militarism was inseparable from imperialism in Britain as in other imperialist nations and its proponents saw schools as ideal means by which to give the nation's youth an early introduction to military drill This book traces the history of military drill for pupils in elementary schools from 1870 1914 *Militarism, Sport, Europe* J A Mangan, 2004-08-02 This collection explores the relationship between sport and war *Sport, Militarism and the Great War* Thierry Terret, J. A. Mangan, 2013-09-13 The Great War has been largely ignored by historians of sport However sport was an integral part of cultural conditioning into both physiological and psychological military efficiency in the decades leading up to it It is time to acknowledge that the Great War also had an influence on sport in post war European culture Both are neglected topics *Sport Militarism and the Great War* deals with four significant aspects of the relationship between sport and war before during and immediately after the 1914 1918 conflict First it explores the creation and consolidation of the cult of martial heroism and chivalric self sacrifice in the pre war era Second it examines the consequences of the mingling of soldiers from various nations on later sport Third it considers the role of the Great War in the transformation of the leisure of the masses Finally it examines the links between war sport and male socialisation The Great War contributed to a redefinition of European masculinity in the post war period The part sport played in this redefinition receives attention *Sport Militarism and the Great War* is in two parts the Continental Part I and the Anglo Saxon Part II No study has adopted this bilateral approach to date Thus in conception and execution it is original With its originality of content and the approaching centenary of the advent of the Great War in 2014 it is anticipated that the book will capture a wide audience This book was originally published as a special issue of *The International Journal of the History of Sport* [Manufacturing Masculinity](#) Peter Horton, 2017 This tribute to Professor J A Tony Mangan is well deserved Professor Mangan is a path breaking scholar Mangan's impact is measurable in the rarest of ways institution building Under his leadership a globally situated team has opened a new relationship between sport and the academy and I recommend *Manufacturing Masculinity* The Mangan Oeuvre Global Reflections on J A Mangan's Studies of Masculinity Imperialism and Militarism as yet again it offers a unique consideration of the relationship between sport and academy Professor John D Kelly University of Chicago Professor Mangan has since the early 1980s been one of the foremost international scholars within his chosen field of cultural history Over this period he has possibly more convincingly than any other international academic shown in his research how much sport and associated forms of competitive performance have not only reflected and reproduced but indeed sometimes also reformed and redirected fundamental political cultural and social structures and ideological transformative forces in modern civilisation Professor Henrik Meinander University of Helsinki Professor Mangan is widely and greatly respected in China as a scholar of international distinction he has made both direct and indirect contributions to Chinese scholarship especially regarding Chinese women and their long struggle for emancipation Finally and I cannot stress

this point too strongly a most important contribution has been his crystal clear and nuanced writing style much appreciated by Chinese who wish to write for the international scholastic world Professor Dong Jinxia Peking University No one has had a more influential role in or made a greater contribution to the cultural history of modern sport than Professor J A Mangan With his visionary pioneering monographs and many seminal edited collections and as founding editor of the series Sport in the Global Society with its numerous volumes and most especially as founding editor and editor of The International Journal of the History of Sport for some thirty years which he took from the original three numbers a year to eighteen numbers a year his contribution has been unparalleled Professor Roberta J Park University of California Berkeley *Physical Control, Transformation and Damage in the First World War* Simon Harold Walker, 2020-11-12 From enlistment in 1914 to the end of service in 1918 British men's bodies were constructed conditioned and controlled in the pursuit of allied victory Physical Control Transformation and Damage in the First World War considers the physical and psychological impact of conflict on individuals and asks the question of who in the heart of war really had control of the soldier's body As men learned to fight they became fitter healthier and physically more agile yet much of this was quickly undone once they entered the fray and became wounded died or harmed their own bodies to escape Employing a wealth of sources including personal testimonies official records and oral accounts Simon Harold Walker sheds much needed light on soldiers' own experiences of World War I as they were forced into martial moulds and then abandoned in the aftermath of combat In this book Walker expertly synthesizes military sociological and medical history to provide a unique top down history of individual soldiers' experiences during the Great War giving a voice to the thousands of missing mutilated and muted men who fought for their country The result is a fascinating exploration of body cultures power and the British army **Breaking the War Habit** Scott Harding, Charles Howlett, Seth Kershner, 2022-07-15 The Pentagon currently spends around 1.4 billion per year on recruiting and hundreds of millions annually on other marketing initiatives intended to convince the public to enlist costly efforts to ensure a steady stream of new soldiers The most important part of this effort is the Pentagon's decades long drive to win over the teenage mind by establishing a beachhead in American high schools and colleges Breaking the War Habit provides an original consideration of the militarization of schools in the United States and explores the prolonged battle to prevent the military from infiltrating and influencing public education Focused on the Junior Reserve Officer Training Corps JROTC in high schools and the Reserve Officer Training Corps ROTC in higher education the authors expose the pervasive influence and economic leverage bestowed on the military as it recruits children and youth Breaking the War Habit highlights those who have resisted the privileged status of the military and successfully challenged its position on campuses across the country A scrappy band of activists the Committee on Militarism in Education CME initiated this work following World War I publicizing the rise of school militarism and its implications For two decades CME's activism shaped public debate over the meaning of militarism in U.S. society and education settings resulting in numerous victories against ROTC and JROTC

programs The authors also explore how since the mid 1970s military counter recruiters have contested military recruiters largely unchecked access to high school students raising awareness of a school to military pipeline that concentrates recruitment in urban predominantly Black and low income regions Music and Victorian Liberalism Sarah Collins,2019-06-06 Examines the interaction between music and liberal discourses in Victorian Britain revealing the close interdependence of political and aesthetic practices No Regrets in the Evening of Life Neville Buch,2018-03-14 The type of local and school history before the reader may be unfamiliar It is a definitive and scholarly history in the style of many grammar school histories in Queensland Although it is not unknown for Australian public and private schooling it is unique for Queensland state schools By saying it is a definitive and scholarly history what is meant is not that the history is complete only that it reaches decisive conclusions in a substantive treatment In this particular case the historian is someone who has been trained at the level of a higher degree School Level Leadership in Post-conflict Societies Simon R. P. Clarke,Thomas A. O'Donoghue,2013-07-18 How do different contexts influence the nature and character of school leadership This book is predicated on the simple yet profound observation that school leadership can only be understood within the context in which it is exercised The observation is particularly valid in relation to post conflict societies especially when they have eventuated from new wars Schools in these contexts face highly complex circumstances and a level of environmental turbulence requiring different kinds of leadership from those operating in less complicated and relatively stable situations By assembling an impressive array of international experts this book investigates a much neglected area of research Each chapter highlights the importance of context for understanding the realities of school leadership and reveals the challenges and influences that school leaders face as well as the strategies they adopt to deal with the complexities of their work In particular valuable insights are provided into how intractable problems faced by schools can affect student professional and organizational learning agendas There are also important glimpses of the progression that can be made in schools by Enhancing the curriculum Energizing teaching capacity and Optimising leadership capacity Depictions of post new war environments include Angola Ghana Sri Lanka Rwanda Kenya Solomon Islands Lebanon Kosovo Timor Leste and Northern Ireland The book will be key reading for undergraduate and postgraduate students studying educational leadership comparative education and education policy **Sport and Society** Barrie Houlihan,2007-12-20 Praise for the First Edition Barrie Houlihan s astonishingly ambitious and skilfully assembled collection examines the relations between sport social policy and the social context that underlies the two Organized around such themes as exclusion commercialism and international comparisons the book allows the reader to understand not only the centrality of sport to contemporary society but the often perplexing policies that contrive to encourage or deny participation promote or deter public sector involvement and support or undermine physical education Importantly Houlihan never prioritises the general over the particular always striving to find detail amid the bigger picture Ellis Cashmore Professor of Culture Media and Sport Staffordshire University

The most comprehensive study of contemporary issues in sport by leading international scholars Houlihan's book is the answer to sports students' prayers full of information statistics tables and figures extensive guides to further reading and most important of all challenging ideas A weighty vademecum for the early 21st century Jim Riordan Honorary Professor of Sports Studies University of Stirling Professor Emeritus at University of Surrey and President of the European Sports History Association Fully updated and revised the Second Edition of Barrie Houlihan's ground breaking book provides students and lecturers with a one stop text that is comprehensive multi disciplinary accessible international and engaging Sport and Society allows students to Approach the study of sport from a multi disciplinary perspective Understand the importance of social structure power and inequality in analyzing the nature and significance of sport in society Address the rapid commercialization and regulation of sport Engage in comparative analysis to understand problems clearly and produce sound solutions Expand their knowledge through chapter summaries guides to further reading and extensive bibliographies This Second Edition contains five brand new chapters which reflect recent concerns with young athletes and human rights sport and the city sport and violence sport and health and sport and Islam A superb teaching text it will be relished by lecturers seeking an authoritative introduction to sport and society and students who want a relevant enriching text for their learning and research needs
