An Inculturation Model of the Catholic Marriage Ritual David William Antonio, 2002 In An Inculturation Model of the Catholic Marriage Ritual David William Antonio presents a model of how the Catholic Ritual of Marriage may be adapted to the language culture and traditions of a particular people specifically the ilocanos of Northern Luzon in the Philippines Vatican II called for the revision and adaptation of the rite of marriage exhorting local churches to develop their own rites suited to their people's particular customs and traditions The work of preparing a rite of marriage for a particular region cannot be limited to merely translating the typical edition There has to be a thorough examination of both the editio typica and the people's religious and cultural traditions the socio economic and political realities that confront them attending to the positive values expressed therein Only a dialogical process such as this will guarantee a liturgy that is faithful to the Christian tradition and meaningful to a given people An Inculturation Model of the Catholic Marriage Ritual will serve as a model for people of other cultures who have to do similar liturgical preparation and will be important especially to churches whose membership includes people who experienced colonization but never lost the riches of their own cultures in the blending of cultures and beliefs that followed

Children of Different Worlds Beatrice Blyth Whiting, Carolyn P. Edwards, Carolyn Pope Edwards, Carol R. Ember, 1988 The culmination of twenty years of research this book is a cross cultural exploration of the ways in which age gender and culture affect the development of social behavior in children The authors and their associates observed children between the ages of two and ten going about their daily lives in communities in Africa India the Philippines Okinawa Mexico and the United States This rich fund of data has enabled them to identify the types of social behavior that are universal and those which differ from one cultural environment to another Whiting and Edwards shed new light on the nature nurture question in analyzing the behavior of young children they focus on the relative contributions of universal physiological maturation and universal social imperatives They point out cross cultural similarities but also note the differences in experience between children who grow up in simple and in complex societies They show that knowledge of the company children keep and of the proportion of time they spend with various categories of people makes it possible to predict important aspects of their interpersonal behavior An extension and elaboration of the classic *Children of Six Cultures* Harvard 1975 *Children of Different Worlds* will appeal to the same audience developmental psychologists social psychologists anthropologists and educators and is sure to be equally influential

The Nurture Assumption Judith Rich Harris, 2011-10-25 A NEW YORK TIMES NOTABLE BOOK How much credit do

parents deserve when their children turn out well How much blame when they turn out badly Judith Rich Harris has a message that will change parents lives The nurture assumption the belief that what makes children turn out the way they do aside from their genes is the way their parents bring them up is nothing more than a cultural myth This electrifying book explodes some of our unquestioned beliefs about children and parents and gives us a radically new view of childhood Harris looks with a fresh eye at the real lives of real children to show that it is what they experience outside the home in the company of their peers that matters most Parents don't socialize children children socialize children With eloquence and humor Judith Harris explains why parents have little power to determine the sort of people their children will become The Nurture Assumption is an important and entertaining work that brings together insights from psychology sociology anthropology primatology and evolutionary biology to offer a startling new view of who we are and how we got that way

Four Years Old in an Urban Community John Newson, Elizabeth Newson, 2017-07-12 Although psychologists by training John and Elizabeth Newson have more aptly been described as pioneers in social ecology they work from the conviction that the causes and the consequences of child rearing attitudes can fruitfully be investigated only in the framework of the total social environment in which they occur This book continues their analysis of child rearing in an English urban setting

Toward a Cultural Theory of Education and Schooling Frederick Gearing, Lucinda Sangree, 2011-06-03 No detailed description available for Toward a Cultural Theory of Education and Schooling **Medical Anthropology** Francis X. Williams, 2011-06-03 No detailed description available for Socialization and Communication in Primary Groups *The Moral Economy of the Peasant* James C. Scott, 1977-09-10 James C Scott places the critical problem of the peasant household subsistence at the center of this study The fear of food shortages he argues persuasively explains many otherwise puzzling technical social and moral arrangements in peasant society such as resistance to innovation the desire to own land even at some cost in terms of income relationships with other people and relationships with institutions including the state Once the centrality of the subsistence problem is recognized its effects on notions of economic and political justice can also be seen Scott draws from the history of agrarian society in lower Burma and Vietnam to show how the transformations of the colonial era systematically violated the peasants moral economy and created a situation of potential rebellion and revolution Demonstrating keen insights into the behavior of people in other cultures and a rare ability to generalize soundly from case studies Scott offers a different perspective on peasant behavior that will be of interest particularly to political scientists anthropologists sociologists and Southeast Asianists The book is extraordinarily original and valuable and will have a very broad appeal I think the central thesis is correct and compelling Clifford Geertz In this major work Scott views peasants as political and moral actors defending their values as well as their individual security making his book vital to an understanding of peasant politics Library Journal Irritability in Pediatric Psychopathology

Amy Krain Roy, Melissa A. Brotman, Ellen Leibenluft, 2019-04-09 Pediatric irritability defined as increased proneness to anger relative to peers is among the most common reasons for mental health referrals The past fifteen years have witnessed a dramatic rise in the empirical study of pediatric irritability with the goal of developing more effective methods of assessing and treating these impaired youth Irritability in Pediatric Psychopathology offers a comprehensive overview of this work approaching the topic from multiple perspectives and disciplines including child psychiatry clinical psychology developmental psychology and neuroscience Offering five sections composed of chapters written by international experts the book begins by defining pediatric irritability reviewing its prevalence current assessment methods and novel behavioral and psychophysiological indicators The second section reviews the literature on the development of pediatric irritability from preschool age through adolescence and young adulthood The third section summarizes the current evidence for genetic and neurobiological factors contributing to pediatric irritability while the fourth reviews its presentation transdiagnostically across mood and anxiety disorders disruptive behavior disorders and autism Finally the book concludes with a presentation of evidence based psychological and pharmacological interventions Irritability in Pediatric Psychopathology is an essential resource for researchers clinicians and trainees working with children and adolescents
