Tarot And Individualism:

Rethinking the Individualism-Holism Debate Julie Zahle, Finn Collin, 2014-06-05 This collection of papers investigates the most recent debates about individualism and holism in the philosophy of social science The debates revolve mainly around two issues firstly whether social phenomena exist sui generis and how they relate to individuals This is the focus of discussions between ontological individualists and ontological holists Secondly to what extent social scientific explanations may and should focus on individuals and social phenomena respectively This issue is debated amongst methodological holists and methodological individualists In social science and philosophy both issues have been intensively discussed and new versions of the dispute have appeared just as new arguments have been advanced At present the individualism holism debate is extremely lively and this book reflects the major positions and perspectives within the debate This volume is also relevant to debates about two closely related issues in social science the micro macro debate and the agency structure debate This book presents contributions from key figures in both social science and philosophy in the first such collection on this topic to be published since the 1970s

The Witch Studies Reader Soma Chaudhuri, Jane Ward, 2025-02-21 Stories about witches are by their nature stories about the most basic and profound of human experiences healing sex violence tragedies aging death and encountering the mystery and magic of the unknown It is no surprise then that witches loom large in our cultural imaginations In academia studies of witches rarely emerge from scholars who are themselves witches and or embedded in communities of witchcraft practitioners The Witch Studies Reader brings together a diverse group of scholars practitioners and scholar practitioners who examine witchcraft from a critical decolonial feminist perspective that decenters Europe and departs from exoticizing and pathologizing writing on witchcraft in the global South The authors show how witches are keepers of suppressed knowledges builders of new futures exemplars of praxis and theorists in their own right Throughout they account for the vastly different national political economic and cultural contexts in which the witch is currently being claimed and repudiated Offering a pathbreaking transnational feminist examination of witches and witchcraft that upends white supremacist colonial patriarchal knowledge regimes this volume brings into being the interdisciplinary field of feminist witch studies Contributors Maria Amir Ruth Asiimwe Bernadette Barton Ethel Brooks

Radical Secularization? Stijn Latr♦, Walter Van Herck, Guido Vanheeswijck, 2016-06-30 What does it mean for a society to be secular Answering this question from a philosophical angle Radical Secularization delves into the philosophical presuppositions of secularization Which cultural evolutions made secularization possible International scholars from different disciplines assess the answers given by many leading philosophers such as among others L with Blumenberg and Habermas Germany Gauchet and Nancy France Taylor and Bellah North America They examine the theory that secularization cannot only be regarded as a cultural change that was forced upon religion from an external source e g science but should also be considered as a phenomenon triggered by motives internal to religion If religions are indeed capable of inner transformations the question arises whether religions can persist in the secular societies they inadvertently helped to bring about and how secular societies may accommodate religion
