held that the idea of a mysterious and inscrutable East was inherent in Enlightenment progress theory Statman argues that it was the orphans of the Enlightenment who put it there by identifying China as a source of ancient wisdom they turned it into a foil for scientific development But while historical consensus supposes that non Western ideas were banished from European thought over the course of the Enlightenment Statman finds that Europeans became more interested in Chinese science as a precursor then as an antithesis and finally as an alternative to modernity Egregores Mark
