Taste A Literary History:

Taste Denise Gigante, 2008-10-01 *div* What does eating have to do with aesthetic taste While most accounts of aesthetic history avoid the gustatory aspects of taste this book rewrites standard history to uncover the constitutive and dramatic tension between appetite and aesthetics at the heart of British literary tradition From Milton through the Romantics the metaphor of taste serves to mediate aesthetic judgment and consumerism gusto and snobbery gastronomes and gluttons vampires and vegetarians as well as the philosophy and physiology of food The author advances a theory of taste based on Milton's model of the human as consumer and digester of food words and other commodities a consumer whose tasteful subliminal self remains haunted by its own corporeality Radically rereading Wordsworth's feeding mind Lamb's gastronomical essays Byron's cannibals and other deviant diners and Kantian nausea *Taste* resituates Romanticism as a period that naturally saw the rise of the restaurant and the pleasures of the table as a cultural field for the practice of aesthetics *DIV*

Beasley, 2017-09-29

The first half of the book is a detailed study of how the salons influenced the development of literature Beasley argues that many women were not only writers they also served as critics for the literary sphere as a whole In the second half of the book Beasley examines how historians and literary critics subsequently portrayed the seventeenth century literary realm which became identified with the great reign of Louis XIV and designated the official canon of French literature Beasley argues that in a rewriting of this past the salons were reconfigured in order to advance an alternative view of this premier moment of French culture and of the literary masterpieces that developed out of it Through her analysis of how the seventeenth century salon has been defined and transmitted to posterity Beasley illuminates facets of France's collective memory and the powers that constituted it in the past and that are still working to define it today
