Taste Of New York:

A Taste of Upstate New York Chuck D'imperio, 2015-04-14 Upstate New York is the birthplace of many of America's favorite foods. The chicken wing was born in a bar in Buffalo; the potato chip originated in the kitchen of a glitzy Saratoga Springs hotel; the salt potato got its start along the marshy shores of a Syracuse lake; and Thousand Island dressing was created in a hotel along the St. Lawrence Seaway. In this book, D. Imperio travels across the region to discover the stories and people behind forty iconic foods of Upstate New York. He introduces readers to the black dirt farmers of Orange County who give America its best tasting onions; to the Catskills Candy Cane King; and to Charlie the Butcher, purveyor of the best beef on wheels in the state. Filled with color photographs, the book includes a map of the various regions around Upstate New York, allowing readers to create their own cultural and historic food tour.

Taste of the Nation Camille B  gin, 2016-06-15 During the Depression, the Federal Writers Project (FWP) dispatched scribes to sample the fare at group eating events like church dinners, political barbecues, and clambakes. Its America Eats project sought nothing less than to sample and report upon the tremendous range of foods eaten across the United States. Camille B  gin shapes a cultural and sensory history of New Deal era eating from the FWP archives. From ravioli, the diminutive derbies of pastries, the crowns stuffed with a well-seasoned paste, to barbecue seasoning that integrated salt, black pepper, dried red chili powder, garlic, oregano, cumin seed, and cayenne pepper, while tomatoes, green chili peppers, onions, and olive oil made up the sauce, B  gin describes in mouth-watering detail how Americans tasted their food. They did so in ways that varied and varied widely depending on race, ethnicity, class, and region. B  gin explores how likes and dislikes, cravings and disgust operated within local sensory economies that she culls from the FWP's vivid descriptions, visual cues, culinary expectations, recipes, and accounts of restaurant meals. She illustrates how nostalgia, prescriptive gender ideals, and racial stereotypes shaped how the FWP was able to frame regional food cultures as American.

The Taste of American Place Barbara G. Shortridge, James R. Shortridge, 1999-09-01 Tracing the intertwined roles of food, ethnicity, and regionalism in the construction of American identity, this textbook examines the central role food plays in our lives. Drawing on a range of disciplines—including sociology, anthropology, folklore, geography, history, and nutrition—the editors have selected a group of engaging essays to help students explore the idea of food as a window into American culture. The editors' general introductory essay offers an overview of current scholarship, and part introductions contextualize the readings within each section. This lively reader will be a valuable supplement for courses on American culture across the social sciences.

A Taste of God T. van den Hoogen, 2011 In the course of the 20th century, a new worldview has arisen in Western society and culture that is defined in this book as immanent mysticism. Several major philosophers are sensitive to such a sense of immanent mysticism. The same sensitivity is noticeable in the works of poets, painters, and other artists. It expresses the desire for transforming the way to meaningful living. A Taste of God shows that theological research programs are innovated by insights from aesthetics and studies of spirituality. The book's research

indicates that contemporary Western culture requires a reframing of foundational theology Series Nijmegen Studies in Theology Vol 3 *A Taste of Power* Katharina Vester,2015-10-02 A Taste of Power is an investigation of the crucial role culinary texts and practices played in the making of cultural identities and social hierarchies since the founding of the United States Nutritional advice and representations of food and eating including cookbooks literature magazines newspapers still life paintings television shows films and the internet have helped throughout American history to circulate normative claims about citizenship gender performance sexuality class privilege race and ethnicity while promising an increase in cultural capital and social mobility to those who comply with the prescribed norms The study examines culinary writing and practices as forces for the production of social order and at the same time as points of cultural resistance against hegemonic norms especially in shaping dominant ideas of nationalism gender and sexuality suggesting that eating right is a gateway to becoming an American a good citizen an ideal man or a perfect mother Cookbooks as a low prestige literary form became the largely unheralded vehicles for women to participate in nation building before they had access to the vote or public office for middle class authors to assert their class privileges for men to claim superiority over women even in the kitchen and for Lesbian authors to reinscribe themselves into the heteronormative economy of culinary culture The book engages in close reading of a wide variety of sources and genres to uncover the intersections of food politics and privilege in American culture Provided by publisher *A Taste of Home* Richard Ho,2024-08-20 In this colorful celebration of culture community and the food that binds us all together follow a young boy on a culinary tour of New York City perfect for fans of ALL ARE WELCOME and WHERE ARE YOU FROM What is home To one child home is this street he knows better than any other Where his family has lived for as long as he can remember But to another home is also another place Where she lived when she was a child Far away yet close enough in memory Or maybe home is a place they never saw themselves That only grandparents or great grandparents knew And maybe home is not a place at all Maybe home is people who gather to share and celebrate Follow a group of children as they walk through urban streets and meet friends with immigrant parents and grandparents Together by picking up ingredients from all around the world they begin to prepare a shared meal that celebrates the diversity of their city **The Taste of Place** Amy B. banquets for the manufacturers who displayed their new culinary products and for scientists who met to discuss the latest technologies in food hygiene Food stood as a powerful semiotic device for communicating and maintaining conceptions of identity history traditions and progress of inclusion and exclusion making it a valuable tool for researching the construction of national or corporate sentiments Combining recent developments in food studies and the history of major international exhibitions this volume provides a refreshing alternative view of these international and intercultural spectacles

The Demands of Taste in Kant's Aesthetics Brent Kalar,2006-10-15 Typically philosophers have either viewed beauty as objective and judgments of beauty as universally valid or else they have viewed beauty as subjective and regarded judgments of beauty as merely private preferences Immanuel Kant is famous for his unique third path Kant argues that beauty is subjective but the judgment of taste about beauty is capable of universal validity In his view the beautiful is not a feature of objects themselves but merely represents the way we respond to objects Furthermore the judgment of taste about beauty is a merely aesthetic judgment i e one based on a feeling of pleasure we take in the object The judgment of taste on the other hand possesses universal validity to call something beautiful is implicitly to demand that all others find it beautiful as well Kant s views about the taste for the beautiful have long been the subject of controversy Scholars have differed over the interpretation of the demand contained in a judgment of taste and whether Kant s attempt to legitimate this demand is successful Brent Kalar argues that the demands of taste should be understood as involving a uniquely aesthetic normativity rooted in Kant s cognitive psychology If the basis of aesthetic pleasure in the activity of the cognitive faculties is properly understood then Kant s attempt to legitimate the demands of taste may be regarded as a success This leads Kalar to give a new interpretation of the nature of the beautiful according to Kant that re examines the relationship between free play and the form of purposiveness in Kant s aesthetics and restores the aesthetic ideas to their rightful centrality in Kant s theory
