## **Technology Management Text And International Cases:**

*Technology Management* Norma Harrison, Danny Samson, 2001-01 Harrison and Samson's *Technology Management Text and International Cases* is a text and case approach to studying the many facets of technology management. A broad and diverse perspective is presented from various industries throughout the world. This approach provides students better understanding of key success factors for implementation of technology projects. Students see first hand how to implement technological change by examining the processes, routines, organizational structure, cultural and leadership factors that relate to introducing and implementing successful new technology. The most exciting and beneficial aspect of this text is its authorship; the cases were written by leading experts from top institutions around the world including USA, UK, Germany, Japan, Korea, Australia and Canada. Students are afforded the opportunity to learn from National Gurus of Technology Management all in one convenient book.

**Cases on Global IT Applications and Management: Successes and Pitfalls** Tan, Felix B., 2001-07-01 As organizations are competing globally in this new millennium, the effective deployment and exploitation of IT will create the difference between those that are successful and those that are not. What lessons are there to be learned from organizations that run global IT operations and deploy IT in support of their global business operations? *Cases on Global IT Applications and Management: Successes and Pitfalls* brings together original cases that report on these aspects of global IT applications and management and benefits educators, researchers and practitioners alike.

This book presents a blend of cases, original survey research and theory to show the principles used by successful firms in developing new products and pruning those that hold the company back.

Global Technology Management 4.0 Pratim Milton Datta, 2022-05-21 Technology is pervasive in today's globalized world. Moreover, technology and globalization drive competitiveness and strategy and must be managed well. This textbook uses technology management as the central theme to cover multiple business and social facets including digital transformation, cybersecurity, international operations, marketing, finance, culture, human capital and the political economy. The book is divided into four sections. Part 1 examines the confluence of globalization and technology from the first Industrial Revolution to the current Fourth Industrial Revolution. Part 2 introduces strategic and analytical metrics and models that are crucial to managerial decision making. Part 3 discusses the basics of cybersecurity and combating cyber threats to protect organization and its stakeholders. Part 4 focuses on sustainable operations, global projects and digital transformation in a technology-centric globalized world. The book will help students learn how to navigate business aspects of globalization and technology in the 4th Industrial Revolution (4IR). For

instructors the learning objectives and discussion questions help guide students in grasping the material
