Technology Ventures:

Fundamentals of Managing Technology Ventures Sutti Sooampon, 2025-02-04 This book presents a foundational guide for business students seeking to understand the fundamentals of managing technology ventures While typically reserved for more advanced graduate coursework there is a growing trend towards integrating technology and innovation topics into bachelor s and early graduate programs across various institutions The aim of this book is to introduce students to basic management concepts applicable to technology ventures without delving deeply into technical details By focusing on straightforward principles readers can grasp how these concepts influence the development of new ventures and projects at every stage Rather than overwhelming readers with complex theories the book offers practical guidance that can be easily applied in real world scenarios Its objective is to equip future business leaders with the knowledge and skills needed to navigate the landscape of technology ventures confidently and effectively *The Technology Management Handbook* Richard C. Dorf, 1998-07-27 If you are not already in a management position chances are you soon will be According to the Bureau of Statistics the fastest growing areas of employment for engineers are in engineering science management With over 200 contributing authors The Technology Management Handbook informs and assists the more than 1.5 million engineering managers in the practice of technical management Written from the technical manager s perspective and written for technologists who are managers The Technology Management Handbook presents in depth information on the science and practice of management Its comprehensive coverage encompasses the field of technology management offering information on Entrepreneurship Innovations Economics Marketing Product Development Manufacturing Finance Accounting Project Management Human Resources International Business **Technology Entrepreneurship** Thomas N. Duening, Robert A. Hisrich, Michael A. Lechter, 2009-10-21 Recognizing the unique needs of the technology startup Duening focuses on intellectual property development funding and marketing selling more than other texts in this market Extensive use of technology examples case studies and assignments keeps the book relevant and motivating for engineering students Rich in case studies examples and in chapter elements that focus on the challenges of launching and operating a technology venture In depth examination of intellectual property development valuation deal structuring and equity preservation issues of most relevance to technology start ups Extensive discussion of technology management and continuous innovation as a competitive advantage Addresses the issue of leading managing motivating and compensating technical workers More time on the fundamentals of marketing and selling as these are elements of entrepreneurship commonly most neglected by engineers and scientists **Technology Entrepreneurship** André Presse, Orestis Terzidis, 2018-03-22 This collection of expert articles explores the development drivers of new technology based firms and projects It provides perspectives for an in depth understanding of how technological inventions lead to the creation of new and sustainable companies or business units The authors address methods and concepts that help technology based start ups and entrepreneurial projects

successfully develop innovative products and services

Indicating Value in Early-Stage Technology Venture

Valuation Christoph Philipp Wessendorf, 2021-08-24 Fundraising for venture capital investments have continued to increase in recent years One crucial step in the investment process is the valuation of the target company Investors are faced with the great challenge of valuing a young venture without a corporate or financial history a firm customer relationship or even a business model while still taking into account the tremendous growth potential Especially the valuation of technology companies is a difficult and often subjective process Motivated by these considerations this dissertation details a design science research project which aims to develop an artifact that improves the indication of value in early stage technology venture valuation while enabling operationalizable and fair valuation This approach ensures a more meaningful valuation and better applicability to early stage technology ventures compared to traditional methods while supporting the deliberate reduction of information asymmetries between entrepreneurs and investors Firm specific characteristics and practical applicability are taken into account

Handbook of Research on High-Technology Entrepreneurs

The late Ayala Malach-Pines, Mustafa F. Özbilgin, 2010-01-01 Presents an overview of empirical and conceptual developments in the study of high tech entrepreneurs from an interdisciplinary and multinational perspective This book explores various conceptual frameworks and definitions of high tech entrepreneurs and of the entrepreneurial process based on studies in different settings and contexts

Socio-Tech Innovation Latha Poonamallee, Joanne Scillitoe, Simy Joy, 2020-04-25 This book defines socio technological innovation and lays out different aspects of technology innovation and adoption literature as applied to socio tech innovation and entrepreneurship Socio tech innovation refers to novel solutions that involve development or adoption of technological innovations to address social and or environmental problems with a view towards creating benefit for the larger whole rather than just for the owners or investors Unlike conventional technological innovation socio tech innovation either develops a product specifically for underserved markets and adopts a model in which the market is not an afterthought but the *raison d'être* Social ventures have not been as successful in scaling up though technology innovation led ventures have therefore meaningful actionable insights that can help social ventures scale up successfully can be gleaned by this process This book offers researchers in innovation and entrepreneurship programs a unique and interdisciplinary approach to studying social innovation that is grounded in technology innovation This book features a series of socio tech venture cases that illustrate these dynamics and can be used in undergraduate and graduate courses

Technology Ventures Richard C. Dorf, 2008 *Entrepreneur's choice between Venture Capitalist and Business Angel for Start-Up*

Financing Daniel Schmidt, 2014-02-01 The study extends the literature on venture capital by examining whether entrepreneur's choice for an external investor and certain firm characteristics have an impact on venture success or not The focus is set on the differences in value creation by venture capitalists and business angels for ventures of the high and low technology sector The assessment of a data set including 252 Series A financing rounds by venture capitalist firms business

angels and collaborative investments of both investors conducted between 2005 and 2012 unveils value enhancing aspects for all three financing solutions Overall start ups initially financed by venture capitalist firms perform best with regard to general venture success whereas start ups collaboratively supported by venture capitalists and business angels have the highest chances to exit successfully through a trade sale It becomes further apparent that ventures located in one of the high technology industries internet pharmaceuticals and high tech ventures that are longer established in the market and ventures whose Series A financing round was executed more recently indicate an enhanced likelihood of success
