Technology As A Human Affair:

Technology as a Human Affair Larry A. Hickman, 1990 **Technology as a Human Affair: Readings ...** Larry Hickman, 1990 From Artifact to Habitat Gayle L. Ormiston, 1990 Bringing together philosophy literary criticism and textual theory social and political theory and the philosophy of language and cognitive science this collection intends to establish an interpretive framework for exploring the ubiquity and mediacy of technology **Moralizing Technology** Peter-Paul Verbeek, 2024-05-31 Technology permeates nearly every aspect of our daily lives Cars enable us to travel long distances mobile phones help us to communicate and medical devices make it possible to detect and cure diseases But these aids to existence are not simply neutral instruments they give shape to what we do and how we experience the world And because technology plays such an active role in shaping our daily actions and decisions it is crucial Peter Paul Verbeek argues that we consider the moral dimension of technology Moralizing Technology offers exactly that an in depth study of the ethical dilemmas and moral issues surrounding the interaction of humans and technology Drawing from Heidegger and Foucault as well as from philosophers of technology such as Don Ihde and Bruno Latour Peter Paul Verbeek locates morality not just in the human users of technology but in the interaction between us and our machines Verbeek cites concrete examples including some from his own life and compellingly argues for the morality of things Rich and multifaceted and sure to be controversial Moralizing Technology will force us all to consider the virtue of new inventions and to rethink the rightness of the products we use every day **Michael Oakeshott Selected Writings Collection** Michael Oakeshott, 2014-08-26 A collection of 6 volumes of Oakeshott's work Notebooks 1922-86 Early Political Writings 1925-30 The Concept of a Philosophical Jurisprudence Vocabulary of a Modern European State Lectures in the History of Political Thought and What is History **Digital McLuhan** Paul Levinson, 2003-09-02 Marshall McLuhan died on the last day of 1980 on the doorstep of the personal computer revolution Yet McLuhan's ideas anticipated a world of media in motion and its impact on our lives on the dawn of the new millennium Paul Levinson examines why McLuhan's theories about media are more important to us today than when they were first written and why the Wired generation is now turning to McLuhan's work to understand the global village in the digital age **Governing Through Technology** Jannis Kallinikos, 2010-11-24 Information produced and disseminated by an interlocking ecology of computer based systems and artifacts currently provides the essential means for planning organizational operations and controlling organizational performances This book describes the vital importance that digital information acquires in restructuring organizations **Values, Nature, and Culture in the American Corporation** William C. Frederick, 1995 In *Values Nature and Culture in the American Corporation* distinguished ethicist William Frederick explores issues of fundamental importance to all who aspire to conduct their business affairs ethically He begins with an examination of the three value systems in business that are basically incompatible and therefore in constant tension The first is the need for managers to efficiently allocate resources for

maximum profits The second is the natural tendency for managers in pursuit of the first goal to accumulate power for its own sake The third is the desire for people in the community to create relationships that will perpetuate these communities Frederick brings in a range of ideas and concepts from the social sciences as well as the natural sciences to illuminate his discussion In the final section of the book he explores a range of issues of current concern to managers including corporate culture and technology

Science, Technology, and Public Policy: Books, monographs, documents, and articles in journals, 1968 through 1970 Lynton Keith Caldwell, William B. DeVille, Hedvah L. Shuchman, 1968

Media, Politics and the Network Society Robert Hassan, 2004-03-16 What is the network society What effects does it have upon media culture and politics What are the competing forces in the network society and how are they reshaping the world The rise of the network society the suffusion of much of the economy culture and society with digital interconnectivity is a development of immense significance In this innovative book Robert Hassan unpacks the dynamics of this new information order and shows how they have affected both the way media and politics are played and how these are set to reshape and reorder our world Using many of the current ideas in media theory cultural studies and the politics of the newly evolving networked civil society Hassan argues that the network society is steeped with contradictions and in a state of deep flux This is a key text for undergraduate students in media studies politics cultural studies and sociology and will be of interest to anyone who wishes to understand the network society and play a part in shaping it
