Starting a Tech Business Alex Cowan, 2012-03-14 The non-technical guide to building a booming tech-enabled business. Thinking of starting a technology-enabled business? Or maybe you just want to increase your technology mojo so you can do your job better. You do not need to learn programming to participate in the development of today's hottest technologies. But there are a few easy-to-grasp foundation concepts that will help you engage with a technical team. *Starting a Tech Business* explains in practical, actionable terms how to formulate and reality-test new ideas, package what you learn into frameworks that are highly actionable for engineers, understand key foundation concepts about modern software and systems, participate in an agile/lean development team as the voice of the customer.
