Technologys Storytellers:

Technology's Storytellers John M. Staudenmaier,1989-09-06 Technology s Storytellers documents the emergence of the history of technology as a coherent intellectual discipline Based on an analysis of nearly 300 articles published in Technology and Culture it proposes a mode of historical research as a communal rather than an individualistic endeavor looking for patterns of consensus in the authors choice of time periods geographical locations and types of technology to study It discusses the recurrent themes of the relationship between science and technology and the cultural ambience of technology and examines the extent to which historians are moving away from a once pervasive ideology of autonomous technological progress Co published with the Society for the History of Technology *Story Tech* Filippo Trevisan,Michael Vaughan,Ariadne Vromen,2025-02-26 Personal stories have the power to stir the heart compel us to act and spark social change While advocacy organizations have long used storytelling in campaigns the role technology plays has increased Today invitations to share your story are widespread on advocacy organizations and political campaign websites calls to action and social media pages But what happens after one clicks share And how does this affect which voices we hear and which we don t in public discourse Story Tech explores the increasingly influential impact of technologies such as databases algorithms and digital story banks that are usually invisible to the public It shows that hidden story tech enables political organizations to treat stories as data that can be queried for storylines and used to intervene in news and information cycles in real time In particular the authors review successful story centered campaigns that helped change dominant narratives on disability rights marriage equality and essential workers rights in the United States and Australia They compare the use of storytelling advocacy across different types of organizations including volunteer grassroots groups large national advocacy coalitions and trade unions and examine how trends differ for storytellers organizers and their technology partners As political stories shift to being on demand they reshape power relationships in key public debates in ways that produce moments of tension as well as positive narrative change Story Tech examines these trends and illustrates how storytelling success can and should be achieved in conjunction with personal dignity privacy and empowerment for storytellers and their communities particularly marginalized ones *Technologies for Interactive Digital Storytelling and Entertainment* Stefan Göbel,Rainer Malkewitz,Ido Iurgel,2006-11-27 This book constitutes the refereed proceedings of the Third International Conference on Technologies for Interactive Digital Storytelling and Entertainment TIDSE 2006 held in Darmstadt Germany in December 2006 It contains 37 papers that cover a broad spectrum from conceptual ideas theories and technological questions to best practice examples in the different storytelling application domains with a focus on entertainment and games **The Art Of Storytelling** Nicky Huys, Dive into the captivating world of storytelling with The Art of Storytelling This book is your ultimate guide to mastering the age old craft of weaving compelling narratives Whether you re an aspiring writer looking to create the next great novel a professional communicator aiming to engage your audience or simply a storytelling enthusiast this book has something for

Using Virtual Reality Technologies for Storytelling** Gérard Subsol,2005-11-24 The 1st International Conference on Virtual Storytelling took place on September 27 28 2001 in Avignon France in the prestigious Popes Palace Despite the tragic events of September 11 that led to some last minute cancellations nearly 100 people from 14 different countries attended the 4 invited lectures given by international experts the 13 scientific talks and the 6 scientific demonstrations Virtual Storytelling 2003 was held on November 20 21 2003 in Toulouse France in the Modern and Contemporary Art Museum Les Abattoirs One hundred people from 17 different countries attended the conference composed of 3 invited lectures 16 scientific talks and 11 posters demonstrations Since autumn 2003 there has been strong collaboration between the two major virtual digital storytelling conference series in Europe Virtual Storytelling and TIDSE Technologies for Interactive Digital Storytelling and Entertainment Thus the conference chairs of TIDSE and Virtual Storytelling decided to establish a 2 year turnover for both conferences and to join the respective organizers in the committees For the third edition of Virtual Storytelling the Organization Committee chose to extend the conference to 3 days so that more research work and applications could be be presented to renew the Scientific and Application Board to open the conference to new research or artistic communities and to call for the submission of full papers and no longer only abstracts so as to make a higher level selection **Handbook of Research on Education and Technology in a Changing Society** Wang, Victor C. X.,2014-05-31 Technology has become an integral part of our everyday lives This trend in ubiquitous technology has also found its way into the learning process at every level of education The Handbook of Research on Education and Technology in a Changing Society offers an in depth description of concepts related to different areas issues and trends within education and technological integration in modern society This handbook includes definitions and terms as well as explanations of concepts and processes regarding the integration of technology into education Addressing all

pertinent issues and concerns in education and technology in our changing society with a wide breadth of discussion this handbook is an essential collection for educators academicians students researchers and librarians   Developing Technology Mediation in Learning Environments Soares, Filomena,Lopes, Ana Paula,Brown, Ken,Uukkivi, Anne,2019-12-27 Most technologies have been harnessed to enable educators to conduct their business remotely However the social context of technology as a mediating factor needs to be examined to address the perceptions of barriers to learning due to the lack of social interaction between a teacher and a learner in such a setting Developing Technology Mediation in Learning Environments is an essential reference source that widens the scene of STEM education with an all encompassing approach to technology mediated learning establishing a context for technology as a mediating factor in education Featuring research on topics such as distance education digital storytelling and mobile learning this book is ideally designed for teachers IT consultants educational software developers researchers administrators and professionals seeking coverage on developing digital skills and professional knowledge using technology   Progress in Landslide Research and Technology, Volume 1 Issue 2, 2022 Irasema Alcántara-Ayala,Željko Arbanas,David Huntley,Kazuo Konagai,Matjaž Mikoš,Kyoji Sassa,Shinji Sassa,Huiming Tang,Binod Tiwari,2023-01-10 This open access book provides an overview of the progress in landslide research and technology and is part of a book series of the International Consortium on Landslides ICL It gives an overview of recent progress in landslide research and technology for practical applications and the benefit for the society contributing to understanding and reducing landslide disaster risk   In the Land of the Unreal Lisa Messeri,2024-02-02 Lisa Messeri offers an ethnographic exploration of a contemporary community of Los Angeles based storytellers media artists and tech innovators formed around virtual reality believing that it could remedy society s ills   History of Technology Volume 19 Graham Hollister-Short,2016-09-30 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays Volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology In addition to dealing with the history of technical discovery and change History of Technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred   Handbook of Research on New Media Applications in Public Relations and Advertising Esiyok, Elif,2020-08-07 As competition between companies increases the need for effective public relations and advertising campaigns becomes imperative to the success of the business However with the introduction of new media the nature of these campaigns has changed Today s consumers have more awareness and diversified ways to obtain knowledge and through new media they can provide feedback An understanding of how to utilize new media to promote and sustain the reputation of an organization is vital for its continued success The Handbook of Research on New Media Applications in Public Relations and Advertising is a pivotal reference source that provides vital research on the application of new media tools for running successful public

relations and advertising campaigns While highlighting topics such as digital advertising online behavior and social networking this book is ideally designed for public relations officers advertisers marketers brand managers communication directors social media managers IT consultants researchers academicians students and industry practitioners **Reframing Technology** Kent Hufford,2024-07-22 For over a hundred years technological change has been framed using a simple narrative technology drives history Reframing Technology challenges this idea of technological determinism through metahistorical and literary analyses that locate the birth of contingent frameworks in the historiography of technology in and around the 1930s The book also traces how the formal discipline of the History of Technology was remarkably preconfigured by four North American authors who were not professional historians Thorstein Veblen Stuart Chase Lewis Mumford and Marshall McLuhan They are considered as a continuum and are put in dialogue despite their training in different disciplines Their work is then linked up with the emergence of formal and institutional inquiry into narratives of technology at the end of the twentieth century The ideas in the book are applied to current discussions about the future of technology and artificial intelligence The book s main argument is that as the authors listed above suggest we need to think beyond the machine and reframe technology as a cultural practice rather than thinking of it as an object or a tool **Digital Storytelling with PowerPoint** Mark Standley,2003 **Shaping Concepts of Technology** Marc J de Vries,Arley Tamir,2012-12-06 As our modem society is so obviously influenced by technology there is a growing awareness of its importance for education The interest for including technology as a part of general education curricula is increasing In many countries technology is an element in the curriculum either as a topic a project part of a Science Technology Society STS programme part of science education or as a separate subject In order to clarify what technology is there is a need for international discussions in which philosophers engineers scientists and educational ists are involved One of the few conferences with such a broad representation was the second Jerusalem International Science and Technology Education Conference JISTEC that was held in Jerusalem January 8 11 1996 a conference that can truly be seen as a milestone in the international history of technology education More than 1 000 technology educators from more than 80 countries of the world and ministers of education from 28 coun tries came together to discuss current issues in technology education during JlSTEC To cite from Dr Michael Dyrenfurth s personal overview of the conference in the Journal of Industrial Teacher Education vol 33 no 2 Winter 1996 pp 83 85 Simply put this conference represented the most stellar international collection of technology education advocates the world has ever seen in one place Or in the words of Dr Digital Storytelling with IMovie Mark Standley,2004 **Science Fiction and Computing** David L. Ferro,Eric G. Swedin,2011-09-29 The prevalence of science fiction readership among those who create and program computers is so well known that it has become a cliche but the phenomenon has remained largely unexplored by scholars What role has science fiction played in the actual development of computers and computing And likewise how has computing including the related fields of robotics and artificial intelligence affected the course of

science fiction The 18 essays in this critical work explore the interrelationship of these domains over the span of more than half a century *Fifty Years of Medieval Technology and Social Change* Steven A. Walton,2019-08-22 This volume brings together a series of papers at Kalamazoo as well as some contributed papers inspired by the fiftieth anniversary of the publication of Lynn White Jr s Medieval Technology and Social Change 1962 a slim study which catalyzed the study of technology in the Middle Ages in the English speaking world While the initial reviews and decades long fortune of the volume have been varied it is still in print and remains a touchstone of an idea and a time The contributors to the volume therefore both investigate the book itself and its fate and look at new research furthering and inspired by White s work The book opens with an introduction surveying White s career with a bibliography of his work as well as some opening thoughts on the study of medieval technology in the last fifty years Three papers then deal explicitly with the reception and longevity of his work and its impact on medieval studies more generally Then five papers look at new cast studies areas where White s work and approach has had a particular impact namely medieval technology studies and medieval rural ecological studies Gender and Technology Nina Lerman,Ruth Oldenziel,Arwen P.
