Western society through a material culture analysis of the Coronation costumes worn by the Euro American debutantes Set against the backdrop of a city undergoing many demographic socioeconomic and political changes the themes of Coronation pageants represent the mythologized ethnic and class history which reinforces the hierarchical positioning of its participants The royal robes serve as the canvas upon which this theme is carried out The Coronation held in a city with a Hispanic majority has come under attack for its elitism but participation in it is still important for the old Euro American aristocracy and for a very few extremely wealthy Hispanic families Integral to the continuation of this increasingly contested tradition is the emotional appeal that wearing these intricately decorated gowns holds for participants

*Premodern Rulers and Postmodern Viewers* Janice North, Karl C. Alvestad, Elena Woodacre, 2018-02-01 Pop culture portrayals of medieval and early modern monarchs are rife with tension between authenticity and modern mores producing anachronisms such as a feminist Queen Isabel in RTVE's Isabel and a lesbian Queen Christina in The Girl King This book examines these anachronisms as a dialogue between premodern and postmodern ideas about gender and sexuality raising questions of intertemporality the interpretation of history and the dangers of presentism Covering a range of famous and lesser known European monarchs on screen from Elizabeth I to Muhammad XII of Granada this book addresses how the lives of powerful women and men have been mythologized in order to appeal to today's audiences The contributors interrogate exactly what is at stake in these portrayals namely our understanding of premodern rulers the gender and sexual ideologies they navigated and those that we navigate today
