The Yiddish Stage as a Temporary Home Diego Rotman, 2021-03-08 The Yiddish Theater Stage as a Temporary Home takes us through the fascinating life and career of the most important comic duo in Yiddish Theater Shimen Dzigan and Isroel Shumacher Spanning over the course of

half a century from the beginning of their work at the Ararat avant garde Yiddish theater in Łódź Poland to their Warsaw theatre they produced bold groundbreaking political satire The book further discusses their wanderings through the Soviet Union during the Second World War and their attempt to revive Jewish culture in Poland after the Holocaust It finally describes their time in Israel first as guest performers and later as permanent residents Despite the restrictions on Yiddish actors in Israel the duo insisted on performing in their language and succeeded in translating the new Israeli reality into unique and timely satire In the 1950s they voiced a unique among the Hebrew stages political and cultural critique Dzigal continued to perform on his own and with other Israeli artists until his death in 1980 *Losing Site* Dr Shelley

Hornstein, 2013-06-28 As Ruskin suggests in his *Seven Lamps of Architecture* We may live without architecture and worship without her but we cannot remember without her We remember best when we experience an event in a place But what happens when we leave that place or that place no longer exists This book addresses the relationship between memory and place and asks how architecture captures and triggers memory It explores how architecture exists as a material object and how it registers as a place that we come to remember beyond the physical site itself It questions what architecture is in the broadest sense assuming that it is not simply buildings Rather architecture is considered to be the mapping of physical mental or emotional space The idea that we are all architects in some measure as we actively organize and select pathways and markers within space is central to this book's premise Each chapter provides a different example of the manifold ways in which the physical place of architecture is curated by the architecture in our mental space our imaginary toolbox when we think of a place and look at a photograph or visit a site and describe it later or send a postcard By connecting architecture with other disciplines such as geography visual culture sociology and urban studies as well as the fine and performing arts this book puts forward the idea that a conversation about architecture is not exclusively about formal isolated buildings but instead must be deepened and broadened as spatialized visualizations and experiences of place
