Telecommunications And Politics The Decentralised Alternative:

Telecommunications and Politics Andrew Davies, 1994 This technological revolution is connected to a shift from mass production to a system of flexible production in which far flung corporate activities are being integrated into digital networks of information and control The Privatisation of European Telecommunications Johan From, Kjell A. Eliassen, 2017-11-28 This international volume presents a comprehensive comparative study of the transformation of the European telecommunications industry from 1990 to the present The book focuses on the old incumbent operators and their dramatic change from state agencies to listed companies It analyzes the liberalization process as well as the corporatization and privatization of these companies The contributors assess the conditions for the transformations taking place the driving forces for change the effects to management the efforts of the EU during these processes and ultimately the role of the private owner Political science publications have all but excluded analysis of the newly privatized companies their contribution to the liberalization process both before and after privatization and the interplay between the national political and company levels The book redresses this shortcoming and also features a double empirical focus in that the main national incumbents in Europe are analyzed and compared to Telenor the Norwegian former incumbent The People's Network Robert MacDougall, 2013-11-25 The Bell System dominated telecommunications in the United States and Canada for most of the twentieth century but its monopoly was not inevitable In the decades around 1900 ordinary citizens farmers doctors small town entrepreneurs established tens of thousands of independent telephone systems stringing their own wires to bring this new technology to the people Managed by opportunists and idealists alike these small businesses were motivated not only by profit but also by the promise of open communication as a weapon against monopoly capital and for protection of regional autonomy As the Bell empire grew independents fought fiercely to retain control of their local networks and companies a struggle with an emerging corporate giant that has been almost entirely forgotten The People's Network reconstructs the story of the telephone's contentious beginnings exploring the interplay of political economy business strategy and social practice in the creation of modern North American telecommunications Drawing from government documents in the United States and Canada independent telephone journals and publications and the archives of regional Bell operating companies and their rivals Robert MacDougall locates the national debates over the meaning use and organization of the telephone industry as a turning point in the history of information networks The competing businesses represented dueling political philosophies regional versus national identity and local versus centralized power Although independent telephone companies did not win their fight with big business they fundamentally changed the way telecommunications were conceived Understanding Public Management Kjell A Eliassen, Nick Sitter, 2008-02-25 A broad ranging and highly intelligent account of key recent developments internationally which skillfully updates the public management and governance literatures Ewan Ferlie Royal Holloway Public management has been radically changed and

reformed this book gives students a fine introduction to these changes and to the theories dealing with them J rgen Gr nnegaard Christensen University of Aarhus An introduction and guide to the dramatic changes that have occurred in the provision of public services over the last two decades this book combines theoretical perspectives with a range of case studies from Europe North America and further afield to explain why how and with what success liberal democracies have reformed the service role of the state The book pays close attention to four major dimensions of this transition External challenges and opportunities globalisation and EU integration Reducing the role of the state Liberalisation privatisation regulation and competition policy Improving the role of the state New Public Management e Government and beyond Managing the New Public Sector organisations strategy and leadership This text is designed for undergraduate courses in public governance but it also addresses the core components of MPA programmes the parameters tools principles and theories of public sector reform
