EDITED BY
JAMES H. HANCOCK

OXFORD UNIVERSITY PRESS

Telecommunications Law Handbook

Andreas Bartosch, Jens-Daniel Braun

Telecommunications Law Handbook:

Telecommunications Law Handbook John Angel, Ian Walden, 1997 This is the first book in this field to provide in a convenient and easily accessible form the statutory texts of telecommunications law The recent liberalisation of the industry has led to extensive and complicated new legislation in the UK and the European Union which is set out and annotated in the Handbook A range of UK operator licences and BTs interconnection agreement are provided together with background materials relating to the liberalisation process Recognising the global nature of telecommunications the Handbook also covers relevant US laws and international treaties *EC Competition and Telecommunications Law* Andreas

Bartosch, Jens-Daniel Braun, 2009-01-01 This new volume updates the groundbreaking analysis of its first edition in 2002 when the EC common regulatory framework for electronic communications networks and services had just entered into force So much has changed in the intervening years that that this new edition bears little resemblance to its predecessor with every chapter either extensively altered or entirely new It remains however the most detailed and comprehensive overview available of the application of the EC Treaty s competition rules in the markets for telecommunications and audiovisual media and of the applicable regulatory framework In thirteen chapters each contributed by one or more noted legal authorities in the field the second edition of *EC Competition and Telecommunications Law* covers the full range of EC telecommunications law across all major areas of both institutional and substantive law both on the international and EC levels including the following State aid the merger control regulation justification for sector specific regulation in EC competition law network access authorizations and privileges and mobile telephony Relevant EC media and communications law and relevant aspects of EC competition law are dealt with in detail While some chapters focus on competition law others deal primarily with sector specific regulation There is practical guidance throughout on procedural matters alongside analysis of the substantive provisions Well known in its first edition this thoroughly revised and updated version continue to be vital reading for practitioners in particular those specializing in European competition law and for company and in house lawyers who are seeking advice on how European law affects their business As a detailed analysis of the basic legislative and regulatory framework of European telecommunications law it will be an invaluable reference work for lawyers judges regulators and policymakers in all the EC Member States as well as for students and teachers of European law **Turkey Telecom Laws**
