Telegram from Guernica Nicholas Rankin,2012-09-20 On 26 April 1937 in the rubble of the bombed city of Guernica the world's press scrambled to submit their stories But one journalist held back and spent an extra day exploring the scene His report pointed the finger at secret Nazi involvement in the devastating aerial attack It was the lead story in both The Times and the New York Times and became the most controversial dispatch of the Spanish Civil War Who was this Special Correspondent whose report inspired Picasso's black and white painting Guernica the most enduring single image of the twentieth century and earned him a place on the Gestapo Special Wanted List George Steer a 27 year old adventurer was a friend and supporter of the Ethiopian emperor Haile Selassie I He foresaw and alerted others to the fascist game plan in Africa and all over Europe initiated new techniques of propaganda and psychological warfare saw military action in Ethiopia Spain Finland Libya Egypt Madagascar and Burma married twice and wrote eight books Without Steer the true facts about Guernica's destruction might never have been known In this exhilarating biography Nicholas Rankin brilliantly evokes all the passion excitement and danger of an extraordinary life right up to Steer's premature death in the jungle on Christmas Day 1944

Gernika, 1937 Xabier Irujo,2015-08-01 On April 26 1937 a massive aerial attack by German and Italian forces reduced the Basque city of Gernika to rubble and left more than sixteen hundred people dead Although the assault was initiated as part of a terror bombing campaign by Francoists against Basque Republican forces during the Spanish Civil War its main intent was to test the effectiveness of the rising German Luftwaffe's new equipment and strategies To produce this detailed analysis of the political and military background of the attack and its subsequent international impact Xabier Irujo examined archives and official government documents in several countries and conducted numerous interviews with Basques who survived His account of the assault itself based on eyewitness reports from both victims and attackers vividly recalls the horror of that first example of the blitz bombing that served the Germans during the first years of World War II He reveals the US and British governments reaction to the bombing and also discusses efforts to prosecute the perpetrators for war crimes Irujo relates the ways in which the massacre has been remembered and commemorated in Gernika and throughout the worldwide Basque diaspora *Gernika 1937 The Market Day Massacre* is an important contribution to the history of the Spanish Civil War and to our understanding of the military strategies and decisions that shaped this war and would later be employed by the Nazis during World War II

The Morbid Age Richard Overy,2009-05-07 British intellectual life between the wars stood at the heart of modernity The combination of a liberal uncensored society and a large educated audience for new ideas made Britain a laboratory for novel ways to understand the world *The Morbid Age* opens a window onto this creative but anxious era the golden age of the public intellectual and scientist Arnold Toynbee Aldous and Julian Huxley H G Wells Marie Stopes and a host of others Yet as Richard Overy argues a striking characteristic of so many of the ideas that emerged from this new age from eugenics to Freud's unconscious to modern ideas of pacifism and world government was the

fear that the West was facing a possibly terminal crisis of civilization The modern era promised progress of a kind but it was overshadowed by a growing fear of decay and death an end to the civilized world and the arrival of a new Dark Age even though the country had suffered no occupation no civil war and none of the bitter ideological rivalries of inter war Europe and had an economy that survived better than most The Morbid Age explores how this strange paradox came about Ultimately Overy shows the coming of war was almost welcomed as a way to resolve the contradictions and anxieties of this period a war in which it was believed civilization would be either saved or utterly destroyed Prevail Jeff Pearce,2017-07-04 It was the war that changed everything and yet it s been mostly forgotten in 1935 Italy invaded Ethiopia It dominated newspaper headlines and newsreels It inspired mass marches in Harlem a play on Broadway and independence movements in Africa As the British Navy sailed into the Mediterranean for a white knuckle showdown with Italian ships riots broke out in major cities all over the United States Italian planes dropped poison gas on Ethiopian troops bombed Red Cross hospitals and committed atrocities that were never deemed worthy of a war crimes tribunal But unlike the many other depressing tales of Africa that crowd book shelves this is a gripping thriller a rousing tale of real life heroism in which the Ethiopians come back from near destruction and win Tunnelling through archive records tracking down survivors still alive today and uncovering never before seen photos Jeff Pearce recreates a remarkable era and reveals astonishing new findings He shows how the British Foreign Office abandoned the Ethiopians to their fate while Franklin Roosevelt had an ambitious peace plan that could have changed the course of world history had Chamberlain not blocked him with his policy on Ethiopia And Pearce shows how modern propaganda techniques the post war African world and modern peace movements all were influenced by this crucial conflict a war in Africa that truly changed the world Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home **Trapped in History** Nicholas Rankin,2023-11-14 Trapped in History tells how the British colonised Kenya and how African nationalism arose under Jomo Kenyatta It describes the terrifying first attacks by the guerrilla freedom fighters known as Mau Mau Though defeated the Mau Mau hastened the end of British rule in Kenya Trapped in History explores the effect the uprising on the author who grew up as a child in the Kenya colony The book is both a history as well as a memoir of the end of Empire **Anti-Colonialism and the Crises of Interwar Fascism** Michael Ortiz,2023-01-12 What is fascism Is it an anomaly in the history of modern Europe Or its culmination In Anti Colonialism and the Crises of Interwar Fascism Michael Ortiz makes the case that fascism should be understood in part as an imperial phenomenon He contends that the Age of Appeasement 1935 1939 was not a titanic clash

between rival socio political systems fascism and democracy but rather an imperial contest between satisfied and unsatisfied empires Historians have long debated the extent to which Western imperialisms served as ideological and intellectual precursors to European fascisms To date this scholarship has largely employed an inside out methodology that examines the imperial discourses that pushed fascist regimes outward into Africa Asia and the Americas While effective such approaches tend to ignore the ways in which these places and their inhabitants understood European fascisms Addressing this imbalance Anti Colonialism adopts an outside in approach that analyses fascist expansion from the perspective of Indian anti colonialists such as Jawaharlal Nehru Subhas Bose and Mohandas Gandhi Seen from India the crises of Interwar fascism the Second Italo Ethiopian War Spanish Civil War Second Sino Japanese War Munich Agreement and the outbreak of the Second World War were yet another eruption of imperial expansion analogous although not identical to the Scramble for Africa and the Treaty of Versailles Whether fascist democratic or imperialist Europe s great powers collectively negotiated the fate of smaller nations

The Bombing War Richard Overy, 2013-09-26 The ultimate history of the Blitz and bombing in the Second World War from Wolfson Prize winning historian and author Richard Overy The use of massive fleets of bombers to kill and terrorize civilians was an aspect of the Second World War which continues to challenge the idea that Allies specifically fought a moral war For Britain bombing became perhaps its principal contribution to the fighting as night after night exceptionally brave men flew over occupied Europe destroying its cities The Bombing War radically overhauls our understanding of the War It is the first book to examine seriously not just the most well known parts of the campaign but the significance of bombing on many other fronts the German use of bombers on the Eastern Front for example as well as much newly discovered material on the more familiar Blitz on Britain or the Allied campaigns against Italian cities The result is the author s masterpiece a rich gripping picture of the Second World War and the terrible military technological and ethical issues that relentlessly drove all its participants into an abyss Reviews Magnificent must now be regarded as the standard work on the bombing war It is probably the most important book published on the history of the second world war this century Richard J Evans Guardian Monumental this is a major contribution to one of the most controversial aspects of the Second World War full of new detail and perspectives hugely impressive James Holland Literary Review This tremendous book does what the war it describes signally failed to do With a well thought out strategy and precision it delivers maximum force on its objectives The result is a masterpiece of the historian s art The Times It is unlikely that a work of this scale scope and merit will be surpassed Times Higher Education What distinguishes Mr Overy s account of the bombing war from lesser efforts is the wealth of narrative detail and analytical rigour that he brings to bear Economist Excellent Overy is never less than an erudite and clear eyed guide whose research is impeccable and whose conclusions appear sensible and convincing even when they run against the established trends Financial Times Hard to surpass If you want to know how bombing worked what it did and what it meant this is the book to read Times Literary Supplement About the author Richard Overy is the author of a series of

remarkable books on the Second World War and the wider disasters of the twentieth century *The Dictators* Hitler's Germany Stalin's Russia won both the Wolfson Prize for History and the Hessel Tiltman Prize He is Professor of History at the University of Exeter Penguin publishes 1939 Countdown to War The Morbid Age Russia's War Interrogations The Battle of Britain and The Dictators He lives in London [We Saw Spain Die](#) Paul Preston, 2012-03-01 The war in Spain and those who wrote at first hand of its horrors From 1936 to 1939 the eyes of the world were fixed on the devastating Spanish conflict that drew both professional war correspondents and great writers Ernest Hemingway John Dos Passos Josephine Herbst Martha Gellhorn W H Auden Stephen Spender Kim Philby George Orwell Arthur Koestler Cyril Connolly Andr Malraux Antoine de Saint Exup ry and others wrote eloquently about the horrors they saw at first hand Together with many great and now largely forgotten journalists they put their lives on the line discarding professionally dispassionate approaches and keenly espousing the cause of the partisans Facing censorship they fought to expose the complacency with which the decision makers of the West were appeasing Hitler and Mussolini Many campaigned for the lifting of non intervention revealing the extent to which the Spanish Republic had been betrayed Peter Preston's exhilarating account illuminates the moment when war correspondence came of age [Mussolini, Mustard Gas and the Fascist Way of War](#) Charles Stephenson, 2024-04-18 An examination of the first conflict to see the large scale systematic deployment of chemical weaponry since the end of World War I In early October 1935 and without any declaration of war some two hundred thousand men comprising soldiers and airmen of the Italian armed forces Fascist Blackshirt Militia Eritrean ascari and Somali dubats invaded the independent state of Ethiopia Abyssinia It was an operation entirely of choice the chooser being Il Duce Benito Mussolini The resultant conflict is often described as a colonial war while it was certainly launched with the intent of turning Ethiopia into an Italian possession it was in fact a war of aggression against an independent sovereign state with membership of the League of Nations A state that had according to one of its nineteenth century rulers been for fourteen centuries a Christian island in a sea of pagans The swiftness of the Italian victory resulted from their possession and ruthless use of technology most particularly aircraft mustard gas and motorisation mechanisation Since they were fighting an enemy who possessed none of these things then they were able to wage indeed inaugurate what the prominent military theorist JFC Fuller dubbed totalitarian warfare or as it became known a few years later total war This he opined was the Fascist the scientific way of making war In his considered view the Fascist Army that waged it was a scientific military instrument This book examines that campaign in military and political terms **Reading the Ruins** Leo Mellor, 2011-09-15 From fires to ghosts and from flowers to surrealist apparitions the bombsites of London were both unsettling and inspiring terrains Yet throughout the years prior to the Second World War British culture was already filled with ruins and fragments They appeared as content with visions of tottering towers and scraps of paper and also as form in the shapes of broken poetics But from the outbreak of the Second World War what had been an aesthetic mode began to resemble a proleptic template During that conflict many

modernist writers such as Graham Greene Louis MacNeice David Jones J F Hendry Elizabeth Bowen T S Eliot and Rose Macaulay engaged with devastated cityscapes and the altered lives of a nation at war To understand the potency of the bombsites both in the Second World War and after Reading the Ruins brings together poetry novels and short stories as well as film and visual art

The Twilight Years Richard Overy,2010-11-30 From a leading British historian the story of how fear of war shaped modern England By the end of World War I Britain had become a laboratory for modernity Intellectuals politicians scientists and artists among them Arnold Toynbee Aldous Huxley and H G Wells sought a vision for a rapidly changing world Coloring their innovative ideas and concepts from eugenics to Freud s unconscious was a creeping fear that the West was staring down the end of civilization In their home country of Britain many of these fears were unfounded The country had not suffered from economic collapse occupation civil war or any of the ideological conflicts of inter war Europe Nevertheless the modern era s promise of progress was overshadowed by a looming sense of decay and death that would deeply influence creative production and public argument between the wars In The Twilight Years award winning historian Richard Overy examines the paradox of this period and argues that the coming of World War II was almost welcomed by Britain s leading thinkers who saw it as an extraordinary test for the survival of civilization and a way of resolving their contradictory fears and hopes about the future

The Impact of the Spanish Civil War on Britain Tom Buchanan,2006-11-27 Explores the relationship between Britain and the Spanish Civil War This book explains the war s legacy and longer term impact on Britain and presents a chronological progression from the Civil War to the post war Franco era It also provides a discussion of the importance of loss and memory

David's Sling Victoria C. Gardner Coates,2016-01-05 Throughout Western history the societies that have made the greatest contributions to the spread of freedom have created iconic works of art to celebrate their achievements Yet despite the enduring appeal of these works from the Parthenon to Michelangelo s David to Picasso s Guernica histories of both art and democracy have ignored this phenomenon Millions have admired the artworks covered in this book but relatively few know why they were commissioned what was happening in the culture that produced them or what they were meant to achieve Even scholars who have studied them for decades often miss the big picture by viewing them in isolation from a larger story of human striving David s Sling places into context ten canonical works of art executed to commemorate the successes of free societies that exerted political and economic influence far beyond what might have been expected of them Fusing political and art history with a judicious dose of creative reconstruction Victoria Coates has crafted a lively narrative around each artistic object and the free system that inspired it This book integrates the themes of creative excellence and political freedom to bring a fresh new perspective to both In telling the stories of ten masterpieces David s Sling invites reflection on the synergy between liberty and human achievement

Shooting the Messenger Paul L. Moorcraft,Philip M. Taylor,2008 As the literature on military media relations grows it is informed by antagonism either from journalists who report on wars or from ex soldiers in their memoirs Academics who

attempt more judicious accounts rarely have any professional military or media experience A working knowledge of the operational constraints of both professions underscores Shooting the Messenger A veteran war correspondent and think tank director Paul L Moorcraft has served in the British Ministry of Defence while historian by training Philip M Taylor is a professor of international communications who has lectured widely to the U S military and at NATO institutions Some of the topics they examine in this wide ranging history of military media relations are the interface between soldiers and civilian reporters covering conflicts the sometimes grey area between reporters right or need to know and the operational security constraints imposed by the military the military s manipulation of journalists who accept it as a trade off for safer battlefield access the resultant gap between images of war and their reality the evolving nature of media technology and the difficulties and opportunities this poses to the military journalistic performance in reporting conflict as an observer or a participant Moorcraft and Taylor provide a bridge over which each side can pass and a path to mutual understanding
