Telematics And Government:

   Telematics and Government Dan Schiller,1982-01-01 This books systematically assesses the role of government in the computerization of U S and world society Part One traces the evolution of postwar policy for domestic telematics in parallel with growing corporate demand for merged computer communication services under private mastery Part Two extends the arguments to the international sphere as the structure of corporate enterprise is now essentially transnational Part Three returns to Government s other critical role in the computerization process as a market for advanced telematics equipment and services   **Indonesia Information Strategy, Internet and E-Commerce Development Handbook - Strategic Information, Programs, Regulations** IBP, Inc.,2015-06 Indonesia Information Strategy Internet and E Commerce Development Handbook Strategic Information Programs Regulations   Health Telematics Education John Mantas,1997 This volume focuses on the activities on Health Telematics Education In Europe coordinated activities in healthcare informatics education started in the late 1980 s with the establishment of European Courses in Health Teematics At the same time the European Commission foresaw the need for spreading the knowledge of IT in the Healthcare Sector Therefore the EC since then have supported the initiatives that aim to create awareness stimulate diffusion educate and train the users healthcare professionals in the application of Information Technology to the Healthcare Sector Such an initiative is the NIGHTENGALE project which is an essential project in the planning and implementation of strategy timing the Nursing profession in using and applying healthcare information systems as well as the IT EDUCTRA project which covers a more wide spectrum of the Health Telematics Education The objective of this book is to promote the appropriate use of the developed Telematics infrastructure across Europe by educating and training healthcare professionals in a harmonising way across Europe in the upcoming field of Health and Nursing Informatics For achieving this objective the European Commission established a series of European Conferences on Health Telematics Education and Workshops by experts users developers and policymakers In this book the Proceedings of the first European Conference in Health Telematics Education HTE 96 organised by the NIGHTINGALE project and supported by the IT EDUCTRA project are included as well as the minutes and the presentations of the NIGHTINGALE Workshops   *Indonesia Internet and E-commerce Investment and Business Guide - Strategic Information and Regulations* IBP, Inc.,2014-10-15 Indonesia Internet and E Commerce Investment and Business Guide Strategic and Practical Information Regulations and Opportunities   Organizational Interoperability in E-Government Herbert Kubicek,Ralf Cimander,Hans Jochen Scholl,2011-08-04 In the e government research community as well as in many national e government programs interoperability is widely seen as a key factor in developing effective and attractive e services There is also agreement that interoperability encompasses not only mere technical standards and interfaces but also includes organizational legal and cultural aspects Several interoperability frameworks have been introduced on national and international levels and recommendations have been made for the adaptation of enterprise

architectures in the public sector Common to all these approaches is their top down deductive procedure which does not connect very well to the real world of e government projects In contrast in this volume which is based on empirical research the authors introduce a bottom up inductive approach to deal with the challenges of interoperability related governance Based on so called good practice cases of interoperability in e government they derive concepts and classifications that help to uncover and assess similarities and differences between the cases As a result they present an empirically based conceptual framework that details the options for IT governance of interoperability in government In addition their findings also make it possible to critically assess and improve other existing frameworks With this work which combines different thematic foci as well as a European and a US background the authors situate empirical results in the broader context of theoretical and political reflection Thus they provide insights into strategic choices for CIOs in e government at a national or regional level experiences and lessons learned for managers and developers in e government projects and a huge set of empirical data for administrative and politicalscientists **Global Control** Peter McMahon,2002 Information systems and control technologies are key to globalization and while generally facilitating the overall trend to spatial reorganization they also effect change through the pervasive influence of internal systems logic Thus the author argues the dominant institutions of states firms and markets transform global development and are themselves transformed by key information technologies More specifically the book identifies the key phases of modern globalization and analyses the crucial role played by different information technologies at each point in time Responsible Technology Stephen V. Monsma,Calvin Center for Christian Scholarship,1986 This is a print on demand book and is therefore non returnable This book provides a multi disciplinary Christian analysis of the forces shaping the operation of modern technology and offers an alternative framework of biblically rooted normative principles It argues that technology is a value laden activity and presents principles for basing it on God s will **Electronic Government: Concepts, Methodologies, Tools, and Applications** Anttiroiko, Ari-Veikko,2008-03-31 Provides research on e government and its implications within the global context Covers topics such as digital government electronic justice government to government information policy and cyber infrastructure research and methodologies Handbook of Research on Artificial Intelligence and Knowledge Management in Asia's Digital Economy Ordóñez de Pablos, Patricia,Zhang, Xi,Almunawar, Mohammad Nabil,2022-11-11 Artificial intelligence AI and knowledge management can create innovative digital solutions and business opportunities in Asia from circular and green economies to technological disruption innovation and smart cities It is essential to understand the impact and importance of AI and knowledge management within the digital economy for future development and for fostering the best practices within 21st century businesses The Handbook of Research on Artificial Intelligence and Knowledge Management in Asia s Digital Economy offers conceptual frameworks empirical studies and case studies that help to understand the latest developments in artificial intelligence and knowledge management as well as its potential for digital transformation and business opportunities in Asia
