Telepathy In Search Of A Lost Faculty:

Telepathy; in Search of a Lost Faculty Eileen Jeanette Garrett, 1968 *Telepathy* Eileen J. Garrett, 1974 *Telepathy. In Search of a Lost Faculty, Etc* Eileen Jeanette GARRETT, 1941 **Telepathy in search of a lost faculty** Eileen J. Garrett, 1941 *Neuromatic* John Lardas Modern, 2021-09-29 The story Modern tells ranges from eighteenth century brain anatomies to the MRI from the spread of phrenological cabinets and mental pieties in the nineteenth century to the discovery of the motor cortex and the emergence of the brain wave as a measurable manifestation of cognition from cybernetic research into neural networks and artificial intelligence to the founding of brain centric religious organizations such as Scientology from the deployments of cognitive paradigms in electric shock treatment to the work of Barbara Brown a neurofeedback pioneer who promoted the practice of controlling one's own brainwaves in the 1970s What Modern reveals via this grand tour is that our ostensibly secular turn to the brain is bound up at every turn with the religion it discounts ignores or actively dismisses Nowhere are science and religion closer than when they try to exclude each other at their own peril

Mysticism Jess Hollenback, 1996-09-15 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic's interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic's experience as well Hollenback also explores the linkage between the mystic's practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience **How to Test and Develop Your ESP** Paul Hudson, 2001-03-20 Psychic abilities such as telepathic communication clairvoyance and premonitions have intrigued believers and the curious for ages In *How to Test and Develop Your ESP* Paul Hudson provides those interested in psychic phenomena with experiments to help discover and strengthen their own skills Favoring practice over theory Hudson shares his years of research and experiments with people interested in unlocking their potential The book covers extra sensory perception as well as interpreting dreams recalling the lives of past incarnations

Journal of the American Society for Psychical Research, Section "B" of the American Institute for Scientific Research American Society for Psychical Research (1906-),1941 List of members in v 1 6 12 *Telepathic Tales* Daniel Bourke,2025-07-08 Provides accounts of ESP ranging from ancient Greek myth traditional North and South American African and Polynesian stories to individuals like Rumi Charles Dickens and Carl Jung Considers unexplained ESP related happenings including bilocation the ability to locate lost items early knowledge of one s own death and perceptions regarding the well being of loved ones Whether a premonition of an impending event a warning of potential danger or an unlikely synchronistic experience such things are surprisingly common even if they often cannot be clearly explained Taking readers on a historical and cross cultural voyage through extrasensory experiences Daniel Bourke documents contextualizes and sheds light on these mysterious phenomena From the plains of Peru and the haunted highlands of Scotland to the snowy taiga forests of the Far North and the Indigenous cultures of Australia and America Bourke examines the strange psychic occurrences that seem to appear in all places at all times These include instances of bilocation premonitions about the coming of visitors intuitions of the location of lost items or treasures the discovery of cures by telepathic means and even accurate pre perceptions about

one's own demise or the perilous situation of a loved one. He looks at the renowned Greek seers including Iamos who announced the death of Hercules at the moment it occurred, the far-reaching visions of the shaman in a trance who might warn his tribe of danger, and the witches, wizards, and heroes of legend and romance who were privy to secret knowledge through magical means. Bourke's survey incorporates rare accounts from people all around the world and across the ages, including figures like Rumi, Saint Anthony, Charles Dickens, Mark Twain, and Carl Jung. Shedding light on our cultural and mythic past, Bourke shows that wherever you look in the world, whatever culture or time, telepathic tales are unfolding all around us.

Psychics, Sensitives and Somnambules Rodger I. Anderson, 2015-01-27

Claimants of paranormal abilities have always attracted controversy and fascination, and sometimes rigorous study by scientists. Charles Bailey, an Australian medium, was seemingly able to materialize different objects, animate and inanimate, under conditions which made it difficult to conceive how they could have been normally produced. Sumitra Singh, a woman of Northern India, who in 1984 became subject to epileptic type seizures, claimed to be possessed by spirits of the dead. Franck Kluski was a Polish poet, banker, and physical medium who specialized in both human and animal materializations. This biographical dictionary contains profiles of 330 psychics worldwide, from Tony Agpaoa to Elenor Zugun, each accompanied by a bibliography listing the primary sources consulted. The primary focus is on those claimed psychics who have figured prominently in the history of the subject, though some lesser-known figures are included to show how rich, varied, and colorful that history has been. The aim throughout is to present each case as fairly and dispassionately as the facts allow, with a particular eye for accuracy in details and presentation. The approach is historical, not apologetic or accusatory, making the work ideally suited as a permanent reference.

The Return of the Rebel Angels Timothy Wyllie, 2011-08-23

Furthering the revelations of The Urantia Book, providing a beautiful vision of our coming return to the Multiverse, offers angelic reassurance that Armageddon has been canceled and that the coming transition will be gentle and the future positive. Explains Lucifer's angelic rebellion, its impact on the past 200,000 years, and the transformation of consciousness on the horizon as the fallen angels return. Shares the author's spiritual wisdom gained through extensive travels and encounters with angels, ETs, and other enlightened beings. As recorded in The Urantia Book, two hundred millennia ago, 37 planets, including our own, were quarantined from the rest of the Multiverse to quell the spread of the Lucifer rebellion within the angelic hierarchy. Now, after eons of isolation, the fallen angels have been forgiven, and Earth's connection with the Multiverse is being restored, initiating a massive transformation of consciousness as we reconnect with angelic guides, extraterrestrial beings, and our spiritual heritage as sacred vessels for God's presence. Providing an update to The Urantia Book through angelic transmissions he has received and remarkable spirits he has met, Timothy Wyllie investigates the underlying motives of the angelic rebellion and the impact it has had on our planet for the past 200,000 years. Offering a profoundly optimistic vision of the future and reassurance that the coming spiritual transition will be gentle, Timothy Wyllie describes his encounters with angels, ETs, and other enlightened beings around the world.
