Television And American Culture:

Demographic Vistas David Marc, 2010-11-24 In *Demographic Vistas* David Marc shows how we can take television seriously within the humanist tradition while enjoying it on its own terms To deal with the barrage of messages from television's chaotic history Marc adapts tools of theatrical and literary criticism to focus on key personalities and genres in ways that reward serious students and casual viewers alike This updated edition includes a new foreword by Horace Newcomb and a new introduction by the author that discusses the ways in which the nature of television criticism has changed since the book's original publication in 1984 A new final chapter explores the paradox of the diminishing importance of over the air broadcasting during the period of television's greatest expansion which has been brought about by complex technologies such as cable videocassette recorders and online services

Electronic Hearth Cecelia Tichi, 1992-10-29 We all talk about the tube or box as if television were simply another appliance like the refrigerator or toaster oven But Cecilia Tichi argues that TV is actually an environment a pervasive screen world that saturates almost every aspect of modern life In Electronic Hearth she looks at how that environment evolved and how it in turn has shaped the American experience Tichi explores almost fifty years of writing about television in novels cartoons journalism advertising and critical books and articles to define the role of television in the American consciousness She examines early TV advertising to show how the industry tried to position the new device as not just a gadget but a prestigious new piece of furniture a highly prized addition to the home The television set she writes has emerged as a new electronic hearth the center of family activity John Updike described this primitive appeal of the hearth in Roger's Version Television is its irresistible charm a fire Entering an empty room we turn it on and a talking face flares into being Sitting in front of the TV Americans exist in a safety zone free from the hostility and violence of the outside world She also discusses long standing suspicions of TV viewing its often solitary almost autoerotic character its supposed numbing of the minds and imagination of children and assertions that watching television drugs the minds of Americans Television has been seen as treacherous territory for public figures from generals to presidents where satire and broadcast journalism often deflate their authority And the print culture of journalism and book publishing has waged a decades long war of survival against it only to see new TV generations embrace both the box and the book as a part of their cultural world In today's culture she writes we have become teleconscious seeing for example real life being certified

through television as seen on TV and television constantly ratified through its universal presence in art movies music comic strips fabric prints and even references to TV on TV Ranging far beyond the bounds of the broadcast industry Tichi provides a history of contemporary American culture a culture defined by the television environment Intensively researched and insightfully written *The Electronic Hearth* offers a new understanding of a critical but much maligned aspect of modern life

Television Program Master Index Charles V. Dintrone, 1996 Television history has become one of the hottest areas of research in popular culture Because the field is relatively new and so wide ranging no matter what one is researching much of the relevant material will be found scattered through numerous other works frustrating scholarly progress This work makes the television researcher's job easier by providing a single index to 341 books that include information on 1 002 shows Most of the books deal exclusively with television though some autobiographies biographies Congressional hearings and works on communication and the media are also indexed For a show to be included it must have been carried on NBC CBS ABC or Fox and must have been a series Shows on PBS are generally not included though exceptions have been made for *Sesame Street* and *Mister Rogers Neighborhood*

Cold War, Cool Medium Thomas Doherty, 2005-03-10 Conventional wisdom holds that television was a co conspirator in the repressions of Cold War America that it was a facilitator to the blacklist and handmaiden to McCarthyism But Thomas Doherty argues that through the influence of television America actually became a more open and tolerant place Although many books have been written about this period *Cold War Cool Medium* is the only one to examine it through the lens of television programming To the unjaded viewership of Cold War America the television set was not a harbinger of intellectual degradation and moral decay but a thrilling new household appliance capable of bringing the wonders of the world directly into the home The cool medium permeated the lives of every American quickly becoming one of the most powerful cultural forces of the twentieth century While television has frequently been blamed for spurring the rise of Senator Joseph McCarthy it was also the national stage upon which America witnessed and ultimately welcomed his downfall In this provocative and nuanced cultural history Doherty chronicles some of the most fascinating and ideologically charged episodes in television history the warm hearted Jewish sitcom *The Goldbergs* the subversive threat from *I Love Lucy* the sermons of Fulton J Sheen on *Life Is Worth Living* the anticommunist series *I Led 3 Lives* the legendary jousts between Edward R Murrow and Joseph McCarthy on *See It Now* and the hypnotic 188 hour political spectacle that was the Army McCarthy hearings By rerunning the programs freezing the frames and reading between the lines *Cold War Cool Medium* paints a picture of Cold War America that belies many black and white clichés Doherty not only details how the blacklist operated within the television industry but also how the shows themselves struggled to defy it arguing that television was preprogrammed to reinforce the very freedoms that McCarthyism attempted to curtail

Television in Black-and-white America Alan Nadel, 2005 La couverture indigne Alan Nadel's new book reminds us that most of the images on early TV were decidedly Caucasian and directed at predominantly white audiences Television

did not invent whiteness for America but it did reinforce it as the norm particularly during the Cold War years Nadel now shows just how instrumental it was in constructing a narrow conservative and very white vision of America During this era prime time TV was dominated by adult Westerns with heroes like The Rebel s Johnny Yuma reincarnating Southern values and Bonanza s Cartwright family reinforcing the notion of white patriarchy programs that Nadel shows bristled with Cold War messages even as they spoke to the nation s mythology America had become visually reconfigured as a vast Ponderosa crisscrossed by concrete highways designed to carry suburban white drivers beyond the moral challenge of racism racial poverty and increasingly vocal civil rights demands
