Television And The Crisis Of Democracy Douglas Kellner, 2018-02-02 This is one of the

best books I've read on the changing relationship of television to society. It provides a very good analysis of theoretical perspectives on television and makes excellent use of critical theory. An accessible book that at the same time challenges the reader to think more deeply about the role of television in a formally democratic society. Vincent Mosco, Carleton University. In this pathbreaking study, Douglas Kellner offers the most systematic, critically informed political and institutional study of television yet published in the United States. Focusing on the relationships among television, the state, and business, he traces the history of television broadcasting, emphasizing its socioeconomic impact and its growing political power. Throughout, Kellner evaluates the contradictory influence of television, a medium that has clearly served the interests of the powerful but has also dramatized conflicts within society and has on occasion led to valuable social criticism. **Encyclopedia of**

Television Horace Newcomb, 2014-02-03. The Encyclopedia of Television, second edition, is the first major reference work to provide description, history, analysis, and information on more than 1100 subjects related to television in its international context. For a full list of entries, contributors, and more, visit the Encyclopedia of Television 2nd edition website. Reality TV's Real Men of the Recession Shannon O'Sullivan, 2022-10-11. In this book, Shannon O'Sullivan explores blue-collar frontiers, shows a subgenre of reality television showcasing white working-class men performing hazardous occupations in remote wilderness settings. O'Sullivan argues that the proliferation of these programs represents a subtle yet potent reactionary veneration of white rural working-class men as real Americans amid the Great Recession and social movements challenging white supremacy, heteropatriarchy, and capitalism nearly a decade before Donald Trump kicked off his presidential campaign. Through analyses of *Deadliest Catch*, *Ax Men*, *Ice Road Truckers*, and *Gold Rush*, O'Sullivan reframes dominant understandings of social class and challenges the neoliberal tendency to configure identity and social categories as stylized performances delinked from power relations. The author highlights the political significance of these series in relation to Donald Trump's rhetorical strategy and media narratives about his supporters. O'Sullivan also incorporates an analysis of *Duck Dynasty*, which exemplifies how affluent white men take up stereotypical white rural working-class masculine performances to attain a public perception of masculine authenticity. Scholars of media studies, gender studies, television studies, communication, and political rhetoric will find this book of particular interest. **Library of Congress Subject Headings** Library of Congress. Transmission Peter d'Agostino, David Tafler, 1995 The essays in this volume investigate the impact of all media including the emerging technologies on the social cultural economic and political climate in the context of aesthetic values and issues of gender race and class Transmission examines the array of forces moving the contemporary video landscape forward comparing the past with the present as well as the future as it looks at the impact of video on commercial television the relationship of media to the social causes it mis represents and the effects of new communication tools on participating constituents

Reality TV Jon Kraszewski, 2017-02-24 From early first wave programs such as Candid Camera An American Family and The Real World to the shows on our television screens and portable devices today reality television consistently takes us to cities such as New York Los Angeles and Boston to imagine the place of urbanity in American culture and society Jon Kraszewski offers the first extended account of this phenomenon as he makes the politics of urban space the center of his history and theory of reality television Kraszewski situates reality television in a larger economic transformation that started in the 1980s when America went from an industrial economy when cities were home to all classes to its post industrial economy as cities became key points in a web of global financing expelling all economic classes except the elite and the poor Reality television in the industrial era reworked social relationships based on class race and gender for liberatory purposes which resulted in an egalitarian ethos in the genre However reality television of the post industrial era attempts to convince viewers that cities still serve their interests even though most viewers find city life today economically untenable Each chapter uses a key theoretical concept from spatial theory such as power geometries diasporic nostalgia orientalism the imagination of social expulsions and the relationship between the country and the city to illuminate the way reality television engages this larger transformation of urban space in America

The working class in mid-twentieth-century England Ben Jones, 2018-09-30 This book maps how working class life was transformed in England in the middle years of the twentieth century National trends in employment welfare and living standards are illuminated via a focus on Brighton providing valuable new perspectives of class and community formation Based on fresh archival research life histories and contemporary social surveys the book historicises important

cultural and community studies which moulded popular perceptions of class and social change in the post war period It shows how council housing slum clearance and demographic trends impacted on working class families and communities While suburbanisation transformed home life leisure and patterns of association there were important continuities in terms of material poverty social networks and cultural practices This book will be essential reading for academics and students researching modern and contemporary social and cultural history sociology cultural studies and human geography *World Television* Joseph D. Straubhaar, 2007-05-18 *World Television From Global to Local* a new assessment of the interdependence of television across cultures and nations brings together the most current research and theories on the subject By examining recent developments in the world system of television as well as several theories of culture industry genre and audience author Joseph D Straubhaar offers new insights into the topic He argues that television is being simultaneously globalized regionalized nationalized and even localized with audiences engaging it at multiple levels of identity and interest therefore the book looks at all these levels of operation Key Features Draws upon both international communication and cultural studies perspectives Presents a new model is presented that attempts to move beyond the current controversies about imperialism and globalization Looks at historical patterns Historical patterns across cultures and countries help compare where television has been and where it is going Takes a contemporary focus Uses of technology flows and patterns of program development genres of television the interaction of producers and audiences and patterns of audience choice among emerging alternatives are examined Explores how the audience for these evolving forms of television is structured The effects of these forces or patterns of television have on both cultural formations and individual identities are identified Intended Audience This is an excellent text for advanced undergraduate and graduate courses in Globalization and Culture Global Media Television Studies Television Criticism and International Media
