Communication Yearbooks Vols 6-33 Set Various,2021-12-02 The Communication Yearbook annuals originally published between 1977 and 2009 publish diverse state of the discipline literature reviews that advance knowledge and understanding of communication systems processes and impacts across the discipline Topics dealt with include Communication as Process Research Methodology in Communication Communication Effects Taxonomy of Communication and European Communication Theory Information Systems Division Mass Communication Research Mapping the Domain of Intercultural Communication Public Relations Feminist Scholarship Communication Law and Policy Visual Communication Communication and Cross Sex Friendships Across the Life Cycle Television Programming and Sex Stereotyping InterCultural Communication Training Leadership and Relationships Media Performance Assessment Cognitive Approaches to Communication **Communication Yearbook 7** Robert N. Bostrom,2011-10-25 First published in 2012 Routledge is an imprint of Taylor Francis an informa company *Cracked Coverage* Jimmie Lynn Reeves,Richard Campbell,1994 Carefully documenting the deceptions and excesses of television news coverage of the so called cocaine epidemic *Cracked Coverage* stands as a bold indictment of the backlash politics of the Reagan coalition and its implicit racism the mercenary outlook of the drug control establishment and the enterprising reporting of crusading journalism Blending theoretical and empirical analyses Jimmie L Reeves and Richard Campbell explore how TV news not only interprets reality in ways that reflect prevailing ideologies but is in many respects responsible for constructing that reality Their examination of the complexity of television and its role in American social cultural and political conflict is focused specifically on the ways in which American television during the Reagan years helped stage and legitimate the war on drugs one of the great moral panics of the postwar era The authors persuasively argue for example that powder cocaine in the early Reagan years was understood and treated very differently on television and by the state than was crack cocaine which was discovered by the news media in late 1985 In their critical analysis of 270 news stories broadcast between 1981 and 1988 Reeves and Campbell demonstrate a disturbing disparity between the earlier presentation of the middle and upper class white drug offender for whom therapeutic recovery was an available option and the subsequent news treatment of the inner city black drug delinquent often described as beyond rehabilitation and subject only to intensified strategies of law and order Enlivened by provocative discussions of Nancy Reagan s antidrug activism the dramatic death of basketball star Len Bias and the myth of the crack baby the book argues that Reagan s war on drugs was at heart a political spectacle that advanced the reactionary agenda of the New and Religious Right an agenda that dismissed social problems grounded in economic devastation as individual moral problems that could simply be remedied by just saying no Wide ranging and authoritative *Cracked Coverage* Television News the Anti Cocaine Crusade and the Reagan Legacy is a truly interdisciplinary work that will attract readers across the

humanities and social sciences in addition to students scholars journalists and policy makers interested in the media and drug related issues

Communication Power Manuel Castells, 2013-08-29 We live in the midst of a revolution in communication technologies that affects the way in which people feel think and behave The media have become the space where power strategies are played out In the current technological context mass communication goes beyond traditional media and includes the Internet and mobile communication In this wide ranging and powerful book Manuel Castells analyses the transformation of the global media industry by this revolution in communication technologies He argues that a new communication system mass self communication has emerged and power relationships have been profoundly modified by the emergence of this new communication environment Created in the commons of the Internet this communication can be locally based but globally connected It is built through messaging social networks sites and blogging and is now being used by the millions around the world who have access to the Internet Drawing on a wide range of social and psychological theories Castells presents original research on political processes and social movements He applies this analysis to numerous recent events the misinformation of the American public on the Iraq War the global environmental movement to prevent climate change the control of information in China and Russia Barak Obama s internet based presidential campaigns and in this new edition responses to recent political and economic crises such as the Arab Spring and the Occupy movement On the basis of these case studies he proposes a new theory of power in the information age based on the management of communication networks Justly celebrated for his analysis of the network society Castells here builds on that work offering a well grounded and immensely challenging picture of communication and power in the 21st century This is a book for anyone who wants to understand the dynamics and character of the modern world
