Television on Your Doorstep Bernat López, Miquel de Moragas Spa, 1999 This work brings together 14 national reports and a detailed account of television in the European Union It provides data on the contradictory processes of media globalization and decentralization and offers an optimistic approach to the future of television in the new era of digital broadcasting

Televisión y política Fernando Huertas, 1994 Los medios de comunicación se han convertido en una pieza clave para el funcionamiento de una sociedad moderna y democrática como la actual Hasta el punto de que conforman la realidad social y el hecho político Lo que se muestra en televisión aparece en la prensa o se oye en la radio emerge como una realidad incuestionable aunque haya sido reconstruida por los medios o constituya un puro acontecimiento mediático Todo lo demás se desvanece o aparece diluido en pequeñas realidades

(Multi) Media Translation Yves Gambier, Henrik Gottlieb, 2001-09-06 The globalisation of communication networks has increased the domains of translation and is challenging ever more the translator's role This volume is a collection of contributions from two different conferences Misano 1997 and Berlin 1998 Multi Media translation especially screen translation TV cinema video has made more explicit the complexities of any communication and has led us to take a fresh look at the translator's strategies and behaviours Several papers ponder the concepts of media and multimedia the necessity of interdisciplinarity the polysemiotic dimension of audiovisual media Quite a few discuss the current transformations in audiovisual media policy A great many deal with practices mainly in subtitling but also in interpreting for TV and surtitling what are the quality parameters and the conditions to meet audience's expectations Finally some show the cultural and linguistic implications of screen translation Digitalisation is changing production and broadcasting and speeding up convergence between media telecommunications and information and communication technology Is multi media translation a new field of study or an umbrella framework for scholars from various disciplines Is it a trick to overcome the absence of prestige in Translation Studies Or is it just a buzz word which gives rise to confusion These questions remain open the 26 contributions are partial answers

Francés, Germán Llorca, Josep Gavaldá, Àlvar Peris, 2014-01-01 Este libro recoge una selección de textos de las conferencias ponencias y comunicaciones presentadas en las diferentes sesiones de las VI Jornadas en Contenidos Audiovisuales para la Televisión Digital CONTD celebradas en Valencia el mayo pasado En esta ocasión se analizan las consecuencias que está teniendo la profunda crisis económica y financiera sobre un ámbito que se ha mostrado especialmente vulnerable como es el sector audiovisual Las televisiones tendrán que adaptarse a esta nueva situación en donde Internet tiene que ser un aliado de

las cadenas y no un competidor Probablemente la crisis ha propiciado la aparición y consolidación de nuevas fórmulas de financiación y cómo contar las mismas historias de siempre pero de forma diferente El valor de la creatividad los contenidos audiovisuales a través de la red y la emergencia de las redes sociales o los dispositivos móviles son aspectos a considerar en el nuevo paradigma de la producción audiovisual para la multidifusión digital

La Configuración de la Televisión Interactiva: de Las Plataformas Digitales a la TDT María José Arrojo Baliña, 2008-07 El nacimiento de las plataformas digitales de televisión en España y la posterior llegada de la Televisión Digital Terrestre y de otro tipo de Tecnologías han variado sustancialmente la labor del programador televisivo y el propio significado del término programación El trabajo que aquí se presenta es fruto de una reflexión científica acerca de un quehacer profesional del programador que trata de identificar los nuevos agentes televisivos y los nuevos procesos comunicativos que surgen con la televisión digital que tienen de nuevo y que heredan de la televisión convencional La televisión digital interactiva parte de un diseño complejo que atañe tanto a los contenidos como a los ámbitos de la programación la producción la comercialización la difusión etc Por otra parte están los objetivos de unos usuarios que han de optar ante una multivariedad de canales y de contenidos La creciente complejidad de estos fenómenos comunicativos pone de relieve la necesidad de un marco interpretativo que además de estudiarlos como fenómenos sociales también atienda a su clara componente artificial por lo que el presente trabajo se propone configurar a las Ciencias de la Comunicación como Ciencias de lo Artificial Pretendemos que este sea un libro de referencia para estudiantes de Periodismo y Comunicación Audiovisual para los profesionales del sector de la televisión canales productoras distribuidoras y por supuesto programadores así como para todas aquellas personas interesadas por la comunicación y sus procesos

María Trinidad García Leiva, 2008 A las puertas de lo que probablemente será el mayor reto tecnológico para la televisión desde su aparición el fin de las emisiones hertzianas analógicas los desafíos económicos y sociales pero también políticos que lo acompañan son aún mayores Esta obra los pone de manifiesto a través de un análisis comparado cuyo objetivo es llamar la atención sobre la trascendencia de decisiones que ni son simplemente técnicas ni pueden desligarse del camino audiovisual ya transitado Así pues bajo este prisma el libro examina las políticas públicas aplicadas a la implantación de la TDT en España y el Reino Unido desde sus orígenes y hasta finales de 2006 en el contexto más amplio de la actuación de la Unión Europea respecto del sector El objetivo último analizar su contribución a la democratización del servicio

Latin America's Contested Pasts in Telenovelas and TV Series Mónica Contreras Saiz, Stefan Rinke, 2024-12-30 In Latin America the production of telenovelas and TV series about the region's recent and traumatic past has grown considerably in the last 20 years affecting societal perceptions of the past historical consciousness and political culture While these TV products are usually perceived as trivial they do provide a historical framework to a wide audience which finds it easier to relate to the national past through fiction than through history books journalistic articles or documentaries Latin America's Contested Pasts in Telenovelas and TV Series analyzes the historical culture of Latin American society embodied in telenovelas and TV series from the 1960s to this day It compiles regional case studies on the televised representation of 20th century dictatorships in Chile Argentina and Brazil as well as the war against drug trafficking and the armed conflict in Colombia Highlighting the political and social relevance of fictional television the contributions offer interdisciplinary insights into its discourses and narratives from the heroization of criminals to the search for reconciliation and the construction of a historical memory

Ética en los medios de comunicación López Talavera, María del Mar, 2016-11-08 Hablar de ética en los medios de comunicación en un momento histórico de crisis moral de valores no resulta tarea sencilla por lo que es imprescindible subrayar la importancia y actualidad de una deontología en este ámbito

Hoy en día tanto estudiantes como profesionales de las ciencias de la información se enfrentan con problemas éticos que exigen tomar decisiones desde el punto de vista moral. Es lo que los anglosajones denominan *making ethical decision*. A tal efecto, este libro aporta fundamentales contenidos y reflexiones para una correcta resolución de los dilemas éticos en el ejercicio profesional del periodismo y de la comunicación audiovisual. Se abordan temas de actualidad y aplicación práctica como son, entre otros, el tratamiento ético de informaciones sobre violencia y terrorismo, la publicidad engañosa e información subliminal, la ética de los anuncios televisivos, la influencia de la televisión en los niños, la ética del fotógrafo en prensa y los paparazzi, la deontología del tertulio radiofónico, la importancia de la calidad de los contenidos en televisión, la telebasura y la responsabilidad social del cineasta.

Medios de comunicación y democracia, 1995 *The New Communications Landscape* Anura Goonasekera, Jan Servaes, Georgette Wang, 2003-09-02

The innovative and rapid growth of communication satellites and computer mediated technologies in the late 1980s and early 1990s combined with the deregulation of national broadcasting led many media commentators to assume that the age of national media had been lost. But what has become clear is that whilst there has been a limited growth in global media there has been an emergence of a strong localised television and communications industry. Mapping the world media market and using examples of programming from countries as diverse as Thailand, Hong Kong, Brazil, Taiwan, Spain and Britain, this volume explores theories of media globalization, examines the local culture of television programming and analyses the blurring of distinctions between the global and the local.
