Television And Everyday Life:

Television and Everyday Life Roger Silverstone, 1994 Television is a central dimension of our everyday lives and yet its meaning and its potency varies according to our individual circumstances Its power will always be mediated by the social and cultural worlds which we inhabit In *Television and Everyday Life* Roger Silverstone explores the enigma of television and how it has found its way so profoundly and intimately into the fabric of our everyday lives His investigation unravels its emotional and cognitive spatial temporal and political significance Drawing on a wide range of literature from psychoanalysis to sociology and from geography to cultural studies Roger Silverstone constructs a theory of the medium which locates it centrally within the multiple realities and discourses of everyday life Television emerges from these arguments as the fascinating complex and contradictory medium that it is but in the process many of the myths that surround it are exploded *Television and Everyday Life* presents a radical new approach to the medium one that both challenges received wisdoms and offers a compellingly original view of the place of television in everyday life

Television George Comstock, Erica Scharrer, 1999-04-15 Television What's On Who's Watching and What It Means presents a comprehensive examination of the role of television in one's life The emphasis is on data collected over the past two decades pointing to an increasing and in some instances a surprising influence of the medium Television is not only watched but its messages are attended to and well understood There is no shame in spending hours in front of the set in fact people over estimate the time they spend viewing Television advertising no longer persuades it sells by creating a burst of emotional liking for the commercial The emphases of television news determine not only what voters think about but also the presidential candidate they expect to support on election day Children and teenagers who watch a great deal of television perform poorly on standardized achievement tests and among the reasons are the usurpation of time spent learning to read and the discouragement of book reading Television violence frightens some children and excites others but its foremost effect is to increase aggressive behavior that sometimes spills over into seriously harmful antisocial behavior Incorporates social psychology political science sociology child development and the growing field of communications Presents tables and graphs clarifying theories and linking sets of data Paints concise portraits of the role of television in entertainment politics and child rearing Contains background for dozens of lectures and articles Contains a comprehensive bibliography of more than 1000 citations many recent *Ordinary Television* Frances Bonner, 2003-02-05 Most cultural analysis focuses on the spectacular and the unusual Frances Bonner has done us a great service by insisting on and demonstrating the importance of everyday TV Ordinary Television breaks genuinely new ground Toby Miller New York University In this book Frances Bonner provides a distinctive angle on a key area of research and teaching across media and cultural studies the content of television and the relations between television genres and audiences Hitherto most books on television have focused on drama or news and current affairs In other words they tend to ignore ordinary television lifestyle programmes and reality TV just the sort of programmes which increasingly dominate the schedules In Ordinary Television Frances Bonner makes a distinctive argument for regarding these disparate shows as a whole By examining a substantial range of these programmes Frances Bonner uncovers their shared characteristics especially through a consideration of the dominant and disguised discourses which pervade them In addition the comparative nature of her study enables the author to launch a powerful critique of conventional theories in relation to the globalization of television This book will be invaluable reading for anyone interested
