regarding the rise and fall of the rapprochement First the study argues that the rapprochement was not primarily driven by political elites but by capitalist conglomerates within Taiwan which sought a normalisation of economic relations across the Taiwan Strait Second it finds that Taiwan's social movements during that period were not homogeneous but rather struggled to find a common vision that could unite the critics of the rapprochement The insights provided not only offer a deeper understanding of Taiwan's protest cycle between 2008 and 2014 but also serve to recontextualise the political dynamics in post Sunflower Taiwan As such it will appeal to students and scholars of Taiwan Studies East Asian Politics and Social Movement Studies

Television And The Crisis Of Democracy Douglas Kellner, 2018-02-02 This is one of the best books I've read on the changing relationship of television to society It provides a very good analysis of theoretical perspectives on television and makes excellent use of critical theory An accessible book that at the same time challenges the reader to think more deeply about the role of television in a formally democratic society

Vincent Mosco Carleton University In this pathbreaking study Douglas Kellner offers the most systematic critically informed political and institutional study of television yet published in the United States Focusing on the relationships among television the state and business he traces the history of television broadcasting emphasizing its socioeconomic impact and its growing political power Throughout Kellner evaluates the contradictory influence of television a medium that has clearly served the interests of the powerful but has also dramatized conflicts within society and has on occasion led to valuable social criticism

Make Room for TV Lynn Spigel, 2013-11-26 Between 1948 and 1955 nearly two thirds of all American families bought a television set and a revolution in social life and popular culture was launched In this fascinating book Lynn Spigel chronicles the enormous impact of television in the formative years of the new medium how over the course of a single decade television became an intimate part of everyday life What did Americans expect from it What effects did the new daily ritual of watching television have on children Was television welcomed as an unprecedented window on the world or as a one eyed monster that would disrupt households and corrupt children Drawing on an ambitious array of unconventional sources from sitcom scripts to articles and advertisements in women's magazines Spigel offers the fullest available account of the popular response to television in the postwar years She chronicles the role of television as a focus for evolving debates on issues ranging from the ideal of the perfect family and changes in women's role within the household to new uses of domestic space The arrival of television did more than turn the living room into a private theater it offered a national stage on which to play out and resolve conflicts about the way Americans should live Spigel chronicles this lively and contentious debate as it took place in the popular media Of particular interest is her treatment of the way in which the phenomenon of television itself was constantly deliberated from how programs should be watched to where the set was placed to whether Mom Dad or kids should control the dial

Make Room for TV combines a powerful analysis of the growth of electronic culture with a nuanced social history of family life in postwar America offering a provocative glimpse of the way television became the mirror of so many of America's hopes and fears and dreams
