Comstock, 1972 **Television and Social Behavior** National Institute of Mental Health (U.S.), 1971 496 references to monographs journal articles and dissertations about the entertainment and informational aspects of television in relation to children and their behavior Includes some foreign literature 285 annotated references arranged alphabetically by author under broad topics 211 supplementary references arranged alphabetically by author Besides citation and abstract each entry indicates the number of references included Author index **Television and Social Behavior** John P. Murray, Eli Abraham Rubinstein, George A. Comstock, 1972 **Television and Social Behavior: Television and social learning** John P. Murray, Eli Abraham Rubinstein, George A. Comstock, 1972 **Handbook of Child Psychology, Child Psychology in Practice** William Damon, Richard M. Lerner, K. Ann Renninger, Irving E. Sigel, 2007-07-30 Part of the authoritative four volume reference that spans the entire field of child development and has set the standard against which all other scholarly references are compared Updated and revised to reflect the new developments in the field the Handbook of Child Psychology Sixth Edition contains new chapters on such topics as spirituality social understanding and non verbal communication Volume 4 Child Psychology in Practice edited by K Ann Renninger Swarthmore College and Irving E Sigel Educational Testing Service covers child psychology in clinical and educational practice New topics addressed include educational assessment and evaluation character education learning disabilities mental retardation media and popular culture children s health and parenting Television and Social Behavior Stephen B. Withey, Ronald P. Abeles, 2013-07-24 This book published originally in 1980 addressed the needs for a profile of televised violence which considered the advantages and disadvantages of various measures and for a furthering of research directions beyond the then popular emphasis on children The Committee on Television and Social Behavior was formed in 1972 and stimulated new research in order to provide a multidimensional profile of the social effects of television programming Chapters here look at the effect of television on adults as well as children particularly special audiences such as the elderly and minority groups An excellent summary of the various conceptual substantive and methodological issues around television s influence

Television and Social Behavior National Institute of Mental Health (U.S.), 1971 496 references to monographs journal articles and dissertations about the entertainment and informational aspects of television in relation to children and their behavior Includes some foreign literature 285 annotated references arranged alphabetically by author under broad topics 211 supplementary references arranged alphabetically by author Besides citation and abstract each entry indicates the number of references included Author index Selective Exposure To Communication Dolf Zillmann, Jennings

Bryant,2013-07-04 First published in 1985 Research into what is usually referred to as mass communication has concentrated on the societal impact of the media The ways in which these media influence people and affect their behavior have been at issue For the most part undesirable effects were pondered and documented Only a few desirable effects received similar attention and scrutiny The research preoccupation with impact has been so pronounced that comparatively speaking next to no attention has been paid to questions such as why people enjoy whatever they elect to watch or hear and more fundamentally why they elect to watch or hear in the first place whatever it is that they elect to watch or hear Without a symposium on research into selective exposure to informative and entertaining messages nor a publication that brought together the recent research in this area this volume was put together in an effort to end this dilemma and to put selective exposure research on the map as a significant research venture

Television and Behavior

National Institute of Mental Health (U.S.),1982 Abstract A comprehensive report summarizes the past 10 years of research activities and findings concerning the effects of television viewing on child behavior and development Approximately 90% of all research publications on this topic appeared during this period representing over 2500 titles The report is presented in 2 volumes a summary report and technical reviews The technical reviews comprise overall comprehensive and critical syntheses of the scientific literature on specific topic areas developed by 24 researchers in this area The topic areas address such issues as cognitive and emotional aspects of television viewing television s influences on physical and mental health television as it relates to socialization and viewer s conceptions of social reality and television as an American institution The overall orientation of the report is toward research and public health issues

Handbook of Health Behavior Research I David S.

Gochman,1997-08-31 The primary objective of this Handbook is to provide statements about health behaviour research as a basic body of knowledge moving into the 21st century It is expected that the Handbook will remain in use and current through 2005 at least The Handbook presents a broad and representative selection of mid 1990s health behaviour findings and concepts in a single work While texts and books of readings are available in related areas such as health psychology medical anthropology medical sociology behavioural health behavioural risk factors and changing health behaviours none of these works was intended to address basic research generated knowledge of health behaviour and none was intended to transcend individual disciplines Accordingly none of these works presents a broad and representative spectrum of basic health behaviour research reflecting multidisciplinary activities One work with a title identical to this one but for one word the Handbook of Health Behaviour Change Shumaker et al 1990 deals almost exclusively with applications This Handbook thus presents the reader with the state of the art in health behaviour research something not found elsewhere

Television and Behavior: Technical reviews ,1982 Abstract A comprehensive report summarizes the past 10 years of research activities and findings concerning the effects of television viewing on child behavior and development Approximately 90% of all research publications on this topic appeared during this period representing over 2500 titles The

report is presented in 2 volumes a summary report and technical reviews The technical reviews comprise overall comprehensive and critical syntheses of the scientific literature on specific topic areas developed by 24 researchers in this area The topic areas address such issues as cognitive and emotional aspects of television viewing television s influences on physical and mental health television as it relates to socialization and viewer s conceptions of social reality and television as an American institution The overall orientation of the report is toward research and public health issues *Tuning In to Young Viewers* Tannis M. MacBeth,1996-05-07 This book provides a much needed overview of crucial topics concerning the uses and effects of television including diversity on television dependence diagnosis and prevention the socialisation of young children and children s fear **The Development of Social Maturity** David Clarence McClelland,1982 **Research Paradigms, Television, and Social Behaviour** Joy Keiko Asamen,Gordon L. Berry,1998 Research Paradigms Television Social Behavior is a unique book that is designed to provide an understanding of television research from both the quantitative and qualitative perspectives The volume provides a systematic analysis of the various research paradigms used in the study of television and focuses on the integration of quantitative and qualitative methodologies as a means for understanding the complexities associated with this medium The book is useful for both undergraduate and graduate students because it presents information in a straightforward and engaging style as well as provides concrete step by step examples of how to conduct major research and evaluation projects involving this medium The book is also important for seasoned scholars and researchers as well as professionals in the media industry *The Psychology of Television* John Condry,2017-10-03 This volume addresses the content of television both programs and advertisements and the psychological effects of the content on the audience The author not only reports new research but explains its practical applications without jargon Issues are discussed and described in terms of psychological mechanisms and causal routes of influence While primarily referring to the American television industry and American governmental regulations the psychological principles discussed are applicable to television viewers world wide Handbook of Children and the Media Dorothy G. Singer,Jerome L. Singer,2012 Handbook of Children and the Media brings together the best known scholars from around the world to summarize the current scope of the research in this field *Television and Behavior* ,1982 **Kids and Media in America** Donald F. Roberts,Ulla G. Foehr,2004 This 2003 book reports the only national random sample survey of US children and adolescents use of all of the various media available to them conducted in at least the past 30 years In addition to providing the first comprehensive look at how media saturated our young people s lives have become it is the first study to examine young people s overall media budgets and the first to attempt to describe distinctly different types of young media users Extensive background information and chapters devoted to each of the various media to the overall media budget and to particular types of media users enables the authors to describe perhaps the most detailed map of US young people s media behavior ever assembled
