## **Tell Elhesi Field Manual:**

**The Tell El-Hesi Field Manual** Jeffrey A. Blakely, Lawrence Edmund Toombs, 1980      **Tell El-Hesi** J. Kenneth Eakins, 1993 The Tell el Hesi site comprises a 25 acre walled city from the Early Bronze III period It is located on the southeastern edge of the Mediterranean coastal plain 26 km northeast of Gaza in Israel Tell el Hesi was the first Palestinian site at which the principles of ceramic chronology and of stratigraphic excavation were applied and at which the relationship between pottery and stratigraphy was shown to be significant In 1890 W M Flinders Petrie excavated at Hesi and produced a general picture of its occupational history In 1891 92 F J Bliss excavated stratigraphically through each successive level of the mound and identified eleven occupational levels which he grouped into eight strata or cities In 1970 The Joint Archaeological Expedition to Tell el Hesi sponsored by the American Schools of Oriental Research and a consortium of educational institutions entered the site with the objectives of investigating in greater detail and with more refined methods the stratigraphic divisions identified by Petrie and Bliss This book appears as the fifth volume in the Joint Expedition s series of final publications regarding their field experience and findings The Joint Expedition had its first field season in June 1970 and returned to the site for further excavation in the summers of odd numbered years The first four seasons 1970 75 have been designated Phase One and were largely limited to the later occupation levels on the summit and southern slope of the site s northeast hill or acropolis although there were also probes and limited exploration of the larger Early Bronze EB city The next four seasons 1977 93 were designated Phase Two with work continuing in the Iron Age levels of the acropolis and also extending to the southern EB city wall and associated domestic structures This volume is primarily devoted to Phase Two of the expedition and details the burials unearthed during this excavation period when a large number of graves overlying Early Bronze Age strata were found in Fields V and VI      **Tell El-Hesi** Bruce T. Dahlberg, Kevin G. O'Connell, 1989 In 1970 The Joint Archaeological Expedition to Tell el Hesi sponsored by the American Schools of Oriental Research and a consortium of educational institutions entered the site with the objectives of investigating in greater detail and with more refined methods the stratigraphic divisions identified by Petrie and Bliss This book appears as the fourth volume in the Joint Expedition s series of final publications regarding their field experience and findings The Joint Expedition had its first field season in June 1970 and returned to the site for further excavation in the summers of odd numbered years The first four seasons 1970 75 have been designated Phase One and were largely limited to the later occupation levels on the summit and southern slope of the site s northeast hill or acropolis although there were also probes and limited exploration of the larger Early Bronze EB city      **Retrieving the Past** Joe D. Seger, 1996      **Hesi after 50 Years and 130 Years** John R. Spencer, James W. Hardin, Jeffrey Blakely, 2024-06-14 Tell el Hesi is located near the modern city of Qiryat Gat in the Southern District of Israel 23 kilometers from the Mediterranean Sea The site which covers 35 40 acres includes both an acropolis and a lower city Occupation of the site began as early as the Neolithic period and the city grew significantly during

the Early Bronze Age before being abandoned until the Late Bronze Age The latest phase of occupation occurred during the Hellenistic period The acropolis was in use for almost two thousand years This volume is the first in a new iteration of the Joint Archaeological Expedition to Tell el Hesi series that builds on previously published volumes It publishes a final report for part of one of Tell el Hesi s excavation fields a reevaluation of the stratigraphic findings of the original 1891 1892 excavations on Tell el Hesi based on excavation work from the 1970s and 1980s in depth studies of groups of small finds from the tell and zooarchaeological analyses that widen the investigative perspective to include the region around the tell Paying tribute to the long excavation history at Tell el Hesi the contributors to this volume employ state of the art scientific methods that honor the careful work and findings of a century of excavations Hesi After 50 Years and 130 Years will be an important reference for scholars researching the history and culture of southern Palestine *Sacred Texts and Disparate Interpretations: Qumran Manuscripts Seventy Years Later*, 2020-07-13 The essays in *Sacred Texts and Disparate Interpretations* cover an array of core themes from various areas of Qumran studies including textual criticism of the Hebrew Bible Second Temple history philology paleography Wisdom and religious poetry Contributors to this volume generally consider these themes from a historical perspective trying to find new solutions to old questions and entering in constructive dialogue with the opinions of other scholars Paleographic investigations textual criticism as well as literary and philological approaches make this volume a valuable contribution to the variegated and often highly specialized directions of inquiry into the contents and historical background of the Dead Sea Scrolls 21st Century Anthropology: A Reference Handbook H. James Birx, 2010-06-10 Highlighting the most important topics issues questions and debates these two volumes offer full coverage of major subthemes and subfields within the discipline of anthropology Doing Archaeology in the Land of the Bible John D. Currid, 1999-08-01 A popular introduction to archaeology and the methods archaeologists use to reconstruct the history of ancient Israel **The Late Bronze Age and Early Iron Ages of Central Transjordan** Patrick E. McGovern, Robin Brown, 1986 A critical transition period in the archaeology and history of Palestine the Late Bronze Age and Early Iron Age is described in detail from the perspective of a group of sites in the Baq ah Valley A major emphasis is on how scientific techniques including magnetic location of undisturbed burial deposits and analytical reconstruction of very early industries can be effectively integrated into an archaeological project Contrary to traditional views the evidence supports a relatively peaceful development within a single cultural tradition rather than the intrusion of a new people or segment of the existing population by invasion migration or revolt University Museum Monograph 65 **Confronting the Past** Seymour (Sy) Gitin, J. Edward Wright, J. P. Dessel, 2006-06-30 William G Dever is recognized as the doyen of North American archaeologist historians who work in the field of the ancient Levant He is best known as the director of excavations at the site of Gezer but has worked at numerous other sites and his many students have led dozens of other expeditions He has been editor of the Bulletin of the American Schools of Oriental Research for many years professor in the influential

archaeology program at the University of Arizona and now in retirement continues actively to write and publish In this volume 46 of his colleagues and students contribute essays in his honor reflecting the broad scope of his interests particularly in terms of the historical implications of archaeology **The Wide Lens in Archaeology** Allan Gilbert, Justin Lev-Tov, Paula Wapnish, 2017-06-01 This book honors the memory of Brian Hesse a scholar of Near Eastern archaeology a writer of alliterative and punned publication titles and an accomplished amateur photographer Hesse specialized in zooarchaeology but he influenced a wider range of excavators and ancient historians with his broad interpretive reach He spent much of his career analyzing faunal materials from different countries in the Middle East including Iran Yemen and Israel and his publications covered themes particular to animal bone studies such as domestication ancient market economics as well as broader themes such as determining ethnicity in archaeology The essays in this volume reflect the breadth of his interests Most chapters share an Old World geographic setting focusing either on Europe or the Middle East The topics are diverse with the majority discussing animal bones as was Hesse s specialization but some take a nonfaunal perspective related to the problems with which Hesse grappled The volume is also broad in temporal scope ranging from Neolithic Iran to early Medieval England and it addresses theoretical matters as well as methodological innovations including taphonomy and the history of computers in zooarchaeology Several of the essays are direct revisits to inspirations from or extensions of Hesse s own research All the contributions reflect his intense interest in social questions about antiquity the theme of social archaeology informed much of Brian Hesse s thinking and it is why his work made such an impact on those working outside his own disciplinary research Tell el-Hesi Lawrence E. Toombs, 1985-10-31 Tell el Hesi located in southern Israel at the juncture of the Negev Desert and the foothills of the Judean Mountains provides an excellent opportunity for the archaeological study of the impact of a variety of physical environments on the peoples who inhabited a single site The site has been occupied at various times from the Early Bronze Age through to the military trenching of 1948 Level one revealed the modern military trenching Level two contained a Muslim cemetery that the author has dated to the period 1600 1800 A D This work analyzes the military trenching and provides the first statistical analysis of an entire cemetery in this geographic region Using a computer code to analyze numerous attribute describing the burial cysts skeletal data and grave goods the author has developed a typology of burials and drawn conclusions about the community which they represent More than eighty photographs of individual burials and burial goods in addition to tables plans and section drawings illustrate the text The methodology employed in this work makes it a valuable source of information for archaeologists investigating burials in any cultural context The broader audience of anthropologists interested in burial customs will also find the book useful
