Thomas Nuttall

The Cape May Handbook:

Handbook of the Linguistic Atlas of the Middle and South Atlantic States William A. Kretzschmar, William A. Kretzschmar Jr., 1993-09-15 Who uses skeeter hawk snake doctor and dragonfly to refer to the same insect Who says gum band instead of rubber band The answers can be found in the Linguistic Atlas of the Middle and South Atlantic States LAMSAS the largest single survey of regional and social differences in spoken American English It covers the region from New York state to northern Florida and from the coastline to the borders of Ohio and Kentucky Through interviews with nearly twelve hundred people conducted during the 1930s and 1940s the LAMSAS mapped regional variations in vocabulary grammar and pronunciation at a time when population movements were more limited than they are today thus providing a unique look at the correspondence of language and settlement patterns This handbook is an essential guide to the LAMSAS project laying out its history and describing its scope and methodology In addition the handbook reveals biographical information about the informants and social histories of the communities in which they lived including primary settlement areas of the original colonies Dialectologists will rely on it for understanding the LAMSAS and historians will find it valuable for its original historical research Since much of the LAMSAS questionnaire concerns rural terms the data collected from the interviews can pinpoint such language differences as those between areas of plantation and small farm agriculture For example LAMSAS reveals that two waves of settlement through the Appalachians created two distinct speech types Settlers coming into Georgia and other parts of the Upper South through the Shenandoah Valley and on to the western side of the mountain range had a Pennsylvania influenced dialect and were typically small farmers Those who settled the Deep South in the rich lowlands and plateaus tended to be plantation farmers from Virginia and the Carolinas who retained the vocabulary and speech patterns of coastal areas With these revealing findings the LAMSAS represents a benchmark study of the English language and this handbook is an indispensable guide to its riches *A Reference Handbook of the Medical Sciences* Albert Henry Buck, 1885 **The Middle States: a Handbook for Travellers** Moses Foster Sweetser, 1876 [A Handbook to the Marriage Laws of the Cape Colony, the Bechuanaland Protectorate, and Rhodesia ...](#) Daniel Ward, 1897 **The Outdoorsman's Handbook (formerly The Angler's Guide)** Wainwright Randall, Reuben Johnson Held, Edward Baldwin Rice, Warren Hastings Miller, 1910 **A Handbook of medical climatology** Samuel Edwin Solly, 1897 **Illustrated Official Handbook of the Cape and South Africa** John Noble, 1893 **Historic Cape May, New Jersey** Emil R.
