Skaldic Verse And The Poetics Of Saga Narrative:

Skaldic Verse and the Poetics of Saga Narrative Heather O'Donoghue, 2005-08-11 Skaldic Verse and the Poetics of Saga Narrative is a study of the varying relationships between verse and prose in a series of Old Norse Icelandic saga narratives. It shows how the interplay of skaldic verse with its metrical intricacy and cryptic diction and saga prose with its habitual spare clarity can be used to achieve a wide variety of sophisticated stylistic and psychological effects. In sagas there is a fundamental distinction between verses which are ostensibly quoted to corroborate what is stated in the narrative and verses which are presented as the speech of characters in the saga. Corroborative verses are typical of but not confined to historical writings; the verses acting as a footnote to the narrative. Dialogue verses with their illusion that saga characters break into verse at crucial points in the story belong to the realm of fiction. This study, which focuses on historical writings such as *Grip and Heimskringla* and three of the major family sagas *Eyrbyggja saga*, *Gisla saga* and *Grettis saga*, shows that a close reading of the prosimetrum in the narrative can be used to chart the complex and delicate boundaries between history and fiction in the sagas. When skaldic stanzas are presented as the dialogue of saga characters, the characteristic naturalism of these narratives is breached. But some saga authors, as this book shows, extend still further the expressiveness of saga narrative, presenting skaldic stanzas as the soliloquies of saga characters. This technique enables the direct articulation of emotion and hence dramatic focalization of the narrative and the creation of psychological climaxes. As an epilogue, Heather O'Donoghue considers the absence of such effects in *Hrafnkels saga*, a highly literary narrative without verses.

Poetry in Sagas of Icelanders Margaret Clunies Ross, 2022 First full analysis of the skaldic verse appearing in the family sagas of Icelanders, considering why and how it is deployed. Sagas of Icelanders, also called family sagas, are the best known of the many literary genres that flourished in medieval Iceland, most of them achieving written form during the thirteenth and early fourteenth centuries. Modern readers and critics often praise their apparently realistic descriptions of the lives, loves, and feuds of settler families of the first century and a half of Iceland's commonwealth period (c. AD 970–1030), but this ascription of realism fails to account for one of the most important components of these sagas: the abundance of skaldic poetry, mostly in *dróttkvætt* court metre, which comes to saga heroes' lips at moments of crisis. These presumed voices from the past and their integration into the narrative present of the written sagas are the subject of this book. It investigates what motivated Icelandic writers to develop this particular mode and what particular literary effects they achieved by it. It also looks at the various paths saga writers took within the evolving prosimetrum, a mixed verse and prose form, and explores their likely reasons for using poetry in diverse ways. Consideration is also given to the evolution of the genre in the context of the growing popularity in Iceland of romantic and legendary sagas. A final chapter is devoted to understanding why a minority of sagas of Icelanders do not use poetry at all in their narratives, what particular literary effects they achieved by it. Discourse in Old Norse Literature Eric Shane Bryan, 2021 The vast and diverse corpus of Old Norse literature preserves the language spoken not only by the Vikings kings and heroes of medieval Scandinavia but also by outlaws missionaries and farmers Scholars have long recognized that the wealth of verbal exchanges in Old Norse sagas presents the modern reader with the opportunity to speak face to face as it were with these great voices of the past However despite the importance of verbal exchanges in the sagas there has been no book length study of discourse in Old Norse literature since 1935 This book meets the need for such a study by offering a literary analysis based on the adjacent field of pragmatic linguistics which recognizes that speakers often rely upon cultural situational and interpersonal context to communicate their meaning The resulting context dependent meaning often deviates from the base semantic and syntactical components of an utterance speakers hedge imply deflect to save face or obscure meaning to damage an opponent's self worth Saga writers this book argues were masters of this type of indirectness in speech It aims therefore to unlock the depth and subtlety of discourse in Old Norse literature and to leave readers with an understanding of how principles of pragmatics were employed throughout the sagas A wide body of Old Norse materials is examined including some of the best examples of slendingas gur sagas of Icelanders such as Brennu Nj ls saga Laxdoela saga and G sla saga S rssonar while also giving due attention to Konungas gur kings sagas fornaldars gur legendary sagas and other literature from the medieval North ERIC SHANE BRYAN is Associate Professor of English at Missouri University of Science and Technology

Bad Boys and Wicked Women Daniela Hahn, Andreas Schmidt, 2017-02-07 This volume assembles 13 essays as the result of a workshop for international doctoral and post doctoral researchers in Old Norse studies which was held at the Institute for Nordic Philology at LMU in Munich in December 2015 The contributions focus lies on different aspects of bad or evil characters in saga literature and they give testimony to the broad literary variety such figures display in Old Norse texts The Antagonists and Troublemakers in Old Norse Literature are here explored in their diversity ranging from their literary psychology to their characteristics which often challenge gender norms The contributions discuss the narrative strategies of presenting these characters to the audience both positively and negatively Furthermore they analyse how the central paradox of evil and its dependence on context is realised in various ways in Old Norse literature

Between History and Myth Bruce Lincoln,2024-05-31 All groups tell stories about their beginnings Such tales are oft repeated finely wrought and usually much beloved Among those institutions most in need of an impressive creation account is the state it s one of the primary ways states attempt to legitimate themselves But such founding narratives invite revisionist retellings that modify details of the story in ways that undercut ironize and even ridicule the state s ideal self representation Medieval accounts of how Norway was unified by its first king provide a lively revealing and wonderfully entertaining example of this process Taking the story of how Harald Fairhair unified Norway in the ninth century as its central example Bruce Lincoln illuminates the way a state s foundation story blurs the distinction between history and myth and how variant tellings of origin stories provide opportunities for dissidence and subversion as subtle or not so subtle modifications are introduced through details of character incident and plot structure Lincoln reveals a pattern whereby texts written in Iceland were more critical and infinitely more subtle than those produced in Norway reflecting the fact that the former had a dual audience not just the Norwegian court but also Icelanders of the twelfth and thirteenth centuries whose ancestors had fled from Harald and founded the only non monarchic indeed anti monarchic state in medieval Europe *Between History and Myth* will appeal not only to specialists in Scandinavian literature and history but also to anyone interested in memory and narrative

From Rus' to Rímur Shaun F. D. Hughes,Allyn K. Pearson,2024-07 *From Rus to R mur* volume 65 in the Islandica series and simultaneously an issue in the occasional journal *New Norse Studies* offers six contributions that range across Europe from East to West and across three categories Historical Studies

Literary Studies and New Editions The volume opens with a historical onomastic study of the Varangian presence in Medieval Rus and proceeds to the Isle of Man for a consideration of its population's ethnogenesis in the tenth and eleventh centuries Literary studies and fresh translations follow to return our attention to the remarkable creativity in sagas and poetry that was an especially rich province of Norse and Icelandic culture Contributors Matthew Bardowell Brynja Orgeirsdóttir Francesco Colombo Caitlin Ellis Eric A Haley Halinski Shaun F D Hughes Jonathan Y H Hui Philip Lavender Anna Litvina James McIntosh Dirk H Steinforth Fjodor Uspenski Crusading and Masculinities Natasha R. Hodgson, Katherine J. Lewis, Matthew M. Mesley, 2019-03-05 This volume presents the first substantial exploration of crusading and masculinity focusing on the varied ways in which the symbiotic relationship between the two was made manifest in a range of medieval settings and sources and to what ends Ideas about masculinity formed an inherent part of the mindset of societies in which crusading happened and of the conceptual framework informing both those who recorded the events and those who participated Examination and interrogation of these ideas enables a better contextualised analysis of how those events were experienced comprehended and portrayed The collection is structured around five themes sources and models contrasting masculinities emasculation and transgression masculinity and religiosity and kingship and chivalry By incorporating masculinity within their analysis of the crusades and of crusaders the contributors demonstrate how such approaches greatly enhance our understanding of crusading as an ideal an institution and an experience Individual essays consider western campaigns to the Middle East and Islamic responses events and sources from the Iberian peninsula and Prussia are also interrogated and re-examined thus enabling cross-cultural comparison of the meanings attached to medieval manhood The collection also highlights the value of employing gender as a vital means of assessing relationships between different groups of men whose values and standards of behaviour were socially and culturally constructed in distinct ways Narrating Law and Laws of Narration in Medieval Scandinavia Roland Scheel, 2020-01-20 Disputes lie at the heart of the sagas Consequently literary texts have been treated as sources of legal practice narrations of law while the sagas themselves and the handling of legal matters by the figures adhere to laws of narration The volume addresses this intricate relationship between literature and social practice from the perspective of historians as well as philologists The contributions focus not only on disputes and their solution in saga literature but also on the representation of law and its history in sagas and Latin historiography from Scandinavia as well as the representation of laws and norms in mythological texts They demonstrate that narrations of law provide an indispensable insight into legal culture and its connection to a wider framework of social norms adjusting the impression given by the laws The philological approaches underline that the narrative texts also have an agenda of their own when it comes to their representation of law providing a mirror of conduct criticising inequity reinforcing the political and juridical position of kings or negotiating norms in mythological texts Altogether the volume underlines the unifying force exerted by a common fiction of law beyond its letter **A Critical Companion to Old Norse Literary Genre** Massimiliano

studying teaching and researching in English Literature but all serious readers This book describes and seeks to explain the vast cultural literary social and political transformations which characterized the period 1000 1350 Change can be perceived everywhere at this time Theology saw the focus shift from God the Father to the suffering Christ while religious experience became ever more highly charged with emotional affectivity and physical devotion A new philosophy of interiority turned attention inward to the exploration of self and the practice of confession expressed that interior reality with unprecedented importance The old understanding of penitence as a whole and unrepeatable event a second baptism was replaced by a new allowance for repeated repentance and penance and the possibility of continued purgation of sins after death The concept of love moved centre stage in Christ's love as a new explanation for the Passion in the love of God as the only means of governing the self and in the appearance of narrative fiction where heterosexual love was suddenly represented as the goal of secular life In this mode of writing further emerged the figure of the individual a unique protagonist bound in social and ethical relation with others from this came a profound recalibration of moral agency with reference not only to God but to society More generally the social and ethical status of secular lives was drastically elevated by the creation and celebration of courtly and chivalric ideals In England the ideal of kingship was forged and reformed over these centuries in intimate relation with native ideals of counsel and consent bound by the law In the aftermath of Magna Carta and as parliament grew in reach and importance a politics of the public sphere emerged with a literature to match These vast transformations have long been observed and documented in their separate fields The Oxford English Literary History Volume 1 1000 1350 Conquest and Transformation offers an account of these changes by which they are all connected and explicable in terms of one another
