more similar as a result of contact multilingualism and cultural convergence Or have they instead maintained some of their striking grammatical and semantic differences Through comparison of the three languages O Neill shows that long term contact among the tribes intensified their linguistic differences creating unique Hupa Yurok and Karuk identities If language encapsulates worldview as the principle of linguistic relativity suggests then this region s linguistic diversity is puzzling Analyzing patterns of linguistic accommodation as seen in the semantics of space and time grammatical classification and specialized cultural vocabularies O Neill resolves the apparent paradox by assessing long term effects of contact
