Freedom's Currency Julia Wallace Bernier, 2024-09-24 The first comprehensive study of self purchase in the United States from the American Revolution to the Civil War Enslaved people lived in a world in which everything had a price Even freedom Freedom's Currency follows enslaved people's efforts to buy themselves out of slavery across the United States from the American Revolution to the Civil War In the first comprehensive study of self purchase in the nation Julia Wallace Bernier reveals how enslaved people raised money fostered connections and made use of slavery's systems of value and exchange to wrest control of their lives from those who owned them She chronicles the stories of famous fugitives like Frederick Douglass who with the help of friends and supporters purchased his freedom to protect himself against the continued legal claims of his enslavers and the possibility of recapture She also shows how enslaved fathers like Lunsford Lane and mothers like Elizabeth Keckley tried to secure lives for their families outside of slavery Freedom's Currency argues that freedom played a central role in the social and economic lives of the enslaved and in the ways that these aspects of their lives overlapped This intimate portrait of community illuminates the complexity of enslaved people's ideas about their place at the intersection of slavery and American capitalism and their attempts to value freedom above all Given the stakes liberation or remaining enslaved it is an account of both triumph and devastating failure

Freake of Fortune Jonathan Levy, 2012-10-29 Until the nineteenth century risk was a specialized term it was the

commodity exchanged in a marine insurance contract Freaks of Fortune tells how the modern concept of risk emerged in the United States Born on the high seas risk migrated inland and became essential to the financial management of an inherently uncertain capitalist future *The Claims of Kinfolk* Dylan C. Penningroth,2004-07-21 In *The Claims of Kinfolk* Dylan Penningroth uncovers an extensive informal economy of property ownership among slaves and sheds new light on African American family and community life from the heyday of plantation slavery to the freedom generation of the 1870s By focusing on relationships among blacks as well as on the more familiar struggles between the races Penningroth exposes a dynamic process of community and family definition He also includes a comparative analysis of slavery and slave property ownership along the Gold Coast in West Africa revealing significant differences between the African and American contexts Property ownership was widespread among slaves across the antebellum South as slaves seized the small opportunities for ownership permitted by their masters While there was no legal framework to protect or even recognize slaves property rights an informal system of acknowledgment recognized by both blacks and whites enabled slaves to mark the boundaries of possession In turn property ownership and the negotiations it entailed influenced and shaped kinship and community ties Enriching common notions of slave life Penningroth reveals how property ownership engendered conflict as well as solidarity within black families and communities Moreover he demonstrates that property had less to do with individual legal rights than with constantly negotiated extralegal social ties *Slavery and American Economic Development* Gavin Wright,2013-02-18 Through an analysis of slavery as an economic institution Gavin Wright presents an innovative look at the economic divergence between North and South in the antebellum era He draws a distinction between slavery as a form of work organization the aspect that has dominated historical debates and slavery as a set of property rights Slave based commerce remained central to the eighteenth century rise of the Atlantic economy not because slave plantations were superior as a method of organizing production but because slaves could be put to work on sugar plantations that could not have attracted free labor on economically viable terms *The Harvard Guide to African-American History* Evelyn Brooks Higginbotham,2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America **The Cambridge World History of Food** Kenneth F.
