Slavianskii Almanakh 1998:

Social History of the True Orthodox Christians Wandering in Russia Igor Kuziner, 2025-11-05 This book explores the social history of the radical religious community of Old Believer Wanderers during the period of rapid Late Imperial Early Soviet and Stalinist modernization The self titled True Orthodox Christians believed the 17th century reforms of the Russian Orthodox Church ushered in the reign of an invisible Antichrist Rejecting the corrupted world they advocated extreme asceticism renouncing property marriage and all contact with the state Yet despite their apocalyptic ideology the Wanderers thrived in Late Imperial and Early Soviet society engaging in capitalism pioneering agricultural cooperatives and even participating in Stalinist repression Focusing on three key figures this book examines how these seemingly isolated millenarians adapted to rapid modernization from imperial capitalism to Soviet revolution and Stalinist terror Their surprising integration challenges assumptions about radical religious groups revealing both the adaptability of fringe communities and the unexpected flexibility of modernizing regimes Through their stories this book offers new insights into the relationship between marginalized beliefs and societal transformation This book offers a nuanced and realistic model of the social outcasts existence that recovers their agency and subjectivity from the layers of discursive projections by elite commentators It is a significant contribution to the history of religion and popular religiosity in the Russian Empire and the early Soviet Union and it presents a new and rare perspective on Russian modernity It will be of interest to researchers in the fields of Russian history Christianity Orthodoxy and the history of religion

The Tsar's Foreign Faiths Paul W. Werth, 2014-03 Explores the scope and character of religious freedom for Russia's diverse non Orthodox religions during the tsarist regime

Asiatic Russia Tomohiko Uyama, 2012-03-12 Although the Russian Empire has traditionally been viewed as a European borderland most of its territory was actually situated in Asia Imperial power was huge but often suffered from a lack of enough information and resources to rule its culturally diverse

subjects and asymmetric relations between state and society combined with flexible strategies of local actors sometimes produced unexpected results In Asiatic Russia an international team of scholars explores the interactions between power and people in Central Asia Siberia the Volga Urals and the Caucasus from the 18th to the early 20th centuries drawing on a wealth of Russian archival materials and Turkic Persian and Tibetan sources The variety of topics discussed in the book includes the Russian idea of a civilizing mission the system of governor generalships imperial geography and demography roles of Muslim and Buddhist networks in imperial rule and foreign policy social change in the Russian Protectorate of Bukhara Muslim reformist and national movements The book is essential reading for students and scholars of Russian Central Eurasian and comparative imperial history as well as imperial and colonial studies and nationalism studies It may also provide some hints for understanding today's world where empire has again become a key word in international and domestic power relations *Peopling the Russian Periphery* Nicholas Breyfogle, Abby Schrader, Willard

Sunderland, 2007-11-02 Though usually forgotten in general surveys of European colonization the Russians were among the greatest colonizers of the Old World eventually settling across most of the immense expanse of Northern Europe and Asia from the Baltic and the Pacific and from the Arctic Ocean to Central Asia This book makes a unique contribution to our understanding of the Eurasian past by examining the policies practices cultural representations and daily life experiences of Slavic settlement in non Russian regions of Eurasia from the time of Ivan the Terrible to the nuclear era The movement of tens of millions of Slavic settlers was a central component of Russian empire building and of the everyday life of numerous social and ethnic groups and remains a crucial regional security issue today yet it remains relatively understudied *Peopling the Russian Periphery* redresses this omission through a detailed exploration of the varied meanings and dynamics of Slavic settlement from the sixteenth century to the 1960s Providing an account of the different approaches of settlement and expansion that were adopted in different periods of history it includes detailed case studies of particular episodes of migration Written by upcoming and established experts in Russian history with exceptional geographical and chronological breadth this book provides a thorough examination of the history of Slavic settlement and migration from the Muscovite to the Soviet era It will be of great interest to students and scholars of Russian history comparative history of colonization migration interethnic contact environmental history and European Imperialism **A Spiritual Revolution** Andrey V.

Ivanov, 2020-11-10 The ideas of the Protestant Reformation followed by the European Enlightenment had a profound and long lasting impact on Russia's church and society in the eighteenth century Though the traditional Orthodox Church was often assumed to have been hostile toward outside influence Andrey V Ivanov's study argues that the institution in fact embraced many Western ideas thereby undergoing what some observers called a religious revolution Embedded with lively portrayals of historical actors and vivid descriptions of political details *A Spiritual Revolution* is the first large scale effort to fully identify exactly how Western progressive thought influenced the Russian Church These new ideas played a foundational role

in the emergence of the country as a modernizing empire and the rise of the Church hierarchy as a forward looking agency of institutional and societal change Ivanov addresses this important debate in the scholarship on European history firmly placing Orthodoxy within the much wider European and global continuum of religious change **Modernism and Public**
