Snapshots From A Family Album:

Snapshots from a Family Album: 1959-1962 Angus Aitken, 2004 **Snapshots from a Family Album, 1963-1967** Angus Aitken, 2004 The Familial Gaze Marianne Hirsch, 1999 Contemporary artists writers and theorists challenge standard interpretations of family photographs **The Game of Life** Frank Losik, 2003-09-16 A collection of short stories poems and postcards that range from the amusingly playful to the provocatively thoughtful The underlying theme is triumph through focused effort and mutual support over the life crises that all of us must face The stories are presented in a bite sized format and are designed to appeal to the palates of mature adults who have had some difficult life experiences of their own The book is divided into several segments It begins with Reflections a short collection of personal reveries and inspirational tracts that establishes the theme for what follows A Cats Tale is a series of stories about the adventures and idiosyncracies of the family pets that begins with the story of Sparky The Christmas Cat Next comes Snippets which chronicles the greater and lesser adventures of a couple who found each other after stumbling unsuccessfully through their first marriages and who strive through their own trial and error experiments to create a happy life together Relationship Survival Kit that follows is a humorously presented set of dos and donts for couples in committed relationships Finally Myths That Maim cautions us about the hidden pitfalls of a mindless bumper sticker approach to life From Snapshots to Social Media - The Changing Picture of Domestic Photography Risto Sarvas, David M. Frohlich, 2011-02-09 From Snapshots to Social Media describes the history and future of domestic photography as mediated by technological change Domestic photography refers to the culture of ordinary people capturing sharing and using photographs and is in a particular state of flux today as photos go digital The book argues that this digital era is the third major chapter in the 170 year history of the area following the portrait and Kodak eras of the past History shows that despite huge changes in photographic technology and the way it has been sold people continue to use photographs to improve memory support communication and reinforce identity The future will involve a shift in the balance of these core activities and a replacement of the family album with various multimedia archives for individuals families and communities This raises a number of issues that should be taken into account when designing new technologies and business services in this area including the ownership and privacy of content multimedia standards home ICT infrastructure and younger and older users of images The book is a must for designers and engineers of imaging technology and social media who want a better understanding of the history of domestic photography in order to shape its future It will also be of value to students and researchers in science and technology studies and visual culture as a fascinating case study of the evolving use of photographs and photographic technology in Western society Framing Identities Wendy S. Hesford, 1999 Understanding Creative Users of ICTs David Kurt Herold, Harmeet Sawhney, Leopoldina Fortunati, 2013-09-13 The disjuncture between the design intent of the developers of ICTs and the needs of the users has often led to surprising use of new technologies as users have refused to become mere agents of the

designers Individual users have adopted their own uses of ICTs based on the complex webs of relations and meanings in which they function as social actors Instead of adjusting these webs to new ICTs they have fit the ICTs into their pre existing social webs often resulting in imaginative and creative uses of new technologies not envisaged by the original designers The contributions in this volume provide studies of such integrations of ICTs into the lives of human users and demonstrate that such uses should not be regarded as faulty or mistaken merely because they fail to meet the expectations of the original designers of the ICTs Instead human users should be given precedence over ICTs and the creative uses of universal technologies by individual users should be emphasised and studied so as to move towards a better understanding and appreciation of the integration of ICTs into human lives This book was originally published as special issue of The Information Society

Warring Visions Thy Phu,2021-10-18 In *Warring Visions* Thy Phu explores photography from dispersed communities throughout Vietnam and the Vietnamese diaspora both during and after the Vietnam War to complicate narratives of conflict and memory While the visual history of the Vietnam War has been dominated by American documentaries and war photography Phu turns to photographs circulated by the Vietnamese themselves capturing a range of subjects occasions and perspectives Phu s concept of warring visions refers to contrasts in the use of war photos in North Vietnam which highlighted national liberation and aligned themselves with an international audience and those in South Vietnam which focused on family and everyday survival Phu also uses warring visions to enlarge the category of war photography a genre that usually consists of images illustrating the immediacy of combat and the spectacle of violence pain and wounded bodies She pushes this genre beyond such definitions by analyzing pictures of family life weddings and other quotidian scenes of life during the war Phu thus expands our understanding of how war is waged experienced and resolved

TV Snapshots Lynn Spigel,2022-04-08 In *TV Snapshots* Lynn Spigel explores snapshots of people

posing in front of their television sets in the 1950s through the early 1970s Like today's selfies TV snapshots were a popular photographic practice through which people visualized their lives in an increasingly mediated culture Drawing on her collection of over 5 000 TV snapshots Spigel shows that people did not just watch TV women used the TV set as a backdrop for fashion and glamour poses people dressed in drag in front of the screen and in pinup poses people even turned the TV setting into a space for erotic display While the television industry promoted on screen images of white nuclear families in suburban homes the snapshots depict a broad range of people across racial ethnic and class backgrounds that do not always conform to the reigning middle class nuclear family ideal Showing how the television set became a central presence in the home that exceeded its mass entertainment function Spigel highlights how TV snapshots complicate understandings of the significance of television in everyday life

Snapshot Photography Catherine Zuromskis, 2021-08-24 An examination of the contradictions within a form of expression that is both public and private specific and abstract conventional and countercultural Snapshots capture everyday occasions Taken by amateur photographers with simple point and shoot cameras snapshots often commemorate something that is private and personal yet they also reflect widely held cultural conventions The poses may be formulaic but a photograph of loved ones can evoke a deep affective response In Snapshot Photography Catherine Zuromskis examines the development of a form of visual expression that is both public and private Scholars of art and culture tend to discount snapshot photography it is too ubiquitous too unremarkable too personal Zuromskis argues for its significance Snapshot photographers she contends are not so much creating spontaneous records of their lives as they are participating in a prescriptive cultural ritual A snapshot is not only a record of interpersonal intimacy but also a means of linking private symbols of domestic harmony to public ideas of social conformity Through a series of case studies Zuromskis explores the social life of snapshot photography in the United States in the latter half of the twentieth century She examines the treatment of snapshot photography in the 2002 film *One Hour Photo* and in the television crime drama *Law and Order: Special Victims Unit* the growing interest of collectors and museum curators in vintage snapshots and the snapshot aesthetic of Andy Warhol and Nan Goldin She finds that Warhol's photographs of the Factory community and Goldin's intense and intimate photographs of friends and family use the conventions of the snapshot to celebrate an alternate version of family values In today's digital age snapshot photography has become even more ubiquitous and ephemeral and significantly more public But buried within snapshot photography's mythic construction Zuromskis argues is a site of democratic possibility

Postcolonial Narratives and the Ethics of Witnessing is a critically engaged exploration of power and its relation to ethics and bodies By revisiting and revising Judith Butler s and Homi Bhabha s queer and postcolonial theories of literary performance McCormack expands current understandings of the performative workings of power through an embodied multisensory ethics That remembering is an embodied act which necessitates an undoing of one s sense of self captures how colonial and familial histories silenced by hegemonic structures may only emerge through opaque bodily sensations These non institutionalised forms of witnessing serve both to reconfigure theories of performativity by re situating the act of witnessing as integral to the workings of power and to interrogate the current emphasis on speech in trauma studies by analysing the multifarious communal and public ways in which memories emerge In *Queer Postcolonial Narratives and the Ethics of Witnessing* the body is reinstated as central to both the workings of and the challenges to colonial discourses **Visual**

Cultures of the Ethnic Chinese in Indonesia Abidin Kusno,2016-10-06 *Visual Cultures of the Ethnic Chinese in Indonesia* explores how visual representations shaped and were shaped by how the ethnic Chinese confronted the period of economic dislocation and radical social change during Dutch colonialism and the nationalist struggles in the decolonized Indonesia including the post 1965 and 1998 social environments How did the ethnic Chinese communities re present themselves to both their domestic and outside world under the changing regimes of representation How did they visualize symbolically their place in Indonesian society How did the visual shape the ambiguities of the Chinese the perception of the economic identity and the forgetting of their involvement in politics cultures and histories of the nation More broadly how did the visual address the interconnectedness of domestic life the urban cultural milieu and ideologies of the state and the ruling class The book is a response to two paradoxical socio political phenomena whose convergence is shaping the experience and conceptualization of ethnic Chinese in Indonesia On the one hand the economic technological and cultural forces of colonialism and globalization have created conditions for the formation of ethnic Chinese capital ists while on the other the

state generated identity and identification constituted the discourses of othering the ethnic Chinese as foreign minority
