It's not easy to explain and understand what lies beyond the night sky. This curated collection of 26 projects from the bestselling *Astronomy Lab for Kids* introduces children to the basics of outer space through 26 hands-on labs that can be completed with everyday items from around your house. It's the perfect resource for teachers, homeschool families, and community groups. Mini astronomers will learn about things such as the size and scale of planets using sandwich cookies and tennis balls, how to measure the speed of light with a flat candy bar and a microwave, how to make a simple telescope with magnifying glasses, and so much more. Kids of all ages and experience levels will love completing these hands-on labs with the guidance of adults. Why wait to introduce children to the expansive wonder of the skies when Little Learning Labs' *Astronomy Lab for Kids* can put it within their reach today.

**All About Crystals and Gems (A True Book: Digging in Geology)** Libby Romero, 2021-05-04. What are crystals and how do they form? How are crystals related to minerals and what are their properties? This book answers these questions and many more about cool crystals. From their unique structure to the most popular types of crystals in the world, everything readers need to know is covered. [The Elementary School Library Collection, Phases 1-2-3](#), 1998.

**Eyewitness Explorer: Weather Watcher** DK, 2015-09-01. From light breezes to heavy storms, *Weather Watcher* helps young readers understand the different weather conditions that affect our everyday lives. With over 30 activities, kids can study clouds and fog, make a rainbow, create a snowflake, track a storm, and make tornadoes and hurricanes using everyday objects. *Eyewitness Explorers* encourage hands-on learning with 30 easy activities that help children observe, explore, and learn about the natural world. Each book explains the science behind the activities, laying the essential groundwork for contextualizing the experience to come. But at the heart of the books are the activities themselves, a chance to learn by doing with experiments that can be carried out right at home. Most can even be completed with materials already on hand, so there's no complicated preparation or specialized equipment needed. Simply choose one of the projects and follow the step-by-step, photographically illustrated instructions.

**Experimental General Science** Willard Nelson Clute, 1917. *The Horn Book Guide to Children's and Young Adult Books*, 1992.

**Nature Explorer** DK, 2010-05-03. *Nature Explorer* is a compilation of our best titles from the very successful *Nature Activities* series. Readers learn about rocks and minerals, birds, insects, weather, and more with DK's spectacular photography and imagery serving as an informative backdrop. In addition, readers are encouraged to observe, take notes, and do their own experiments in the park, their backyards, even their own kitchens. Easy-to-do activities help teach kids about the world around them. They can observe and track how often parent birds feed their hatchlings or create a miniature desert and watch the plants thrive, or create a moth trap and get a close-up look at the nighttime insects. This is a unique opportunity for kids to become experts and study the natural world.

**Making School Inclusion Work** Katie Blenk, 1995. Guide on how to make true inclusion happen.

**How to Motivate Children to Learn** Michele Henderson. Motivation plays an important role in forming students' desire to participate in the learning process. Although students may be equally motivated, the sources of their motivation may differ. The sources to which

they attribute their successes and failures create critical implications for them This book offers some valuable guidelines for how they should approach and cope with such complicated learning situations      **Astronomy Lab for Kids** Michelle Nichols,2016-10 Introduces readers to the basics of space in lessons that can be done with everyday items from around your house      **Planning for Learning through Weather** Rachel Sparks Linfield,2012-08-08 Plan for six weeks of learning covering all six areas of learning and development of the EYFS through the topic of weather The Planning for Learning series is a series of topic books written around the Early Years Foundation Stage designed to make planning easy This book takes you through six weeks of activities on the theme of the weather Each activity is linked to a specific Early Learning Goal and the book contains a skills overview so that practitioners can keep track of which areas of learning and development they are promoting This book also includes a photocopiable page to give to parents with ideas for them to get involved with their children s topic as well as ideas for bringing the six weeks of learning together The weekly themes in this book include wet weather sunny weather and everything in between      **Crystals** Patrick Perish,2019-08-01 Snowflakes float gently through the air Aged cheeses add the perfect flavor to an afternoon snack Gas stoves boil water for pasta Each of these everyday objects contains crystals They are in nature in food and in many of the appliances and electronics we use every day This title explores the ins and outs of crystals from how they are structured and how they form to how we use them Special features such as a crystal profile an activity and several formation diagrams help readers understand the complex world of crystals
